

Household Hazardous Waste Collection

Free Lake Dallas Residential Curbside Collection

As part of the residential solid waste contract with Waste Management, residents of Lake Dallas will have a new method to dispose of their household hazardous waste effective now. The program operates year round – not just on special dates. Residents with hazardous waste such as batteries, chemicals, motor oil, antifreeze and select other types of waste which are toxic to our environment can contact Waste Management directly at (800) 449-7587, or atyourdoor@wm.com to arrange a pick-up.

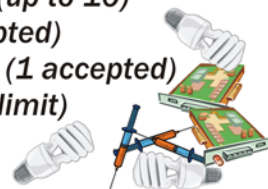

- 1.) Call 1-800-449-7587 to request a collection. When you call the collection hotline, you will be asked several questions, including your address, the type and amount of materials available for collection. You can also set up an appointment by emailing atyourdoor@wm.com.
- 2.) The collection hotline operator or reply email will fully explain the program, schedule a convenient collection date and discuss where to place the kit for collection.
- 3.) A collection date is scheduled and a kit is conveniently shipped right to you.
- 4.) Prepare for Collection: The kit includes a program instruction sheet and other items to help pack and secure household hazardous waste. All materials such as gasoline, poisons, pesticides, and aerosols must be placed into the kit. Other items may need to be placed outside of the kit.
- 5.) HHW material is collected: On the scheduled date, the materials will be collected directly from your home. The materials will be sorted and packed for proper disposal. You will receive a survey to complete and mail to the City of Lake Dallas.

Place these items outside of the Hazardous Waste Kit:

- Automotive batteries (up to 4)
- Fluorescent bulbs (up to 10)
- Television (1 accepted)
- Computer monitor (1 accepted)
- Circuit boards (no limit)

These items will NOT be collected:

- Medicine
- Ammunition
- Explosives
- Asbestos
- Any material in unlabeled or leaking containers

If you have any questions about this program or proper disposal methods for non-acceptable items, commercial chemicals or hazardous materials in containers larger than five gallons in size, please call the hotline (800) 449-7587 or email atyourdoor@wm.com
