HELD AT CITY HALL JULY 12, 1984

The meeting was called to order at 7:10 P. M. with the Mayor presiding and the following persons present:

[redacted]ny J. Vinson, Mayor
A[redacted]e M. Kennedy, Mayor Pro Tem
P. [redacted]. Byers, Councilman
Ronald E. Honse, Councilman
Ronny L. Kee, Councilman
N. Jean Chambers, City Secretary

All members of the City Council being present, the following business was transacted:

It was explained that a variance on set back requirements from the building line had been granted to Tom Coulter on April 14, 1983 to construct a commercial warehouse relative to Lot 9, Block A, First Highway Addition, located at 205 Carlisle Drive predicated on his agreement to install a fire hydrant at that location. This set back variance permitted a 17.5' to 21.8' front yard, 1' off North property in rear, 0 West side yard, and 16.4" East side yard.

It has now been determined that there is only a 2" water line serving that portion of Carlisle and a 6" water line is required to support a fire hydrant. Mr. Coulter stated at the time of the variance agreement, he assumed the line serving the property was adequate to support same, and felt it was unfair to require him to install a 6" water line to support the fire hydrant in order to develop one small lot and requested relief from that conditional requirement.

Fire Marshall Jerry McCutcheon stated he would be willing to accept the inoperatable fire hydrant located at the corner of Sargent and Carlisle being replaced by Mr. Coulter with a new Mueller Hydrant at an approximate cost of $1,200 including the valve.

It was moved by Councilman Payne to approve relief from the conditional requirement of variance providing the owner would purchase approved Mueller Fire Hydrant and Valve to be set at Sargent and Carlisle replacing the old, inefficient fire hydrant. Councilman Honse seconded the motion and it prevailed by the following vote:

AYES: Messrs: Payne, Honse, Byers and Ms. Kennedy
NOES: Mr. Kee

MINI-WAREHOUSES

Mr. Jerry Blazewicz and Mr. Bud West appeared before the Council asking for a variance from Ordinance No. 175 which requires that a six foot (6') wooden privacy fence be constructed upon completion of the project before an occupancy permit is issued. They stated the neighbors to the East of the property presently has a chain fence erected and does not want it removed. They have offered to remove it and install the wooden fence inasmuch as if he erects the wooden fence next to the neighbor's chain fence, an area will be created to catch garbage and weeds with little or no way to remove it.

Messrs. Blazewicz and West stated their willingness to comply with the requirements of the Ordinance, but requested the Council's decision on whether in this particular set of circumstances, the

fence may create a more unsightly condition for the neighbor than it was designed to protect.

MINUTES OF A SPECIAL MEETING OF THE
CITY COUNCIL OF THE CITY OF LAKE DALLAS
HELD AT CITY HALL AUGUST 16, 1984

The meeting was called to order at 7:30 P.M. with the Mayor presiding and the following persons present:

Bill Honse, Mayor
Anne M. Kennedy, Mayor Pro Tem
P. O. Byers, Councilman
Linwood Gilliland, Councilman
Ronny L. Kee, Councilman
J. C. Payne, Councilman
M. Jean Chambers, City Secretary

There being no persons absent from the meeting, the following business was transacted:

Mayor Honse stated the purpose of this meeting is to provide a Public Hearing on the proposed Budget for Fiscal Year 1985. He said the Council had worked diligently preparing the budget and welcomed any written and/or verbal comments regarding same. Copies of the Budget were available for review by any interested persons.

A total Budget in the amount of $632,689.00, down 6.15% from the previous year, was proposed for Fiscal Year 1985 with the following departmental appropriations:

Department	Total Appropriation	Percentage of Increase or [Decrease]
Administrative	$137,506.00	7.84%
Police	295,495.00	11.87%
Street	165,876.00	25.59%
Fire	33,812.00	1.79%
Total Appropriations	$632,689.00	[6.15%]
Total Estimated Revenues	$632,689.00	[6.15%
Surplus - [Deficit]	-0-	

It was stated that all Revenue Sharing Funds, in the estimated amount of $22,642.00, representing approximately 3.58% of the total revenues, were presently designated to be used for street improvements.

It was explained that, due to the elimination of the need to fund a Sanitation Department, the overall budget was reduced while each remaining departmental appropriation was increased. The larger than average increase in appropriation for the Street Department is also due in part by the elimination of the Sanitation Department because of a transfer of personnel from that department into the Street Department.

Mayor Honse repeatedly called for any comments and are questions regarding the proposed Budget for 1985 from any person. No response was made.

After adequate time was given for all interested persons to be heard on the matter of the 1985 Budget, Mayor Vinson declared the Public Hearing closed.

MINUTES OF A REGULAR MEETING OF THE
CITY COUNCIL OF THE CITY OF LAKE DALLAS
HELD AT CITY HALL SEPTEMBER 13, 1984

The meeting was called to order at 7:30 P.M. with the Mayor presiding and the following persons present:

Ronald E. (Bill) Honse, Mayor
Anne M. Kennedy, Mayor Pro Tem
P. O. Byers, Councilman
Linwood Gilliland, Councilman
Ronny L. Kee, Councilman

M. Jean Chambers, City Secretary

There being no persons absent from the meeting, the following business was transacted:

I. APPROVAL OF MINUTES.

Councilwoman Kennedy moved for the suspension of any rule requiring that the minutes of the meetings held July 12, August 9, 16, 25 and September 4, 1984 be read aloud, and that said minutes be approved as presented in writing by City Secretary. Motion seconded by Councilman Payne and carried unanimously.

II. CITIZEN'S AGENDA.

Mr. James Bragg, unsuccessful candidate for the City Council last April, expressed his disapproval at the appointment of Mr. Gilliland to serve out Mr. Honse's unexpired council term, and questioned the legality of the appointment inasmuch as the matter had been posted as a discussion item on the agenda for that particular meeting rather than an action item. He stated, while he had absolutely nothing against Mr. Gilliland and was certain he would make a good Councilman, he had not indicated an interest in the position by running for the office as he had done. Mr. Bragg said he was disappointed this Council did not choose the practice established by previous Councils of appointing the next candidate not elected and receiving the highest number of votes cast in the last City Officers' Election. Mayor Honse responded by stating that the Attorney for the City had explained the various options available to the Council in filling the position, and they chose to make an appointment that could be supported unanimously.

. Mr. Charlie Berry again expressed his concern regarding the hazardous traffic conditions presently existing at the intersection of Hundley Drive and Shady Shores Road, and urged the Council to take the necessary steps to have a 4-Way Stop Sign erected before a terrible accident occurs. Mayor Honse responded by explaining that the State has established certain criterion which must exist before a traffic control device may be installed, and, at last count, the traffic going through the intersection did not meet the published criterion for a 4-Way Stop Sign. He added, however, he would check further to see what other circumstances might justify the control devices.

Jerry McCutcheon, Chief of the Lake Cities Volunteer Fire Department, submitted a list of inoperable fire hydrants and their location within the City.

He stated out of sixty-four hydrants tested by the Fire Department, seventeen were out of service. He said he had made every effort possible over a period of several years to encourage the Lake Cities MUA to make fire hydrant maintenance top priority and had been unsuccessful. He urged City Council to have a joint meeting with the Board of Directors of the Lake Cities MUA in an effort to solve this critical problem.

Mayor Honse called for public comments on the request.

Mr. Lawrence Imes stated that approximately two months ago, the Cable Company had gotten their trencher stuck in the easement property adjacent to his home. Since this property is used as an alley way, this caused a problem in drainage and passage way through the alley. He felt that if an increase of 20% is being asked, an increase in services should also be forthcoming.

Mr. Joel Dalton spoke in opposition to the increase; asking instead that a study be made in conjunction with Corinth and Hickory Creek since the city entered into the agreement in conjunction with these other cities. He also complained that there was cable not buried and when service is disrupted, there is no indication that there is something wrong with your set, or that a problem exists with the Cable Company.

Mr. Mike Fahey stated our cable rates were competitive with other area cable rates, but less service is available for the basic rate.

Mrs. Carolyn Green stated she had experienced problems getting the Cable Company to bury their cables.

Mr. Tommy Vance, representing Lake Cities Cablevision, Ltd., stated that since taking over ownership of the company, they have tried diligently to get all the unburied cables buried of which they were aware. He will relay the complaint about the interference and disruption in service to the Chief Engineer and try to get the matter solved in the near future. Mr. Vance also suggested that when comparing basic rate structure and services provided, one should look to the size of the system. It is much easier to provide larger selections when you have a larger number of subscribers. They have twenty (20) basic channels and there is no technical reason why this many channels should not be received. He pointed out that his company has also now implemented 24-hour maintenance service since purchasing the system.

After allowing sufficient time for public discussion, Councilman Byers moved for adjournment of this meeting. It was seconded by Councilman Linwood Gilliland and carried unanimously. The meeting was adjourned at 7:30 P.M.

MINUTES OF A BOARD OF ADJUSTMENT MEETING
HELD AT CITY HALL, APRIL 9, 1992

I. ROLL CALL.

The meeting was called to order with Linwood Gilliland presiding and all members present.

II. PUBLIC HEARING: PETITION OF LYLE SHELTON REQUESTING A VARIANCE FROM ORDINANCE NO. 25 REGARDING PLACEMENT OF A MANUFACTURED HOUSE ON A FOUNDATION WHICH DOES NOT MEET R1-6000 ZONING REQUIREMENTS AT 720 MOSELEY.

Lyle Shelton presented his request for a variance to allow him to retain his manufactured home which was placed on blocks at 720 Moseley.

Aldena Gregory commented that she felt every resident should meet the codes. Linwood Gilliland explained that the company that sold and setup the house was aware of the city's codes and that they were informed that the slab did meet our codes because it was not on a permanent foundation. Mayor Honse said the house was setup on a foundation that meets requirements for mobile homes.

Roy Clark inquired why the City did not make the builder correct this problem during the process. He was informed that there were several misrepresentations made by the manufactured housing company such as the fact that it was a modular home when in fact it is a mobile home. He further stated that it had been determined that the best way to solve all the problems associated with this resident was to request a variance.

Matt Flanagan noted that there was still some question on the building costs as stated on the permit and that the permit fees were based on $30,000. when the building supposedly cost $38,000.

Garry Bills stated that he thinks Mr. Shelton should force the company that sold and setup the home to come back and set it up according to code even if it means taking them to court. He said that the city should not have to do this but he would be prepared to do this if necessary. He further stated that allowing this mobile to remain as is would mean that the city would have to allow any other person to do the same thing.

Sandy Payne and Bill Gilliland felt like the city was partly to blame for this problem.

Sandy Payne moved to approve the variance a requested by Lyle Shelton with Mr. Shelton paying the additional permit fees.

Bill Gilliland seconded the motion and it carried with the following vote: Ayes: Sandy Payne, Bill Gilliland, Matt Flanagan, Linwood Gilliland. Noes: Garry Bills.

V. DISCUSSION OF THOUSAND OAKS SUBDIVISION AND ANY ACTION.

David Berman, City Attorney, informed the Council that although it appeared that in 1986 there was action taken to rezone Thousand Oaks R-1-7200 with Group Housing, this action was never officially adopted. Therefore, in his opinion, the zoning still remains as R-1-7200 which requires a minimum of 1500 square feet living area. He advised that the Council has the

option of changing the minimum living area requirements for all R-1-7200 Zone Districts; or they could create a new district for the Thousand Oaks Subdivision which would increase the living area requirements.

In July 1994, after speaking with Mike McCary, I came to the City Council for help with this ordinance. After three months Mike wrote an ordinance with the assistance of David Berman. The ordinance was written on 10-15-94. I was then asked to get approval from the P & Z. On March 2, 1995, the P & Z approved the ordinance, on that night Mike told me that he would have to send letters to all parties involved so it would be the next month before it would come before the city council. Mike quit on March 31, 1995. The City Council did discuss an ordinance on May 11, 1995, but the discussion was more on the lines of putting curtains up for privacy. On May 12, I asked Barbara about the letters and she said that letters did not have to be written only a public notice was required. I had asked for help before the water department and they have already received help. Someone told me that if there is trash in your backyard go to the police, but the law has their hands tied.

B. THOUSAND OAKS ADDITION PARK AREA, MEETING WITH DEVELOPER JIM DOUGLAS.

The council had discussed not issuing any building permits for Phase II until the developer had addressed some of the issues of concern in Phase I. The developer has addressed and corrected most of the issues with the exception of the trees that were removed.

Pat Atkins with Tipton Engineering representing Jim Douglas and Pulte Homes, during the pre plat and final plat of Thousand Oaks we had made a strong commitment to fulfill the wishes of the council, we all knew the vegetation was there, but no one ever focused on discussion of it. When we submitted our grade plan that represented the tremendous amount of cuts and fills that would be necessary, we knew that a large amount would have to be eliminated. There may have been some procedural process that we did not properly handle. There was no intent to ignore the ordinance related to the vegetation. We would like to make a commitment to the city council to put in two, three inch trees on each lot in an effort to replace some of the trees that were removed. This would be over and above Pulte Homes requirements.

Also Technacraft had left the fire door off his bid and they would like it added. The present door is a fire door, only the bar needs to be added and lock needs to be changed.

Mayor McCutcheon reports that the committee has not had any meetings recently. The Park Board is doing research on Swisher Cemetery.

E. ORDINANCE RELATING TO PLACE ELECTION OF COUNCIL MEMBERS.

Ordinance relating to place election of council members will be placed on the agenda as an action item for the next city council meeting.

David Shershen, why go to this system as opposed to the system we currently have?

Matt Flanagan, it was my request and what I would like to see is someone to run against someone else's ideas.

David Shershen, how would the districts be set up?

Matt Flanagan, no districts, just place one through five and each council member is assigned a number and when it comes time for re-election you say I want to run for place four and who ever is in that spot is who you go up against. Every place is still at large.

David Shershen, so the whole community would vote for each place.

Matt Flanagan, that is correct.

F. SOUND SYSTEM.

Matt Flanagan is working with a gentleman that Bruce Martin had suggested and he is having a problem finding anyone in the area representing the system the Chief has suggested. He is working on getting a price on retrofitting the back of the amp to accept any plug, because someone cut the mic and we never got the mic.

G. REVIEW OF LAKE DALLAS MUNICIPAL CODE, SECTION 6.44.030(B)-ACTION.

Garry Bills, stated the problem with ordinances presented to the council in the past was the weight stipulation. I would have hated to tell someone you can have a pig as a pet, then all of a sudden that pig grew to 150 to 200 pounds, and having to tell that person, I am sorry that pig is your pet, but you have to get rid of it. That would be like telling someone you have to get rid of your dog because it is the wrong color or breed. I do not know how to get around it other than striking and size or weight limitation in an ordinance. We would also have to define a pot bellied pig as not being swine.

Thanna Bounds, how large do pot bellied pigs grow?

Matt Flanagan, they will grow as big as you want to feed them.

Mayor McCutcheon, I understand it depends on how much they are inbred and how much you feed them. The original Vietnamese

pot bellied pig is normally under 100 pounds.

David Shershen, if I am not mistaken isn't it under 125 pounds.

Mayor McCutcheon asked for council input as to whether or not they would like to review the swine ordinance again.

Matt Flanagan, I am for letting the ordinance stand as written. I feel a pot bellied pig is basically a barnyard animal and not domesticated, like Garry I grew up around them and I do not feel I want a swine living next to me.

Thanna Bounds, I disagree with Matt, I don't think pot bellied pigs are swine. I grew up on a farm, hogs are nasty creatures and from what I know about pot bellied pigs they are clean and a good pet. I have no objections to rewriting the ordinance and defining what a pot bellied pig is.

David Shershen, I was not here when the issue came up before. I personally do not have a problem with pot bellied pigs. I do not own one and never have, but I have met people who have. There are 34 signatures on this petition and that's enough to get my attention, actual one voice would get my attention. I would not want the raising of pigs, swine, hogs, boars, or what ever you want to call them, to go on in Lake Dallas. I have some questions about the size limitations on pot bellied pigs. I would be in favor of bring the issue up and discussing it.

Garry Bills, I think probably the intent in 1987 when this was rewritten was that there were people keeping livestock in their yards. We do have restrictions on the number of chickens and other animals. I would be open to reevaluating the ordinance, if someone could convince me that a pot bellied pig is not a swine. Maybe we could put restrictions on how many pot bellied pigs someone could have, just like we have done for dogs and cats.

Mayor McCutcheon, I contend maybe the way to handle it would be to classify a pot bellied pig as an exotic animal. The pot bellied pig would have to be permitted and have any necessary shots on an annual bases. The Animal Control Officer could then keep a list of all pot bellied pigs, so they could be regulated by the city. Mayor McCutcheon request the Animal Control Officer obtain information on defining what a pot bellied pig is.

David Shershen moved to study, discussion and possibly take action for revision of Lake Dallas Municipal Code, Section 6.44.030(B) at the next council meeting. Thanna Bounds seconded the motion and it carried with Matt Flanagan opposed.

H. SHADY SHORES ROAD PROJECT.

Mayor McCutcheon reports that a letter has been submitted to Commissioner Kirk Wilson asking for county participation. We have given them a bid amount of $550,000.00 for the entire project. We

met with the corp at the project site and they informed us that we can not use existing dirt, it would have to come from below their 537 line so that we do not disturb the hydraulics of the lake. They will provide us a location to get the dirt, but it has to come out of a bowl of the lake so we do not change the gallonage of the lake. The trees that we remove along the right of way on their side of the road may have to be replaced. We have sent a letter to the corp office addressing these issues.

XIII. NEW BUSINESS.

Garry Bills, I was reviewing our budget against expenditures to date, and it appears all the work we did on the streets, Overly, Howard, Prince, and Kings Manor the entire amount was applied against the street department budget for this year. We specifically used $92,000.00 from last years budget. That is why a purchase order was to be cut against last years budget. We did not put those funds in the street department budget for this year, it was in the street department budget for last year. That needs to be fixed.

Mayor McCutcheon reports that the street department has been doing a tremendous amount of work repairing the streets and continuing to mow. The building inspection department is doing a lot of high grass and weed inspections.

Matt Flanagan reports that Mike Conway would like to purchase Bud Archer's property at I-35 and Swisher for a convenience store with beer and wine sales. Matt Flanagan presented pictures from Mike Conway showing his proposed grocery store for the location.

Mayor McCutcheon, what were the comments and issues addressed by the Planning and Zoning Commission? Mike Conway was wanting a right to sell beer and wine at the location, if he purchased the property.

Matt Flanagan, Mike Conway is a seller of petroleum products, but if he can not get C-3, and someone builds on the corner in Corinth he would not be able to compete because he does not sell beer. Mike Conway reported to Matt Flanagan that he would start the application process for the change in zoning.

XIV. ADJOURNMENT.

Thanna Bounds moved to adjourn the meeting. Garry Bills seconded the motion and it carried unanimously.

III. MINUTES.

David Shershen moved to approve the minutes of meetings held in June, 1995. Garry Bills seconded the motion and it carried unanimously.

IV. CITIZEN'S AGENDA.

A. Aldena Stowe Gregory, states that the library board would like permission to put up a sign showing "Lake Cities Library" removing "and Library" from the current sign which reads "Lake Dallas Community Center and Library. The sign would be at the library's expense. She also delivers for Meals on Wheels and has noticed the homes in Kingswood do not have numbers on them. Also has a problem with the way the homes are numbered. The Mayor states that the Code Enforcement Officer will address the problem.

B. Rosalee Johnson, 719 Cain Street, understands that the family at 712 Thompson St. has requested that the residents of the townhomes be required to enclose their balconies. The resident has also moved in a trailer in his backyard and has someone living in it. In the easement area he has installed two gates one at each end, that are locked and she does not know how TU Electric is able to get in to read the meters. She would like this to be taken care of. Mrs. Johnson presented pictures of the trailer in the backyard at 712 Thompson.

Matt Flanagan reports that he also has received a complaint from another citizen regarding a TU Electric meter that is being averaged instead of read each month.

C. Bobby Shikle, 712 Thompson Dr., he believes that it is legal to have the trailer in his backyard and that no one is living in it. He stated that Mike McCary, the previous Code Enforcement Officer had suggested that he put up the fences due to the problems he was having. He was told that he would have to take care of a portion of the easement and TU Electric knows that he has the fences up.

V. PUBLIC HEARING.
PETITION OF LAKE CITIES MUNICIPAL UTILITY AUTHORITY REQUESTING A ZONING CHANGE OF 102 HILLCREST, AND 504 MEADOWBROOK, FROM R-1-7200 TO C-1.

No public comment.

VI. ACTION FROM PUBLIC HEARING.

Matt Flanagan moved to approve the zoning change of 102 Hillcrest and 504 Meadowbrook, from R-1-7200 to C-1. David Shershen seconded the motion and it carried unanimously.

VII. PUBLIC HEARING.
CONSIDER A ZONING CHANGE OF LAKE DALLAS MUNICIPAL CODE, CHAPTER 18.44, NEWLY ANNEXED AREAS, FROM R-1-7200 TO R-1-10,000.

Mayor McCutcheon, asked to be briefed on this request.

Barbara Starkey replied that currently any new areas annexed by the city receive a zoning of R-1-7200. The Planning and Zoning Commission would like newly annexed areas to receive a R-1-10,000 zoning.

Mike Fahey replied that the current ordinance requires that new areas be zoned R-1-7200. If you allow for an owner to pick his own zoning he could put whatever he wanted on the property. So if you have it zoned R-1-10,000 they start with that and if they want a zoning change they could go through the process. This would allow the Planning and Zoning Commission and the City Council to decide what a property is going to be zoned.

Linwood Gilliland, this request from the Planning and Zoning Commission was done to allow for some control over newly annexed areas. The zoning could always be changed as needed.

VIII. ACTION FROM PUBLIC HEARING.

David Shershen moved to approve the zoning change of Lake Dallas Municipal Code, Chapter 18.44, Newly Annexed Areas, from R-1-7200 to R-1-10,000. Bruce Martin seconded the motion and it carried unanimously.

IX. PUBLIC HEARING.
CONSIDER AN ORDINANCE AMENDING THE LAKE DALLAS MUNICIPAL CODE, CHAPTER 2.08, ALDERMEN, BY ADDING SECTION 2.08.040 CREATING A PLACE SYSTEM; PROVIDING FOR THE ASSIGNMENT OF PLACE NUMBERS TO EACH ALDERMAN'S OFFICE; AND PROVIDING AN EFFECTIVE DATE.

Aldena Stowe Gregory, stated that Carolyn Green wanted her to let the council know that she was against this ordinance.

X. ACTION FROM PUBLIC HEARING.

David Shershen has a problem with the ordinance and feels it could discriminate against new candidates. A new candidate would run against a particular incumbent and it would not allow for incumbents to run against each other. He fears that new candidates may have less of a chance of getting elected, new candidates would have less of an inclination to run, and unless there are term limitations he could see people staying in office for a very long time. He could see that running against someone else's ideas is good, but he would like to see that the new candidate is protected and that the incumbent is challenged.

Matt Flanagan feels that Councilman Shershen's fears are unfounded, if someone has a problem with how a council member preforms then there will be people out there to run against them. Term limitations, the citizens decide your term limitations.

Bruce Martin moved to approve the ordinance amending the Lake Dallas Municipal Code, Chapter 2.08, Aldermen, by adding section 2.08.040. Garry Bills seconded the motion and it carried unanimously.

V. CITIZEN'S AGENDA.

A. Debbie Pierce, Atchison Dr., requested the city look into repaving Falcon Drive, Hundley and Main Street. She also requested that the speed on Atchison Dr. be reduced to a school zone speed, and she would like to know if the city could look at building a city swimming pool.

B. Dennis Morales with Flamingo Homes has built several homes in the Oak Lakes Subdivision. He presented the City Council with a registered engineer report addressing the storm drainage system in the Oak Lakes Subdivision. Mr. Morales reported that the storm drainage system was designed to make use of the paved streets with graded drainage ditches on each side to transport storm waters to a creek on the east side of the subdivision, since the drainage ditches have not been maintained they have built up with silt so they no longer function as a storm drainage system. He reported that his engineer recommends that a complete hydrology analysis be done.

C. Terry McKool, Oak Lake Subdivision presented the City Council with pictures and an engineer report addressing the drainage problems in the Oak Lake Subdivision.

Mayor McCutcheon reported that the City Council has discussed the possibility of doing a drainage study for the entire city.

D. Liz Darow, Thousand Oaks Subdivision, is interested in a recycling program. She also would like to know if the city would look at city wide bug spraying.

Mayor McCutcheon reported the City does not own the garbage system, it is contracted through Texas Waste Management and their curbside recycling is extremely expensive. Also the City does not own any equipment to provide city wide bug spraying.

Garry Bills reported that about six years ago the city did have a recycling program located at Allsups. It was set up for paper, bottles and plastic, but people would not separate their trash from the recyclable.

E. Sue Ball, Swisher Road, has heard that Swisher Road is going to be part of the road for the bridge across the lake.

Mayor McCutcheon reported that the Commissioners Court is possibly trying to obtain right of way for the project, but the City Council is fighting against this project.

Close Citizen's Agenda.

VI. PUBLIC HEARING.
CONSIDER REZONING OF H. H. SWISHER SURVEY, TRACT 3 CURRENTLY R-3 TO R-1-10,000.

Sue Ball, stated that several years ago when the City Council changed the zoning from agricultural to R-3 she and her husband were against the zoning change and are still against the R-3 zoning on this property.

Barry Knight, Attorney representing Charles Jackson the owner of the Jackson Ranch. Mr. Knight stated that the property is surrounded by commercially used property and that because of the usage of the property surrounding Jackson Ranch he feels the R-3

zoning is appropriate. He also reported that there is flood plan on the property and that the R-3 zoning would be more appropriate for the property. The Jackson Ranch is 300 feet from I-35, and I-35 is a proposed NAFTA highway, this along with the proposed lake bridge route down Swisher Road would make the Jackson Ranch property use more appropriate for apartments. Mr. Knight stated that he is very concerned with the way Mr. Jackson has been treated by the City. The Planning and Zoning Commission gave Kim Jackson one days notice of a date when a vote was to be taken on the rezoning. There was a public hearing, but there was a long stretch of time after the public hearing and a workshop before the vote was taken. Mr. Jackson's son attempted to submit preliminary plans, but city staff refused to accept them and then he heard the City Council passed a moratorium on the acceptance of any plans on the property. He feels the plans were submitted before the moratorium was past and he believes that they have a right to develop the property. Mr. Jackson has submitted a letter of opposition to the rezoning.

Charles Jackson, stated he has owned the property since the late 70's and feels the property is zoned properly.

Ken Stapleton, 511 Ridgewood, what is the total size of the property?

Kim Jackson responded that the property covers approximately 48 acres in Lake Dallas.

Matt Flanagan moved to adjourn the public hearing, with the public hearing to be continued on October 12, 1995 at 7:00 p.m. Garry Bills seconded the motion and it carried unanimously.

VII. ACTION FROM PUBLIC HEARING.

VIII. PUBLIC HEARING.
CONSIDER REZONING OF M.E.P. & P.R.R. SURVEY, TRACT 71 & TRACT 62 CURRENTLY R-3 TO R-1-10,000.

Art Anderson, Attorney representing the owners of the property. Mr. Anderson stated that the City has yet to convince him that down zoning this property is the proper use for this tract of land. This tract of land is currently surrounded by multi-family property.

Liz Holland, 604 Main Street, stated that there is already too much traffic on Main Street now and feels that apartments would only increase the traffic problems. Ms. Holland is opposed to apartments on the property.

James Stanford stated that he is opposed to apartments on the property, because of traffic and drainage problems in the area.

Cylde Fisher stated that he is opposed to apartments on the property, because of the impact on city services.

Larry Gill, Planner for Bud Archer, was hired to establish the highest and best use for this particular tract of land. Mr. Gill feels the problems with access to the property can be worked out. Based on the physical characteristics and location of the property he feels the best use of the property would be multi-family. He feels that it would be very difficult to find someone willing to develop this tract of land for larger single family homes.

Bobby Shikle stated that he is opposed to the R-3 zoning, because of the problems he has encountered with the existing Harbor Town apartments.

Art Anderson, stated the City has no substantial evidence that there has been a change in conditions to justify the rezoning of this property. He stated that he has not seen a traffic study, and any development on the property would have to meet any city requirements.

Bud Archer stated that he stands to lose one million dollars if his property is rezoned and he will try to recover the money if the zoning change takes place through a lawsuit. Mr. Archer stated that there is no justice in the fact that the City is planning to take his property that has been zoned for apartments and change the zoning on his property replacing the zoning with the most difficult zoning to develop. Mr. Archer suggested he and the City jointly hire and pay for a municipal consultant and try to arbitrate something in a modified density that would work on the property.

Matt Flanagan moved to adjourn the public hearing, with the public hearing to be continued on October 12, 1995 at 7:00 p.m. Garry Bills seconded the motion and it carried unanimously.

IX. ACTION FROM PUBLIC HEARING.

Mayor McCutcheon requested that the Upper Trinity Regional Water District post a notice of the construction at both ends of Swisher Road several weeks before they start construction.

The City Council noted that the proposed sewer line down the easement on the west side of Lakeview would require removing numerous large oak trees. The City Council requested placing the sewer line down the middle of street on Lakeview to avoid removing or damaging the oak trees located on the west side of the street.

XVII. DISCUSSION AND CONSIDERATION OF AN INTERLOCAL AGREEMENT FOR DIAL-A-RIDE SERVICE BETWEEN THE CITY OF LEWISVILLE AND THE CITY OF LAKE DALLAS-ACTION.

Alan Guard, Assistant to the City Manager of the City of Lewisville informed the City Council that in 1992 the Lewisville Urban Area became eligible for Federal Financing Section 9 Funds

to provide transportation services within the Lewisville Urban Area. This area includes Lewisville, Flower Mound, Highland Village, Double Oak, Hickory Creek, Lake Dallas, and Corinth. Lewisville opted to provide only demand responsive service to senior citizens and people with disabilities. The City of Lewisville decided to be designated as the recipient and grantee of the Section 9 funds, but they did not want to operate the service, so they went out for bid. Span is now the service provider. The City of Lewisville has purchased three buses that will seat sixteen people. Federal Funding provides fifty percent of the operating cost, the state provides twenty-five percent and the remaining cost needs to come from the remaining cities. The City of Lewisville is asking the participating cities to help share in the operating cost. Each city will pay based on how many rides their citizens use per month for an amount not to exceed $2.28 per ride. The program provides transportation for people who have no other means to get around. Senior citizens ride for free and citizens with disabilities ride for $1.00 per ride.

Mayor McCutcheon asked how the City of Lewisville arrived at the number of riders from each city?

Alan Guard replied Span keeps records of everyone that rides their bus and from what city they are a resident of.

Bruce Martin asked, has Lewisville entered into Interlocal Agreements with Corinth and Hickory Creek for Dial-A-Ride service?

Alan Guard replied that there is not an Interlocal Agreement with Corinth or Hickory Creek at this time.

Garry Bills moved to table approval of an Interlocal Agreement for Dial-A-Ride service between the City of Lewisville and the City of Lake Dallas until mid-year budget review. Matt Flanagan seconded the motion and it carried unanimously.

XX. DISCUSSION AND CONSIDERATION REGARDING UNDERGROUND ELECTRICAL SERVICE-ACTION.

Matt Flanagan asked what the cost would be per foot to put the electrical lines underground?

James Loveday, Local Manager with TU Electric replied that there are many factors involved with placing the lines underground depending on secondary or primary service and the size of conductors. At the current time TU rates are based on overhead facilities, so anything other than overhead facilities would cost between three and ten times the cost of overhead facilities.

The City Council requested that Mr. Loveday prepare a preliminary cost estimate for placing the electrical lines underground at the park at Hundley and Shady Shores.

Randy Squire, 630 Lake View Drive, would like to know if the City has any new information about the lake bridge project? He would also like to know if the City is for or against the project?

Mayor McCutcheon replied that he could obtain information from the Commissioners Court in Denton and that the City Council is against the bridge project.

Gladys Aston, 212 Pecan Lane, stated that in August she called the gas company to come out and check her range. When the man with the gas company arrived and checked her gas appliances he informed her that she was breaking the law because she had copper tubing connecting her gas lines into her mobile home and that he was going to have to shut her gas off because this is dangerous. She received no notice from the gas company or the city about the danger of the copper tubing. She would like to know why, if this is so dangerous, are people not being notified?

Norma McAlvey, 25 Kingswood, would like to know if Kingswood is in trouble of being shut down.

Ollie Clark, 212 Shady Shores, stated that the zoning is not very consistent when there is a VFW and an American Legion that are selling alcohol around schools and churches.

Carolyn Green, 201 N. Shady Shores, would like some assurance that the residents in her mobile home park that are living in R.V.'s are not going to have to move until they have an opportunity to hold a workshop to discuss the matter. She would also like to go on record that she is against the combination of alcohol and weapons in our City parks.

Mayor McCutcheon requested that a workshop be scheduled for January 11, 1996 at 6:30 p.m. to discuss mobile homes.

Diane Byers, 699 Lakeland Court, would like to know are the R.V.'s rented out? If they are, shouldn't the owner be the one paying taxes. She also would like to know if a mobile home owner is allowed to upgrade a mobile home?

Garry Bills seconded the motion and it carried unanimously.

XIII. PUBLIC HEARING.
CONSIDER A ZONING CHANGE OF BLOCK A, LOTS 2, AND 4 OF THE HANSEN ESTATES, FROM R-1-4000 TO R-1-6000.

Gene Tisdale, 524 Howard, stated that he does not agree with all the changes the council is making toward everything needing to

have more square footage and be bigger with more "niceties". He feels that a certain segment of the population does not need these things and they need to be respected. He also feels "if it works don't fix it" and there is a need for mobile homes in the city.

Ollie Clark, 212 S. Shady Shores, feels the zoning changes are trying to push the lower income families out of town.

Joyce Campbell, 64 Lakeridge Drive, stated that she has watched the council for a number of years go bigger and bigger. Bigger is not always better. Cleaner is better.

Gail Barnhill, 527 Howard Drive, has been at this address for eleven years. She feels the council is trying to move mobile home owners out of town. She feels mobile homes owners are a vital part of this community.

Ken Barnhill, 527 Howard Drive, feels the children in the mobile home park they live in are safer here than in any other area of town.

Diane Byers, 699 Lakeland, stated that her dad served on the council for many years and he would not agree with all the ordinance changes that the council is making.

Margaret Tisdale knows her brother spends a lot of time working on keeping a nice mobile home park.

Lenora Schoultz, owner of Lake Dallas Mobile Home Park on Thompson Drive, stated that this mobile home park is her retirement and she feels the city is trying to do away with mobile home parks. She feels this is her property and if the City of Lake Dallas wants her property then they should pay her what it is worth not devalue it by 75 percent, which is what would happen if the City changes the zoning. She feels the City is morally and legally wrong in the proposed zoning change.

Bonnie Brown Garcia, her family owns Brown Mobile Home Park. She stated that the mobile home park owners did not request this change and the owners should be allowed to do what they want with their property. She asked that the council respect how the mobile home park owners feel and vote accordingly.

Kathy Crawford, 521 Howard Street, stated that she is a neighbor of the mobile home park and would like the council to leave it like it is.

Close Public Hearing.

XIV. ACTION FROM PUBLIC HEARING.

Thanna Bounds stated the council does not have anything against mobile home parks and she regrets that this has gotten blown out of proportion and all the untruths that have been

written and said. She appreciates what everyone has said and that they should all pull together and not divide our community.

Mayor McCutcheon stated that cities are within their legal rights to review zoning within the city at any time.

Garry Bills stated that the proposed changes were made to address any area that was not conforming with the area around it. Nothing on the zoning map says this is a mobile home and this is a house, all it says is this is R-1-4000, this is R-1-6000, this is M-1. There is just a bunch of dots and dashes on the map. Looking at the map you see something right in the middle that is not the same as everything around it. You do not know what it is without getting something to tell you what those coordinates represent and without getting a street address and going to look at what is there. The Planning and Zoning Commission is here to review zoning issues and set zoning policies within the City of Lake Dallas so that is what they were asked to do. They were not asked to target anyone. They were not asked to target apartments, mobile homes or houses that are less than 1500 square feet. They were asked to look at zoning and legally, notice must be given to property owners and surrounding residents. Public Hearings are a vehicle used by City Councils to talk about zoning issues. That is why the notices were sent out so people could come and talk to the City Council about the proposed changes. No one was targeted and he is very sorry that people have gotten so emotional and upset by this.

David Shershen moved to deny the zoning change of Block A, Lots 2, and 4 of the Hansen Estates, from R-1-4000 to R-1-6000. Bruce Martin seconded the motion and it carried unanimously.

XV. PUBLIC HEARING.
CONSIDER A ZONING CHANGE OF BLOCK I OF THE LAKEVIEW CAMP ADDITION FROM M-1 TO R-1-6000.

Dean Drozd stated that he is the owner of the property and is in favor of the zoning change.

Close Public Hearing.

XVI. ACTION FROM PUBLIC HEARING.

Thanna Bounds moved to approve the zoning change of Block I of the Lakeview Camp Addition from, M-1 to R-1-6000. David Shershen seconded the motion and it carried unanimously.

XVII. PUBLIC HEARING.
CONSIDER A ZONING CHANGE OF LOTS 26, 27, 28, AND 29 OF THE J.V. THOMPSON SUBDIVISION FROM R-1-4000 TO R-1-6000.

Lenora Schoultz, owner of Lake Dallas Mobile Home Park, feels the proposed zoning change has been handled very poorly. We have come to both meetings and brought opposition to the zoning request as we were told to do.

Bud Schoultz, owner of Lake Dallas Mobile Home Park, stated the mobile homes are single family home dwellings and these people have the same problems we all have, and our job is to help these people, but we have not.

Randy Schoultz, Manager of Lake Dallas Mobile Home Park for eight years. His family has worked very hard to improve and update the mobile home park.

David Berman, City Attorney, stated that the zoning change does not effect the use, unless the owner changes the use of the property. Unless the Board of Adjustment deems to terminate the non-conforming use, if this occurs then just compensation must be paid.

Mike Schoultz would like the council to follow the Planning and Zoning Commission's recommendation to deny the zoning change.

Bobby Shikle, 712 Thompson, stated that he has no objections to the mobile home park.

Close Public Hearing.

XVIII. ACTION FROM PUBLIC HEARING.

Matt Flanagan moved to deny the zoning change of Lots 26, 27, 28, and 29 of the J.V. Thompson Subdivision from R-1-4000 to R-1-6000. David Shershen seconded the motion and it carried unanimously.

XXI. PUBLIC HEARING.
CONSIDER A ZONING CHANGE OF TRACT 54, ABSTRACT 1355A OF THE WRIGHT SURVEY FROM R-3 TO R-1-6000.

Thanna Bounds, 440 Betchan Drive, stated that about thirty years ago citizens voiced their opinions that they did not want the apartments, but the City Council changed the zoning anyway. There has been no problems with the apartments now and feels they should be left alone.

Mary Ann Piepenburg, an attorney with Baylor Health Care System, stated the property is actually owned by Mr. and Mrs. Howard Enlow, but that Baylor holds the mortgage on the property. Mr. and Mrs. Enlow have informed Baylor that they are not going to be able to continue paying on the property and Baylor is going to have to proceed with foreclosure. So the property is in limbo between the Enlows and Baylor and she would request that it be tabled until the February meeting.

Close Public Hearing.

Bruce Martin moved to table the zoning change of Tract 54, Abstract 1355A of the Wright Survey from R-3 to R-1-6000 until the Planning and Zoning Commission can look at it again in February. David Shershen seconded the motion and it carried unanimously.

Mayor McCutcheon reported that he has been contacted by a Richard Booth with Omega that will take over for American Waste to finish the cleanup of the tank removal. II. WORKSHOP.

A. DISCUSSION REGARDING R.V.'S, MOBILE HOMES, AND MOBILE HOME PARKS.

The City Council discussed the current ordinance that does not allow for the use of R.V.'s for residential purposes. The Council discussed R.V.'s in the mobile home parks in regard to the design for full time inhabitation, also the need for the R.V.'s to be tied down and under skirted.

Carolyn Green stated that a previous City Council gave them permission to put these mobile home in their current parks. Ms. Green suggested that the City look at an ordinance allowing for a commercial mobile home park. She would like the owners of the current R.V.'s to be allowed to stay in their homes.

Mayor McCutcheon stated that the current R.V.'s are not on the property tax rolls.

The City Council discussed the need of current owners of R.V.'s to apply to the Board of Adjustment for a variance from the current ordinance. Mayor McCutcheon will check with the city attorney as to the concerns discussed. Item will be placed on the February agenda as an action item.

B. DISCUSSION REGARDING PROPERTY AT 121 LAKEVIEW.

Mayor McCutcheon stated that there has been some concern that the mobile home at 121 Lakeview does not meet city ordinances.

Bob Willis stated that the Board of Adjustment found that the mobile home was placed at the location prior to the ordinance and that it is exempt from the current ordinance as long as it has

been brought up to standards. Mr. Willis stated that they now have electricity and gas, but the are still trying to bring some things up to standards.

Mayor McCutcheon requested that Bob Willis contact the city attorney as to what needs to be done for the property and mobile home to comply with city ordinances and any actions the city should take.

REGULAR MEETING OF THE CITY COUNCIL
JANUARY 11, 1996

I. ROLL CALL.

The meeting was called to order at 8:00 p.m. by Mayor Jerry McCutcheon with the following members present:

Jerry McCutcheon, Mayor
Matt Flanagan, Mayor Pro Tem
Garry Bills, Council Member
Thanna Bounds, Council Member
Bruce Martin, Council Member
David Shershen, Council Member
Kelly D'Amato, Secretary

With all members present, the following business was transacted:

II. PLEDGE OF ALLEGIANCE AND INVOCATION.

The Pledge of Allegiance to the flag was given and invocation was given by Mayor McCutcheon.

III. MINUTES.

Bruce Martin moved to approve the minutes of meetings held in December, 1995. David Shershen seconded the motion and it carried unanimously.

IV. CITIZEN'S AGENDA.

Carolyn Green, 201 N. Shady Shores, would like to thank the City Council for the workshop. Ms. Green requested the Council look at striping the middle of the streets.

Tammy Hite, 5433 Kings Manor, stated that she is against alcohol in the city parks.

Ken Stapleton, 511 Ridgewood, commented on problems he is having with his house after it rains. He bought his home one year ago from Flamingo Homes and has flooding problems every time it rains. Flamingo Homes has now built a home on the corner of Oak Crest and Hillcrest. Mr. Stapleton presented an engineer's report stating that this corner is subject to overflowing. Mr. Morales' fix for the problem was to build the house up about three (3) feet. This has caused the flooding problems at his home and also at 509 and 513. He would like to ask the City for help with this problem as Mr. Morales has told him it is now his problem.

Mayor McCutcheon replied he would have the City Engineer look at the problems.

Mrs. McCool, 509 Ridgewood, stated that she received a hostile call from Mr. Morales yesterday. He told her that the deals he made with the Stapletons, the McCools or anyone else if it was not in writing then it was their problem and they would need to get an attorney. He also said the drainage problem they were having was in his eyes a City problem and the reason he would not approach the City is because the City would red tag anything he was building. Mr. Morales then instructed her that she should get with the other home owners in the Oak Lakes Subdivision and file a class action suit against the City. Mrs. McCool stated that she has been in her home for ten months and still has punch list items that Mr. Morales will not come to her home and address. She also stated that her flooding problems got worse when Mr. Morales built the home at the corner of Hillcrest and Oak Crest, not because of rain water, but because of the sprinkler system at this home. Mrs. McCool stated that when she bought her house Mr. Morales had filed a form with the title company at closing stating that he does not see any foreseen problems with inadequate surface drainage. She feels this statement is fraudulent and that he knew there was a problem.

Close Citizen's Agenda.

The Council discussed the concerns with emergency vehicles and in which direction the one-way should run. The Council also discussed the impact of the one-way street on the owners of the homes on the corners. The City Council determined if the residents of the street are in favor of the one-way street then it should be changed.

Chief Ristagno will research the area to determine the direction for the one-way street.

VIII. CONSIDER APPROVAL OF A RESOLUTION SUPPORTING THE VERTICAL EXPANSION OF THE DFW RECYCLING AND DISPOSAL FACILITY-ACTION.

II. DISCUSSION AND CONSIDERATION REGARDING A CONTRACT WITH OMEGA ENVIRONMENTAL SERVICES TO PERFORM CONTAMINATION ASSESSMENT AND REHABILITATION TASKS IN CONNECTION WITH THE UNDERGROUND TANK REMOVAL-ACTION.

Mayor McCutcheon inquired as to why American Waste was wanting to turn this project over to Omega Environmental?

Richard Booth with Omega Environmental Services stated that in states in which there is a viable and solvent reimbursement fund to work with Omega will participate in the fund directly. The City of Lake Dallas has two choices they can either hire a contractor to cleanup the contaminated soil, pay the contractor and then apply for reimbursement from the state; or the City can contract with Omega for the cleanup, no bills with be sent to the City. Omega will work with TNRCC for payment of the cleanup. The only financial obligation that the City of Lake Dallas will have is the deductible. V. MINUTES.

Thanna Bounds moved to approve the minutes of meetings held in January 1996. David Shershen seconded the motion and it carried unanimously.

VI. CITIZEN'S AGENDA.

Dan Waylon, 715 Winding Oak Bend, stated that he called 911 to report the fire on February 5, 1996 and was placed on hold, only for a few seconds, but he would like to know if this was normal. He also stated that it appeared to him that the fire department was having trouble with the water pressure.

Mayor McCutcheon reported that the water authority did a pressure test in the Thousand Oaks area and they reported that there was adequate water pressure at 70 pounds of static pressure.

Chief Robertson stated that there is more than adequate water pressure in the Thousand Oaks area.

Jim Phillips, 322 Stately Oak, stated that the city needs more experienced fire fighters and more equipment for the fire department. He would like to know why the city does not have a 24 hour a day staffed fire department.

Mayor McCutcheon stated that the City of Lake Dallas has looked at branching off to start our own fire department, but are the citizens willing to double their taxes to pay for the service.

Jim Phillips, 322 Stately Oak, stated the residents of Thousand Oaks would be willing to have a tax increase to fund the fire department.

Mayor McCutcheon stated that they are only a small percentage of the community and there are several residents of the community that can not live with the tax increase. The council is sympathetic to the need for increased fire protection services.

Matt Flanagan stated that Corinth will break off in the next couple of years and form their own fire department. They have a larger tax base than the City of Lake Dallas. The council understands the need to increase the fire department's budget, but at the same time effectively decrease the burden to our tax payers, but increase the fire department's budget by going to an equitable way of generating each cities contribution based on assessed value on each home the way all other taxes are figured, instead of contributions based on meter drops, but the other cities did not want to use assessed value method of figuring each cities contribution.

Tina King, 1800 Jason Drive, Denton, speaking on behalf of Carla and Simmon Shellis expressed thanks to the neighbors for all their help. Carla would like to stress the unfortunate lose of her eight puppies. Carla would like everyone to know that even though she is out of the country she can really feel the outreach of love and care from her neighbors, friends and family and she is really greatful that everyone has been so helpful. Simmon and Carla do not feel it would be wise to put blame on anything for the cause of their fire at this time.

Rod Courtney, 162 Kingswood Drive, would like to commend the volunteer fire department for all their efforts.

Jerry Rose, 748 Thousand Oaks, how much of a tax increase would it cost each citizen to increase the fire department services?

Chief Robertson requested each citizen attend the Lake Cities Fire Department Board of Directors meeting and let the Board know the citizens would like to see the Fire Department's budget increased in order to increase services.

Melody Dougherty, 312 Stately Oak, stated she appreciates the response the Mayor, Matt Flanagan and the Fire Department have had to the fire. She does not feel anyone has done anything wrong with what they have. She would like to work with the council to increase the fire department budget and she and her neighbors know their taxes will need to be raised for increased services and they are willing to pay the increase.

Ray Henry, 718 Thousand Oaks, stated he has been a fireman for twenty two years, at the fire on Monday the volunteers did some fundamental things really well. The house had already been searched for people, they were using lines as they were supposed to and there was not a problem with water pressure. There would have not been anything else a paid fire department, a truck on the seen or anything else that anybody could have done for that house.

Melissa Phillips, 322 Stately Oak, would like to know when we will try to get a paid permanent 24 hour a day staffed fire department? We will be willing to have our taxes raised to fund the fire department. What do we need to do to get the process started?

Mayor McCutcheon stated that the budget for this year is set, and it will have to be looked at during the budget planning time for next year. The budget process will start in June or July, and the new budget year will go into effect on October 1, 1996. You as a citizen need to get a lot of support for a tax increase to fund the fire department.

Sandy Payne, Kings Manor, stated that she is real impressed with the people of Thousand Oaks and their willingness to improve the fire department. She stated that the residents of Thousand Oaks need to go to the Fire Department Board of Directors meetings and go out and educate the rest of the town letting them know that in order to have better services then they are going to have to vote for a tax increase. She would also like to see a paid fire department.

Lisa Bordhaug, 321 Stately Oak, stated being involved with the school district, that a lot of people in town think our subdivision is separate, and a lot of them do not even know where we are. She wanted to thank the town because the community of Lake Dallas has been there for us and we really appreciate their help.

Close Citizen's Agenda.

Mr. Jary stated that the maintenance aspects and some minor adjustments can be made now, so that the City can let the residents know that the City is aware of the problems and are looking at ways to improve the drainage. Mr. Jary recommended the City consider having a complete drainage study done of the Oak Lake Subdivision including a topographic map and hydraulic survey.

Matt Flanagan moved to approve Metroplex Engineering to perform the hydraulic survey and topographic map at a cost between $1,500.00 to $3,000.00, including recommendations, and have Johnny Webber and the Street Department start some of the clean-up. The Council discussed amending the mobile home ordinance to allow for the R.V.'s currently in city mobile home parks to remain in the city. The ordinance would also allow for assessing a yearly fee that would be equitable with the lowest assessed value of a mobile home in each mobile home park. This ordinance would identify each R.V. currently in city mobile home parks, and once the R.V. has moved from it's current lot the R.V. would not be allowed to return. The ordinance would not allow for any other R.V.'s to move into the city.

II. WORKSHOP.
A. DISCUSSION REGARDING THE FIRE DEPARTMENT.

Mayor McCutcheon reported that several citizens had expressed an interest in finding out how much it would cost to staff a paid fire department.

Chief Robertson presented a proposed budget for 1997 to include a paid staff of 24 employees and fire fighters and a new fire engine at an estimated cost of 1.5 million dollars. This budget did not include full ambulance service, but did allow for first responding paramedics, that would also serve as fire fighters. The City currently uses Denton ambulance service and this budget proposes continuing to use Denton ambulance service. Chief Robertson stated that each of the four Lake Cities need to work together to make this paid fire department work.

Mayor Pro Tem, Matt Flanagan asked Chief Robertson about the feasibility of Lake Dallas hiring a fire fighter, to be paid for by the City of Lake Dallas, but he would work for the Lake Cities Fire Department, and adding one paid fire fighter a year over the next several years in order to gain experienced fire fighters.

Mayor McCutcheon will try and set up a meeting with the City of Corinth in order to determine how many more years the City of Corinth will continue to support the fire department and to discuss the possibility of each city adding one paid fire fighter a year over the next several years.

Bruce Martin asked the city attorney, if the city hires a fire fighter that works for the City, but is assigned to the fire department are there any problems with doing this?

David Berman replied there could be some administrative problems. You can not have one employee that answers to both the City and the Fire Department. The City should enter into an interlocal agreement with the fire department as a district to fund a position. The Fire Chief would do the hiring and firing, the Chief would be responsible for all the personnel decisions regarding that employee.

David Shershen moved to approve the City of Lake Dallas Park and Recreation Board Policy and Procedure Guide. Thanna Bounds seconded the motion and it carried unanimously.

V. MINUTES.

David Shershen moved to approve the minutes of meetings held in February 1996. Garry Bills seconded the motion and it carried unanimously.

VI. CITIZEN'S AGENDA.

Melissa Phillips, 322 Stately Oak, stated that she was at the Fire Department meeting a couple of weeks ago. She would like to

know if Robby Robertson has asked for the emergency funds he needed to maintain the vehicles.

Mayor McCutcheon stated that he was also at the meeting and advised him of their contract clause that gave them the authority to do so. I also encouraged him to do so if they are having a short fall. Mayor McCutcheon stated that he understood the amount to be at $8,000.00 and then each council would pay their share of the amount. As this date he has not asked for any additional money.

David Shershen stated that he spoke with Deputy Chief Joe Grabowski who stated they were in the process of developing a maintenance program that would happen monthly.

Melissa Phillips, 322 Stately Oak, would like to know if the Fire Chief does not come and ask for money to maintain vehicles that will not run during a fire, what can the citizens do to encourage the Fire Chief to ask, or how do we remove him?

Mayor McCutcheon stated that with the fire department being a private corporation the only thing the citizens should do is attend their Board of Directors meeting and ask them what they would like to do and show them what your requests are.

Melissa Phillips, 322 Stately Oak, stated that they would like a citizens open agenda meeting with the two-fers committee. We do not think the citizens of Corinth, Hickory Creek or Shady Shores are aware that some of their councilmembers are not willing to put money into the fire department.

Mayor McCutcheon replied that a meeting could be held at the community center.

Jim Freytag, Ardmore, OK, stated that he has a developer who is interested in beginning construction on the lots in Harbortown. He has a surveyor working on the re-plat and he noticed that item eight on tonights agenda is to consider placing a moratorium on R-3. That is going to put a hardship on us. We have some people ready to buy some of the units we are planning to build.

Mayor McCutcheon, replied that if the developer wanted to present the plans to the city council, the council could hold a special meeting to act on a separate piece of property individually.

Melody Dougherty, 312 Stately Oak, stated she along with many other people in the community are concerned with the lack of adequate fire protection for our community. She knows there has been a battle for many years between the four cities as to funding. She and many other citizens ask that we propose a budget that would fund a fire department that would give us adequate protection for our city, and then bring that budget to the other cities. If they are willing to pay their share, they will be in,

if they are not willing to pay their share write them out of the contract and ask them to find fire protection in another way. She knows that sounds hard, but right now what Lake Dallas and some of the other cities are going is charity work, because there is a city in our four cities that chooses not to pay for fire protection, for that city. She along with other citizens say, if we are going to do charity work let our families choose what charity we are going to do. Please don't as elected officials choose to do that charity work for us. We want to have fire protection and we have no problem with paying for it, but we want everyone to pay their share, and we ask that you help us do that.

A. DISCUSSION AND CONSIDERATION REGARDING BUDGET AMENDMENT FOR THE PURCHASE OF A ROLLER-ACTION.

C. DISCUSS AND CONSIDER ACTION AGAINST DOBBS ROAD CONTRACTOR.

Mayor McCutcheon reported that when the sewer line was put in on Dobbs Road the contractor did a very poor patch job, but

unfortunately it meets all requirements. The council needs to consider some changes in our specifications in how patches are made and the requirements. We have met with the contractor and expressed our displeasure with their work. They have proposed to seal-coat Dobbs Road from Shady Shores Road up to the entrance into Thousand Oaks.

Diane has checked into having the ordinances scanned at a cost of $8,000.00. Also at the Planning and Zoning Commission meeting the decision to rezone the Archer property was tabled for thirty days.

The Carolyn Green Scholarship Brunch will be held on Saturday, April 20, 1996, at 10:00 A.M., at the Lake Dallas Middle School. The scholarship is presented to a graduating Lake Dallas High School senior based on community service.

XVIII. NEW BUSINESS.

Mayor McCutcheon reported that he is not one hundred percent please with our city engineer. We have questioned some of the bills the city has received from Metroplex Engineers. He has shopped around a little and found that engineers will not tell you their prices, unless you are under contract with them. The engineer stated that you chose engineers on qualifications.

Bruce Martin requested looking at some additional street lights being placed on Shady Shores Road from the cemetery to Thousand Oaks Addition.

XIX. ADJOURNMENT.

David Shershen moved to adjourn the meeting. Matt Flanagan seconded the motion and it carried unanimously.

Jerry McCutcheon, Mayor
Matt Flanagan, Mayor Pro Tem
Garry Bills, Council Member
Thanna Bounds, Council Member

With all members present, the following business was transacted:

I(A). DISCUSSION WITH THE CHAIRMAN OF THE BOARD OF ADJUSTMENT REGARDING THE BOARD OF ADJUSTMENT DECISION IN REFERENCE TO 328 BETCHAN STREET.

Clyde Edwards, asked the Board of Adjustment members present to introduce themselves. Board members present were Rod Courtney, Frank Barnard, Rusty Meadows, Frances Poteet and Ken Stapleton. Mr. Edwards stated the reason the members were present was because they are a very concerned committee. We would like to see the city progress. Mr. Edwards stated that there are two types of zoning and two types of ordinances that control zoning. The two types are literal and adjustment. Adjustment meaning, the act of adjusting, regulating, reducing to just form or order, or making a fit or conformable settlement. This is basically what the Board of Adjustment does. Literal is basically what the City Council and Planning and Zoning Commission do. The Board of Adjustment basically acts as a scape goat or release valve for things that come up in zoning. Variances are exceptions from technical sight requirements. You have a use map with certain zoning, for some reason that zoning may need to be adjusted or changed, and in this case eleven years ago. Unfortunately all the people who were here eleven years ago are not here today. So you have a compliance problem. The Board of Adjustment was set up to be adjustable and make exceptions. The Board of Adjustment must determine that the piece of property involved is unique and it not the same as every other lot or tract in the area. The property did not meet the technical requirements, but that is why you have a Board of Adjustment. The granting of a variance is legal until challenged and that is why we are here tonight. The only question that may properly be raised is legality of the Board's order. A legal presumption exists in favor of the Board's order and the burden of proof to clearly establish an abuse of discretion in light of the entire

record rest upon the party attacking the Board's decision. When deciding the legality of the Board's order the trial court must not substitute it's judgment for the Board's judgment. The court should decide the legality of the Board's order based upon the materials returned in response to the Writ of Certiorari and such testimony as may be received for the purpose of correcting errors of law. If the evidence before the court as a whole is such that reasonable minds could have reached the same conclusion that the Board reached in order to justify it's action the order must be sustained.

II. DISCUSSION AND CONSIDERATION REGARDING APPEALING THE DECISION OF THE BOARD OF ADJUSTMENT IN REFERENCE TO FRANK BARNARD'S VARIANCE PETITION FROM CHAPTER 18.12.030 OF THE MUNICIPAL CODE RELATIVE TO HOME OCCUPATIONS AT 328 BETCHAN STREET-ACTION.

Matt Flanagan, stated that he brought this item to the Mayor basically because the way the people on the street were treated by the Board. The people were here in opposition. Mr. Edwards had said the business was there for eleven years. It was there for eleven year illegally. Mayor Honse did not have the authority to tell this person that he could run a business in that location. The home occupancy ordinance had been in place since 1967. Mr. Barnard has stated that he started out as a mom and pop deal and that is basically within the flavor of the ordinance. Councilman Flanagan stated that the Board's action for this one individual hurt everybody on that street.

Thanna Bounds, stated that she lives on the street with Mr. Barnard and that she does not agree with Councilman Flanagan. She does not think there is much way you could lower property value on that street. There is a city lot, an apartment building, agriculture, cows, chickens, horses and emus. She is very unhappy anytime the council wants to do away with something that some Mayor or Council allowed to happen be it legal or illegal. It has been there eleven years, and if it's not broke don't fix it.

David Shershen asked the City Attorney, if in his opinion, was the matter handled in a prescribed manner as to the actions and the behavior of the Board of Adjustment and was it legal and did they follow precedent?

David Berman, City Attorney, if the council is interested in appealing the decision the council has ten days and that tenth day is tomorrow. The basis for the appeal can not be that the Board of Adjustment made the wrong decision. You can not substitute nor can the court substitute it's judgment on the ultimate issue. The issue is whether or not there was an abusive discretion. An abusive discretion means not that they were just malisous or that their decision was so egregiously wrong that it was wrong. An abusive discretion as a matter of law boils down to little more than a failure to follow guiding rules and

principles. The basis for the appeal in the petition are: 1) that the Board of Adjustment's decision was illegal, in that it was an abusive discretion; 2) under state law in the Texas Local Government Code the Board of Adjustment is empowered to authorize variances, if they are not contrary to public interest and due to special circumstance the literal enforcement of the ordinance would result in unnecessary hardship. Mr. Berman stated that he could not substitute his opinion for that of the members of the Board of Adjustment. He did not feel there was a great deal of evidence that would have shown that there was some unnecessary hardship that Mr. Barnard experienced that would support the granting of a variance; 3) that the decision was void in that it was not really a variance in it's very nature it was not a variance. A variance is not the same thing as a special exception or a rezoning. This request was not a variance it was a special exception. Mr. Berman stated that the petition is ready to be filed if the council decides to proceed, however there is one thing that needs to be considered. Mr. Berman stated that he represents the city and he does not perceive that there would be a conflict between his representation of the city and the fact that he was at the Board of Adjustment meeting. As long as there is full disclosure and everybody knows what is going on there is no conflict of interest that would subject him to certain ethical violations. However, the Board of Adjustment is also entitled to representation, and the city will have to pay for their attorney also. In support of the Board it is unusual for a City Council to agree with everything that all of the subsidiary boards and commissions do.

David Shershen asked why did it take eleven years to bring up this issue?

Mayor McCutcheon replied that he received a complaint from a citizen.

Matt Flanagan moved to refer the decision of the Board of Adjustment to the county court and make funds available for the Board of Adjustment to be represented and make funds available to litigate the issue. Bruce Martin seconded the motion and it carried with David Shershen and Thanna Bounds opposed.

Mayor McCutcheon stated for the record he is in favor of the decision.

III. **EXECUTIVE SESSION.**

The City Council reconvened into open session at 7:55 p.m.

CITY OF LAKE DALLAS
REGULAR MEETING OF THE CITY COUNCIL
APRIL 11, 1996

I. ROLL CALL.

The meeting was called to order at 7:30 p.m. by Mayor Jerry McCutcheon with the following members present:

Jerry McCutcheon, Mayor
Matt Flanagan, Mayor Pro Tem
Garry Bills, Council Member
Thanna Bounds, Council Member
Bruce Martin, Council Member
David Shershen, Council Member
Barbara Starkey, City Secretary

With all members present, the following business was transacted:

II. PLEDGE OF ALLEGIANCE AND INVOCATION.

The Pledge of Allegiance to the flag was given and invocation was given by Mayor McCutcheon.

III. MINUTES.

David Shershen moved to approve the minutes of meetings held in March, 1996 with the following correction: March 14, 1996, Section VI. Paragraph 6 change the word "state" to "stated". Garry Bills seconded the motion and it carried unanimously.

IV. CITIZEN'S AGENDA.

Frank Barnard, 328 Betchan Street, stated that he had some information he would like to give to the council relating to a decision he and his wife had made in regard to withdrawing his petition for a variance on his property at 328 Betchan Street. Mr. Barnard stated the following reasons for their decision: 1) $20,000.00 or $30,000.00 for court costs and attorney's fees could be used for parks, recreations, EMT services, the fire department or streets, etc.; 2) time spent with the City Council and Board of Adjustment in court doing depositions could be directed to more positive city business; 3) we do not want the City Council and Board of Adjustment polarized on a single issue over a variance that the previous administration authorized; 4) if I appeal the decision of the district court that would involve naming approximately 133 citizens currently doing business in their homes. These businesses that are not listed in the city code book. This would be detrimental and a tragedy to those citizens of Lake Dallas. This is unacceptable to myself and my wife. In conclusion, I ask the City Council Members to consider my situation in the future. I believe that with the City Council

Members and the Mayor's guidance that there can be a favorable resolution to all parties concerned and we are willing to make reasonable adjustments, if possibly needed.

Bob Davis, 68 Lake Ridge, Chairperson for the We The People Coalition, stated that he feels the case involving Frank Barnard involves ordinances. The Coalition would like the city council to address two issues in regard to ordinances. The first is the ordinances themselves may not reflect the current economy, with corporations down sizing many people are forced to work out of their homes. We feel some of these people have to work out of their homes, because they can not afford a shop. Some of the kinds of employment that may deserve reconsideration would be, day-care, beauty shop, landscaping, nutritionist, roofing company, carpet layers and carpenters, these are some types of professions that may need consideration in expanding the types of businesses that can legally work out of their homes. The second issue in regard to ordinances is what We The People feel is their use as a political weapon. In February, two of the council members attended a meeting of We The People the day after the meeting the ordinance was enforced on Frank Barnard. This ordinance had never been enforced in eleven years and on the day after the meeting it was enforced, this is either a huge coincidence or it could be misuse of enforcement of ordinances. We The People feel that it was a misuse of the enforcement of ordinances. It is because of this kind of government behavior, at all levels that We The People was born. If in these elections, if We The People are successful and if the citizens of Lake Dallas elect Rod Courtney, Stephen Wohr and Bobby Shikle into council positions and if a citizen complains that Rod Courtney or any of the others use reprisal tactics or intimidation tactics, and if we can find that the charges are justified we will ask Rod or who ever the council member was to reverse his course of action on the matter and give a public apology, but if he does not the Coalition will ask him to resign, but if he does not resign we will try to form a recall election or endorse someone else at the next election. We believe elected officials should be held accountable for their actions and we believe that fear and intimidation have no place in government since 1776.

Mayor McCutcheon stated that the letter to Frank Barnard was called for prior to that meeting and it had nothing to do with the meeting.

Chris Curry, 212 Hillcrest, would like to publicly thank the council for serving this community, however, I believe that you as elected officials need to act as elected officials and not have the outbursts that I understand Councilman Flanagan had at a Board of Adjustment meeting. That is not how elected officials should act. Mr. Curry stated also that this community does not need a paid fire department. What is wrong with the volunteers? If this city would recognize their volunteers and show them more appreciation and support they can do a fine job.

Councilman Flanagan stated that Mr. Curry's statement, that he had an outburst in a Board of Adjustment meeting was incorrect. The Board meeting was over with, as an elected official for the city he came in and basically stated his views on how it went, after the meeting was over. Councilman Flanagan stated that his statements were directed to the Chairman of the Board of Adjustment, the City Attorney and Mr. Courtney were present at the time, and it was not an outburst.

Thanna Bounds, 440 Betchan, stated that she has heard a lot of rumors going around and she would like to clear one up. Regarding the rumor that Matt Flanagan and her are not getting along, that they are dividing the council and that they are causing problems, and that Councilman Flanagan had called her out of a meeting. Councilman Flanagan did call her out of a meeting to discuss an issue that was not true and the issue was cleared up, they shook hands and they are friends. Councilwoman Bounds stated, we may not agree much in the future, we have not in the past, but she respects Councilman Flanagan for his opinions and he respects hers and they are not going to divide the council. Councilwoman Bounds stated that she feels diversity in the council is very good. If we were all yes people we would not be representing but a very few citizens.

Linwood Gilliland, 703 Payton, stated he would like the council to request the Planning and Zoning Commission to look at an ordinance that looks at unique buildings before building permits are issued. He would also like to thank the council and city employees for the cleanup efforts that have been enforced.

Rod Courtney, 162 Kingswood, stated that he is represented by a special interest group. They have a very special interest, that is to have good government in Lake Dallas. I support that whole heartily.

Mayor McCutcheon, stated he has received many telephone calls and heard many rumors going around. Mayor McCutcheon stated he has lived here for thirty something years and this is the dirtiest political election he can recall. He would like to advise everybody to please get facts straight, there are so many lies circulating around. He encouraged the citizens that if somebody tells them something at least have the common sense to call both parties and get both sides of an issue and weigh it for what it is worth. Mayor McCutcheon stated that he knows things have come out on him personally that are just flat lies, from beating his wife, to him smoking dope, to all kinds of things. I do not think this is very becoming of anybody to do that. I do not think the citizens deserve it. At least stick to the issues and present the issues to the citizens you talk to and let them weigh it and leave the lies out of it. Now the latest lie is that city employees do not get any benefits. City employees get paid vacations, paid holidays, insurance, pretty much the standard benefits that almost every city does. Our employees are treated well, I will agree that their salaries are not as high as they should be, we have some outstanding employees.

Rod Courtney, 162 Kingswood, stated that he is not running against Jerry McCutcheon, I am running for the mayor's position, to represent the grass roots people of Lake Dallas. I said to you that I did not want any conflict. I have asked all the people that I know that support me to have all positive attitudes. I have not ever heard a lie about you. I never will. I am not responsible for anything that is said that is not true, to my knowledge.

Mayor McCutcheon, stated that he believed Rod Courtney.

Stephen Wohr, 715 Lakeland, stated that he would like to agree with Rod Courtney. I think that at least myself and Rod are trying to run a campaign here where we have dealt with the issues. We give our talks in a public forum. We are there on Monday nights at 7:00 p.m. at Technicians on Wheels. If people are wondering what I am saying about anybody on the City Council or anybody running against me they can come down there and listen to what I say because that is where I say it. I do not go around spreading stories about anybody else. I will say this, that I think that all of the candidates need to address the issues and they need to address them in a public forum and they need to have the opportunity to tell people what they think and let people make an informed decision.

Mayor McCutcheon stated that he did not believe that the public forum is where the problem is developing, it is on the street contact people are making. He stated he did not know who or what, just that both sides need to stick to issues and that the citizens need to use common sense to check both sides of every issue.

VIII. PUBLIC HEARING.
CONSIDER A RE-PLAT OF HARBORTOWN VILLAS PHASE I. THIS PROPERTY IS LOCATED AT BLOCK 1, LOTS A, B, & C, BLOCK 2, LOTS A, B, & C, BLOCK 3, LOTS A, B, & C, BLOCK 4, LOTS A, B, & C, BLOCK 5, LOTS A, B, & C, BLOCK 8, LOTS A, B, & C, BLOCK 9, LOTS A, B, & C, BLOCK 13, LOTS A, B, & C, BLOCK 14, LOTS A, B, & C, AND THE ADJOINING COMMON AREAS.

Maggie Pruitt, 707 Cain Street, stated that she understood that there would not be apartments built on this property. That there would be one and two story duplexes. She would like to know who will be responsible for the roads in this area. Ms. Pruitt had some concerns about drainage on the east side of Cain. She would like to know if the developer will provide his future home buyer with a swimming pool or park.

Mayor McCutcheon replied that the developer plans to put duplexes on this property and at the present time the city is responsible for the roads, but he hopes the developer will work with the city on the roads. Mayor McCutcheon has talked with the city building inspector about the drainage on this property and they have already shared with the builder that all lots must drain towards the streets. Mayor McCutcheon stated that there is no requirement for the developer to include a park on the property.

Jackie Kovsky, 311 Surf, stated she hopes the developer will work with her in regard to the trash and build a barrier between her and his development. She has some concerns about the elevation on some of the lots and the drainage. She would like to know if the lots would be sold or rented.

Mayor McCutcheon replied the building inspector has discussed with the builder about an eight foot privacy fence behind the property or possibly bushes.

Charles Redman, 714 Thompson, stated that he agreed with Ms. Kovsky. He would also like to know if the trees marked with blue ribbons were going to be removed. He also feels the development would be an asset if it is handled properly and taken care of.

Mayor McCutcheon replied that the trees were marked for survey purposes and that the builder will be asked to save as many trees as possible.

Chris Curry, 212 Hillcrest, requested the council ask the developer for a two year maintenance bond on all public improvements within the subdivision. Mr. Curry stated that the council could ask for a developer's agreement to include any fencing or shrubs for the subdivision.

Roland Jary, with Metroplex Engineers, stated the developer has been in to see him and he has informed him that the land is pretty flat and that all water from the property must drain into the street. Mr. Jary stated he understands that there are some concerns over property lines and suggested owners verify their property lines.

Mayor McCutcheon stated that Bob Willis and he have addressed the easement with TU Electric, they think it is an electrical easement. The city will contact TU Electric to see if their fence can be run to the fence currently there to avoid a no maintenance zone between two fences.

Jackie Kovsky, 311 Surf, stated that when she talked with TU Electric last year they informed her that they had nothing to do with the property, it is just an easement. TU Electric does not maintain the easement.

Close Public Hearing.

IX. ACTION FROM PUBLIC HEARING.

Matt Flanagan moved to approve the preliminary re-plat of Harbortown Villas Phase I, Block 1, Lots A, B, & C, Block 2, Lots A, B, & C, Block 3, Lots A, B, & C, Block 4, Lots A, B, & C, Block 5, Lots A, B, & C, Block 8, Lots A, B, & C, Block 9, Lots A, B, & C, Block 13, Lots A, B, & C, Block 14, Lots A, B, & C, and the adjoining common areas. Bruce Martin seconded the motion and it carried unanimously.

X. PUBLIC HEARING.

DISCUSSION REGARDING CABLE TELEVISION AND TO REVIEW THE PERFORMANCE OF MARCUS CABLE IN THEIR SERVICE TO THE COMMUNITY OF LAKE DALLAS.

Mayor McCutcheon stated the franchise agreement between the City of Lake Dallas and Marcus Cable will renew in 1998, but the process for renewal begins two years before that date. The public hearing is so that citizens may address any issues or problems they may have with Marcus Cable.

Jackie Kovsky, 311 Surf, would like to know why the City of Lake Dallas pays the same as the City of Denton, but we do not receive the same number of channels?

Garry Bills, replied that he asked John Enlow with Marcus Cable her question in reference to the six channels that the City does not get and he replied that the City actually pays about $1.21 or $1.31 less than the other cities. John Enlow stated that Marcus Cable, within the next six or eight months is planning to change out the equipment in the city.

Chris Curry, 212 Hillcrest, would like the city to ask the cable company to provide the city with a public access channel.

Mike Fahey, 144 Kingswood, stated that he would like the city to obtain channels 66 through 71. He would also like to see the cable company carry American League baseball.

Close Public Hearing.

XI. ACTION FROM PUBLIC HEARING.

Bruce Martin stated that this could be a long drawn out tedious process or a very simple and good process. Councilman Martin recommended that the city go ahead with discussion of these issues early and try and get them resolved. Councilman Martin stated that there are a lot of changes happening in the industry in regard to de-regulation. The citizens need to be aware that there is a possibility they may be losing channels, because of a new proviso in the law that the FCC is addressing called leased access. That basically says, if I want to come in and lease a channel I can bump a lot of people if I want to.

Matt Flanagan moved to approve allowing Councilman Martin to establish and chair a committee to began discussion with John Enlow of Marcus Cable in regard to the renewal of the cable television franchise agreement. David Shershen seconded the motion and it carried unanimously.

XII. REVIEW AND CONSIDER ACTION REGARDING THE OAK LAKES SUBDIVISION HYDRAULIC SURVEY AND TOPOGRAPHICAL MAP.

Roland Jary with Metroplex Engineering presented the council the finds of the hydraulic survey and topographical map for the Oak Lakes Subdivision. He suggested that the city install pipes to correct the water flow in this subdivision, approximate cost of the project would be $35,900, plus street repair. The City Council will review the drainage project at budget time.

XIII. DISCUSSION REGARDING FIRM MAP AND FEMA DRAINAGE STUDY IN REFERENCE TO DOBBS ROAD CULVERT.

Mayor McCutcheon reported there may be some concerns with the drainage and possible flooding on Dobbs Road from the retention pond with the possibility of Thousand Oaks Phase III

starting. This phase may put a burden on the drainage in this area and it will need to be addressed at the plating process.

XIV. DISCUSSION AND CONSIDERATION REGARDING AN ORDINANCE REVISING CHAPTER 15.24, FLOOD DAMAGE PREVENTION, OF THE LAKE DALLAS MUNICIPAL CODE-ACTION.

Matt Flanagan moved to table the ordinance revising Chapter 15.24, Flood Damage Prevention, of the Lake Dallas Municipal Code. Garry Bills seconded the motion and it carried unanimously.

XV. DISCUSSION AND CONSIDERATION REGARDING AN ORDINANCE AMENDING CHAPTER 15.04 OF THE LAKE DALLAS MUNICIPAL CODE, BY AMENDING SECTION 15.04.025D, PROVIDING EXPERIENCE AND TESTING REQUIREMENTS-ACTION.

Bob Willis stated this ordinance would amend the licensing requirements for electricians working in the City of Lake Dallas. This would require all electricians working in the city to show proof of passing an electrician test for a master and journeyman license.

Bruce Martin requested changing Section 3 the word "remaining" to "remain".

David Shershen moved to approve the ordinance amending Chapter 15.04 of the Lake Dallas Municipal Code, by amending Section 15.04.025D, providing experience and testing requirements. Garry Bills seconded the motion and it carried unanimously.

XVI. CONSIDER REZONING TRACT 54, ABSTRACT 1355A OF THE WRIGHT SURVEY FROM R-3 TO R-1-6000-ACTION.

Richard Neely with Baylor Health Care Systems, stated they are the owners of the property. Baylor's intent is to continue running the property as apartments and to sell them to an investor. The property is currently being managed by Jackson Realtors out of Lewisville.

Matt Flanagan moved to deny the rezoning of Tract 54, Abstract 1355A of the Wright Survey from R-3 to R-1-6000. Thanna Bounds seconded the motion and it carried with Garry Bills and Bruce Martin against.

XVII. DISCUSSION AND CONSIDERATION REGARDING AMENDING THE FIRE DEPARTMENT BUDGET FOR UNEXPECTED MAINTENANCE EXPENSE FOR REPAIR OF TWO ENGINES-ACTION.

David Shershen moved to approve amending the fire department budget for $3,118.05 for unexpected maintenance expense for repair of two engines. Garry Bills seconded the motion and it carried unanimously.

XVIII. DISCUSSION AND CONSIDERATION REGARDING APPOINTMENT OF AN ATTORNEY TO REPRESENT THE BOARD OF ADJUSTMENT-ACTION.

Mayor McCutcheon stated that Frank Barnard has requested that the Board of Adjustment reconsider his variance request and rescind their decision on his variance request.

David Berman, City Attorney, stated that the Board of Adjustment would have to reconvene and consider Mr. Barnard's request. If the Board does, at Mr. Barnard's request, in a public meeting reconsider and reverse their decision the pending litigation becomes moot and is dismissed. If the council feels Mr. Barnard is going to make his request to the Board of Adjustment, then there would be no reason to appoint an attorney to represent the Board of Adjustment.

Clyde Edwards, 108 Dobbs Road, Chairman of the Board of Adjustment, stated that he has a couple of things that need to be addressed: 1) after speaking with four attorneys, they agreed that this pending litigation is ridiculous, he feels that maybe they should try to get together and reach a compromise. He and several of the attorneys felt there was a conflict of interest. He also stated that several attorneys informed him it would cost $20,000.00 to handle this litigation. He also stated that as Chairman of the Board of Adjustment he no longer has confidence in Mr. Berman to be of benefit in the meetings. 2) Mr. Edwards congratulated Mr. Barnard for what he has done to dismiss the pending litigation. 3) Mr. Edwards stated that at the last meeting there were some personal comments made in his direction and he does not like to be degraded publicly. He stated he did not feel this was the place for it and he has tried to maintain this above board and business like and he would appreciate it if you would talk to your councilman and that we start cleaning our own house in order to prevent negativism, law suits and lies. Mr. Edwards stated as Chair of the Board he will accept Frank Barnard's motion and he feels it is the right thing to do and that everyone should take their hats off to Mr. Barnard.

Mayor McCutcheon replied that he thinks everyone has learned some lessons out of this thing and that possibly the city should share some responsibility. This should have been a zoning issue, not a Board of Adjustment issue. Mayor McCutcheon stated that he would encourage Mr. Barnard to put his request in writing to the Board of Adjustment and then the Board could take whatever actions they deemed necessary.

Mr. Edwards stated that he has been in the heating and air conditioning business for ten years, and probably eight out of nine of his contractors work out of their homes. Mr. Edwards stated he has done a lot of research and that everyone needs a lot of schooling.

Mayor McCutcheon replied that the ordinance needs to be restructured. The ordinance could be structured so that the type of business is not listed, but by listing problems that could be created by home occupations.

David Berman, City Attorney, stated that he was personally offended by Clyde Edward's comments. Mr. Edwards is the Chairman of the Board, but any one individual is not the entire Board. Mr. Berman stated that Mr. Edwards statement that it would cost $20,000.00 to litigate this issue is flatly wrong. Mr. Berman stated that he agrees that the Board needs to get some training.

Frank Barnard stated that he will write a letter to the Board of Adjustment for them to reconsider his variance petition.

Matt Flanagan moved that pursuant to Mr. Barnard's request for the Board of Adjustment to reconvene and act on his petition, and pending the Board's actions, the appointment of an attorney for the Board of Adjustment be tabled. David Shershen seconded the motion and it carried unanimously.

XXIV. OLD BUSINESS.

No Old Business.

XXV. NEW BUSINESS.

A. Bruce Martin stated that Rod Courtney contacted him in regard to the possibility of a workshop session between the Planning and Zoning Commission, the Board of Adjustment and the City Council.

Matt Flanagan stated that he had talked with Sherrel James and that he had suggested that just the Planning and Zoning Commission and the Board of Adjustment meet first.

B. Bruce Martin stated that he had an item that is addressed to another councilmember that he thinks effects the council, therefore it will be addressed in a public forum. He would like clarification from Mr. Shershen with regard to a comment that has been attributed to him. That during a public meeting Mr. Shershen has said to have made a statement regarding a person who was recently arrested. That if we had a different Mayor and Council the arrest would have never had taken place. If Mr. Shershen did not make this statement I would like to know what he said that could be construed as such. If he did make the statement, I would like an apology to this Council.

David Shershen replied to be honest I have never said that if there was another Mayor and City Council, so and so would have never been arrested. I do not know anybody that has been arrested recently. I would have never made that statement, because first of all and I am going to ask the Chief of Police to verify this, I have never gone into the police department and I have never said that was a bad arrest and should not have happened or questioned them, number one. Number two, I do not know of anybody that has been arrested recently or as of late. Number three, I would never make that public statement, I would never make it a private statement, that if we had another Mayor and City Council that person would have never been arrested. I

give you my word as a gentleman. I have never made that statement. As a matter of fact there is a number of statements that if attributed to me associated with that statement and a candidate for political office there or there I basically stay out of this situation as of late because I have been so busy working, number one. Number two, I am just tired of all the mud slinging and all the rumors and all this and the that. I give you my word. I have never made that statement. I do not know anybody that has been arrested lately, really. Secondly, and lastly, I sit on this council, and if it was part of this council then I was just as much responsible for that person being arrested and I do not think this council has anybody arrested, because the police department arrests people.

Bruce Martin replied, I am just letting you know David that I have heard it from two different sources.

David Shershen replied, I would like to know who it was in reference too and if you could call me on that I would really appreciate it, because I have never made that statement, that I know of whether conscious or unconscious.

C. Matt Flanagan requested that the R-1-6000 ordinance needs to be addressed on building material that are allowed. Also, look at rewrite the ordinance for specifications on storage buildings.

Dennis Miller, 711 Cain Street, stated that the common area the developer is planning on building on is currently a drainage area and he is concerned about how the drainage in the area will be changed, if this common area is developed. He is also concerned that if the common area is built on there will be no common area left and would like to see if some park area could be obtained. Could the City look at acquiring the property on Main Street that is currently in the flood plain.

Matt Flanagan stated that the prospective developer for the Archer property may be willing to dedicate some of the property in the flood plain area along Main Street as park areas.

David Brooks, 11 Greentree Drive, Bedford, Texas, representing the developer for Harbortown Villas, stated that they have plans to construct forty-three (43) single family attached homes to be sold individually. The homes will be all brick with a two car garage, and priced between $78,000.00 - $110,000.00. Mr. Brooks stated that they have had a drainage study done and they have made a provision to accommodate the water in the area to drain between two of the large lots connecting with drainage for the property and project that may be coming in behind their development.

Matt Flanagan asked Mr. Brooks if they would put Mrs. Kovsky's request for a single story home to be built on lot 13 in writing.

Mr. Brooks, stated that he gave Mrs. Kovsky his word last week that a single story home would be built on lot 13. Mr. Brooks stated that they would be putting up six foot fences along the property to provide some screening between them and the adjoining property.

Mayor McCutcheon requested that there not be two fences placed between the properties, because the area between the fences becomes a maintenance problem, also could rear gates be included in the fences.

Mr. Brooks stated that they have written a covenant for this development that covers the maintenance issues and requirements of the city ordinances in regard to the owners responsibility to maintain alleyways.

Melody Daughtery, 312 Stately Oak, stated that the City does not have adequate fire protection now, how is the City going to adequately protect additional homes.

Mayor McCutcheon replied that the City has already made a commitment to upgrade the fire department.

Stephen Wohr asked if the current common area is going to be built on, will you designate any other common area.

David Brooks replied that they will not add any other common areas for the development. They will not build any parks or a swimming pool. They are simply trying to build forty-three (43) real nice brick homes at an affordable price.

Veronica Peters, 215 Gotcher, stated they pay a $50.00 monthly maintenance fee to provide upkeep to their condominiums, tennis courts, and swimming pool. Are your residents going to help pay for this upkeep?

Janis Woodbury, 321 Georgian Oak Court, stated she is opposed to the zoning change. She is also concerned about overloading the schools and the city currently lacks playgrounds for our children to play at.

Dave Updike, 737 Black Walnut, stated that he is opposed to the zoning change and that currently there are only two outlets to the subdivision and no matter what the zoning is the outlets to the subdivision need to be increased.

Richard Fink, 326 Georgian Oak Court, stated that he is opposed to the zoning change and feels Lake Dallas at this time does not have the facilities to keep up with the expanding community.

Mark Rudder, 739 Black Walnut, stated he is opposed to the zoning change. He is also concerned about fire safety, access to the subdivision and the rapid growth.

Bruce Adams, 728 Winding Oak Bend, stated that he is opposed to the zoning change.

Jim Phillips, 322 Stately Oak, stated he is also opposed to the zoning change.

Close Citizen's Agenda.

V. PUBLIC HEARING.
CONSIDER A ZONING CHANGE FOR TRACT 1A OF THE T. WHITE SURVEY, ABSTRACT 1375A, FROM R-1-10,000 TO R-1-6000, AND TRACT 7 AND TRACT 7A OF THE T. WHITE SURVEY, ABSTRACT 1376A, FROM C-1 TO R-1-6000.

Mayor McCutcheon reported that there was an error made by the developer's engineers, they are not asking for a R-1-6000 zoning, their intent was to ask for a R-1-7200 zoning. The developer has asked that the zoning change be denied so they can reapply for a R-1-7200.

Paul McCracken with Carter and Burgess Engineers, stated that they had requested R-1-6000 with stipulations, and the fact that it was advertised as R-1-6000 really does not cause any harm to the application as long as he does not propose, or the council does not attempt, to approve something less restrictive than what was advertised; then what was advertised is perfectly okay regardless of our proposal, in fact, it more than likely brought out more citizen input because it is a worse case advertisement so there is an option not to deny it and cause more advertisement and more applications, but merely to leave the public hearing open and table it for further consideration if that is what it comes to.

Mayor McCutcheon, replied are you telling us that you did intend to ask for R-1-6000 zoning.

Paul McCracken, stated no, our application read R-1-6000 with stipulations; please see attachment. The attachment read R-1-7200 with stipulations as listed. Mr. McCracken stated he wanted to mention what the stipulations were. Basically we are asking for a minimum lot area of 6600 square feet. We said in our stipulations that the average lot size in the development would be 8500 square feet. I am here to tell you tonight that we will increase that to 10,000. Our plat that we proposed has an average lot size of just over 10,000 square feet. We will put that in writing, offer that as a stipulation that forces us to keep our overall average above 10,000. We have asked that side yards not adjacent to the street be five feet which actually matches the 6000, and the side yards adjacent to the street be ten feet which would also match the 6000. We ask that the rear yards be twenty feet as opposed to thirty and ask that the minimum lot width be a minimum of sixty-two feet.

Bobby Shikle asked Mr. McCracken if he was agreeing that this property be R-1-10,000.

Mr. McCracken replied no, I am saying we are asking that our minimum lot meet the restriction I just read, but the overall average on the subdivision average lot size be 10,000 square feet. The reason we do not want to keep it 10,000 is that the property is right next to a 5000 square foot zoned piece of property surrounded by an existing 7200 square foot and bordered on the bottom by apartments, so who would come in and spend the money on a perceived house to go on a 10,000 square foot lot when they are surrounded by all these smaller lots. Mr. McCracken stated this property is not marketable for homes over the 200,000 or what would be perceived that would automatically go on a 10,000 square foot lot, that would not happen here.

Bruce Martin asked Paul McCracken if he ever plated the property looking at a R-1-10,000 zoning, because that is what it is.

Paul McCracken replied, no that they had not.

Bruce Martin asked Mr. McCracken to come back with a R-1-1,0000. He feels that is what the citizens expect and that is what the council expected from the rezoning of this property to R-1-10,000.

Matt Flanagan, 722 Thousand Oaks Dr., stated that he has a 14,500 square foot lot and there is a block of five of us in that area that have no less than 10,000 square foot and it is a very nice looking part of the neighborhood. The area is open, it is not dense. I have a 2,000 square foot home with a 3,000 square foot home next to me and a 1,800 square foot home next and then there are two 3,000 square foot homes on the other side of them and that is affordable. As far as I am concerned, we do not need him; we can find another developer that will come along and develop the property with a R-1-10,000.

Lisa Borhaug, 321 Stately Oak, stated that larger homes on this property will sell with a R-1-10,000 lot. There also needs to be an additional access to the subdivision. The property needs to stay R-1-10,000.

Garry Bills, 605 Lake Drive, stated he was on the council when the property was zoned R-1-10,000 and does not feel the property should be rezoned. Also part of the property is zoned C-1 and should stay commercial.

Carolyn Green, 201 N. Shady Shores Road, stated the former council fought hard to get the zoning change to R-1-10,000 and it should stay zoned R-1-10,000.

Dave Updike, 737 Black Walnut, stated his home is directly behind the polo field and that the back of his home is twenty-one feet from the property line. He stated he can not imagine a home being twenty feet from his property line.

Bruce Adams, 728 Winding Oak Bend, stated that just down the road a few miles the development is almost sold out and the homes are much larger and the price is much higher than our homes. There is no reason why the property could not be developed with larger lots and homes. He is opposed to the commercial zoning.

Richard Fink, 326 Georgian Oak Ct., stated his home backs up to the polo field and that is why he bought his home on the polo field.

Matt Flanagan, 722 Thousand Oaks, stated that the developer Jim Douglas and Pulte are in this project together. Jim Douglas has done a good job with Thousand Oaks Phase I and Phase II and he feels they can do R-1-10,000 square foot lots on the property.

Mike Fahey, 144 Kingswood, stated he was on Planning and Zoning when the Thousand Oaks development and he remembers that part of the zoning change was that the polo field would not be built on for five years. The Corinth part of Jackson Ranch is

zoned single family two, this only allows two lots per acre and just west of the polo field in Corinth, the property is zoned 5,000 square foot lots and the property north of the polo field in Corinth is single family two. Mr. Fahey feels the zoning change needs to be denied.

Marcia Duncan, 336 Stately Oak, stated that when they bought their home they were told by General Homes that the property would be a polo field for five years. When was the property sold?

Stephen Wohr, replied that we as a city council can not change what has been done by the sale of this property from being a polo field or something else. The property is currently zoned R-1-10,000 and that we can control.

Judy Betterton, 322 Thousand Oaks Court, stated that she would like this request to be brought to a vote now instead of tabling it.

Jim Phillips, 322 Stately Oak, asked how long has the polo field been zoned R-1-10,000 if it was supposed to be a polo field for five years why was it already zoned for homes if it was supposed to be a polo field.

Mayor McCutcheon, replied that originally it was zoned R-1-7200 and the city council looked at several parcels of land around the city and rezoned some and attempted to rezoned several others. The property was rezoned approximately one and a half years ago.

Bruce Martin, replied the property was zoned residential originally and the gentleman that bought it was going to make it a polo field for his personal use.

Melissa Phillips, 322 Stately Oak, stated that on the map they only show one entrance to the area; are they going to put 110 more homes in the area with no more entrances, just use the two that we have.

Lisa Borhaug, 321 Stately Oak, stated that River Oak Way is too small a street to handle all the traffic for this area and access to the property for Corinth would be through Lake Dallas

Wilma Wetherell, 757 Winding Oak Bend, stated she is concerned about the number of homes and the number of entrances into the property.

Karla Killingsworth, 759 Winding Oak Bend, stated that at the beginning he said something about 20 lots; is that just the polo field?

Paul McCracken, replied that what he was pointing out was that by going from R-1-10,000 to our proposal that we were generating 50 to 60 more homes, our proposal would only generate 20 more home.

Melody Daugherty, 312 Stately Oak, asked if there was anything the city can do to require the developer to have more entrances.

Dave Updike, 737 Black Walnut, stated that he is concerned about access to the property and also noted that the Corinth part includes a park and the Lake Dallas part does not.

He met with some people from Lewisville in reference to how Lewisville manages Eagle Point, which is Corp property. Lewisville leases the property from the Corp and then subcontracts with outside vendors that put whatever business they choose on the property. Lewisville invests almost no money. The Corp requests a five year plan for the property which the council has approved.

IV. CITIZEN'S AGENDA.

Garry Bills - 605 Lake Drive, stated he would like to know what is being done about the property at 121 Lakeview.

Mayor McCutcheon replied that someone will be sent out there tomorrow.

Melody Lane - 194 Oakwood, Kingswood Mobile Home Park, feels that the city is selective with regard to code enforcement.

Matt Flanagan - 722 Thousand Oaks, reference code enforcement that directly ties in with the tax increase, and the fact that property is not being assessed right. Tax rate directly reflects how the community looks to Denton County. He feels the city has not done a good job with code enforcement.

Mayor McCutcheon, replied "We would really like to see people at the workshops regarding these issues."

Diane Byers - 699 Lakeland Court, stated the street light on her street is being paid for on her electric bill each month and she feels that the city should pay for the street light not her.

Close Citizen's Agenda.

V. PUBLIC HEARING.
CONSIDER A PROPOSAL TO SET A PROPERTY TAX RATE AT .57005 PER ONE HUNDRED DOLLAR VALUATION.

Matt Flanagan - 722 Thousand Oaks, stated that he is opposed to a tax increase because standards have not been brought up in the community.

Bob Davis - 68 Lake Ridge, stated that he feels it is worthy that the city is setting a competitive base for the workers in this city, but the percentage is too high. He recommends that a base be set and given to police officers. He also feels that instead of giving the raises on October 1, 1996 the city should wait three to six months. In that time set up a range for each position, set a criteria for the position and then look at the individuals that occupy those positions. This lets people that are not qualified for their positions to study up or go to a school and get certified. In the mean time give them a 5% raise. Specifically supervisors must meet the criteria to receive there raises.

Chris Curry - 212 Hillcrest, stated that he supports a tax increase, but only for the right things. He wants to see something back for that tax increase. Take a hard look at the streets and the drainage because something needs to be done. The first thing people look at when they enter this city is the streets.

Bonnie Brown Garcia - 427 South Denton Drive, stated that she wants to know why the tax rate is being discussed before a budget has been set. She feels that the city is one step ahead of the process and needs to back up.

Garry Bills - 605 Lake Drive, stated that he is confused about the tax rate. He thought it was a 7% based on last years tax percentage, what would it be for this year?

Close Public Hearing.

VI. ACTION FROM PUBLIC HEARING.

Stephen Wohr moved to increase the tax rate from .56634 to .57005. Motion withdrawn.

Bobby Shikle moved to not approve the new tax rate until they have a workshop and a survey on job qualifications, with salaries from the other cities. David Shershen seconded the motion. Motion failed 2 to 3 with the following vote: Ayes: Bobby Shikle and David Shershen; Noes: Stephen Wohr, Thanna Bounds and Bruce Martin.

Stephen Wohr moved to set the tax rate at .57005 per one hundred dollar valuation. Bruce Martin seconded the motion and it carried 3 to 2 with the following vote: Ayes: Stephen Wohr, Bruce Martin and Thanna Bounds; Noes: Bobby Shikle and David Shershen.

VII. PUBLIC HEARING.
CONSIDER A RE-PLAT OF LOTS 191, 192 AND E. ½ OF 193 OF THE KINGSWOOD ESTATES.

Doyle Cameron - 2300 Highland Village Road, stated that the changes the Planning and Zoning Commission requested have been completed and the deed restrictions have been changed to included the Peace Corp lots be required to be single story (lots 58 & 64-67). We have given the drainage plans to the city engineer, at Metroplex in Denton. He wants Brad Meyers to explain what is going on with drainage plan. In the subdivision we will be putting in quality streets and drainage and have proper maintenance.

Laird Lind - reference the easement, stated he wants to make sure that all the property is taken care of and that no property is neglected. He wants to make sure that the water run off does not become a problem and he does not want water on the easement. He has concerns as to whether the property can be maintained. There is also concern about fences being put up and whether there should be just one fence put up or separate fences for each property. The easement should be concrete with a curb on each side.

B. CONSIDER APPROVAL OF AN ORDINANCE OF THE CITY OF LAKE DALLAS, TEXAS, AMENDING THE COMPREHENSIVE ZONING ORDINANCE AND MAP OF THE CITY OF LAKE DALLAS, AND HERETOFORE AMENDED TO GRANT A CHANGE IN ZONING FROM R-3 AND R-1-10,000 TO GROUP HOUSING FOR TRACT 62 AND TRACT 71, AND 2.9 ACRES OF TRACT 86, IN THE M.E.P. & P.R.R. SURVEY, ABSTRACT 924 AND LOT 13B OF THE SECOND REPLAT OF HARBOURTOWN VILLAS.

CITY OF LAKE DALLAS
SPECIAL SESSION OF THE CITY COUNCIL
SEPTEMBER 16, 1996

I. ROLL CALL.

The meeting was called to order at 6:00 p.m. by Mayor Jerry McCutcheon with the following members present:

Jerry McCutcheon, Mayor
David Shershen, Mayor Pro Tem
Thanna Bounds, Council Member
Bruce Martin, Council Member
Bobby Shikle, Council Member
Stephen Wohr, Council Member
Barbara Starkey, City Secretary

With all members present, the following business was transacted:

II. PUBLIC HEARING.
CONSIDER PUBLIC COMMENT REGARDING THE 1996-1997 FISCAL YEAR BUDGET.

Linwood Gilliland - 703 Payton, suggested that the salary be adjusted over several years. The city has lost a few employees, except dispatchers and officers. He feels that the employees are excellent. He also has concerns about the streets, he feels that improvements need to be made.

Matt Flanagan - 722 Thousand Oaks, feels that the numbers he saw for the values and revenues were right in line with what is being paid here. The employees have received raises every single year. He did not like the answer he received at the previous meeting in regards to how these numbers were reached. He feels that the young police officers that have left, went because of the slowness of this city, not just because of the money situation. He feels that it is the same for the people in dispatch. He wants to know why none of this money is going for the Shady Shores Bridge and other roads. He also recommends for a 5% increase.

Samai Boetter - 219 Pembrook, feels that it is ridiculous that some of the cities that were looked at were big cities like Carrollton and Lewisville, the salaries should not look at large cities in the area because they have a bigger revenue. The city needs to look at the quality of the employees and set the base salaries by the position and then by the employees proven worth. Look at our population and our size and base the salaries on that. A 42% increase is ludicrous, if they were worth that much money then they would be somewhere else.

Laura Turner - 615 Lakeland, stated that she is opposed to the salary increase because it is causing tax increases and it will end up costing to much to live in Lake Dallas.

Bob Geisinger - 710 Lakeland, stated that he has lived here for 21 years and he is upset about the tax increase for salaries. He stated that the police department does deserve a raise but a 45% raise is out of the question. He suggested taking a survey of the surrounding cities and give a 4 or 5 percent raise.

Sandy Payne - 5513 Knights Court, stated that everyone in town is concerned about these raises. She feels that everyone should receive a raise every year, but the percentages are out of line. The council was elected to represent the people and they need to listen to the people because they are all here and very concerned about this problem and the council should be to if they would like to continue to represent the people.

Don Hansen - 712 Lakeland, stated all of the city employees need a raise, but not of such a proportion. They should get a 4 or 5 percent raise each year.

Garry Bills - 605 Lake, stated that he is for adjusting salaries, but the raise being asked for are too high. The salary range should be based on the merit of the employee.

Bob Davis - 68 Lake Ridge, stated that the council should listen to the people about the budget. He feels that the council made up their minds on what the salaries should be, but they need to listen to the citizens of this town if they want to be in good government.

Ruth Ann Dencklau - 521 Howard, stated that she was under the impression that the salaries were to be brought up to like communities and the cities in the survey are not like Lake Dallas. She found out that Lake Dallas is being compared to Dallas, Plano and Garland and she feels that is not right and she stated that she is definitely against the percentage being asked for.

Scotty Stein - stated that she has lived here for 50 years and when she came here there were no paved streets, this was a country town with country people. She does not believe in these raises that are proposed. The city is debt free right now, why give the money away for salaries? If the city is going to throw the money away then use it to put in sidewalks and to fix the potholes. Margaret is the only employee who deserves the high raise, no one else deserves such a high percentage. This is a crazy budget.

Rod Courtney - 162 Kingswood, stated that a one time adjustment would bring these people closer to others and after that then spread the increase over a two year period.

Ken Stapleton - 511 Ridgewood Drive, stated that it is good to have salary caps, but this is too much at once.

Samai Boetter - 219 Pembrook, stated that she has concerns because of the tax affect on fixed income people. We are not treating our elderly and veterans in the American way. We really need to think about what we are doing because we are going to cause a lot of serious problems for many of these people.

Kathy Crawford - 521 Howard, stated that she would like the salaries to be justified. She does not feel that the city can justify it when Corinth has the same type of town as ours and their numbers are nowhere near ours.

Chris Curry - 212 Hillcrest, stated he has some questions about the revenues. Where is the money coming from and where is it going?

Close Public Hearing.

III. ACTION FROM THE PUBLIC HEARING.

A. CONSIDER APPROVAL OF AN ORDINANCE ADOPTING THE 1996 - 1997 FISCAL YEAR BUDGET.

Mayor McCutcheon stated that he has received approximately five calls against this action.

Stephen Wohr stated he has received about 20 calls against this action.

Bruce Martin referred to the Corinth police chief's salary has gone from $39,060 to $44,915 effective October 1, 1996.

Bobby Shikle stated that he is for the raises, but the city needs to look at the employee's qualifications.

Stephen Wohr feels that the employees are historically underpaid and ranges need to be set and the qualifications should be looked at. There should be high and low ranges set.

Thanna Bounds stated that the higher salaries should be lowered and the lower salaries should be raised.

David Shershen stated that it is his responsibility to represent the people because they elected him to do so. He has felt uneasy about the budget all the way around. He would like to complement city staff but he has to go with the citizens and go against the raises.

Bruce Martin moved to accept the budget as proposed, to take the highest salary of the existing range and make it the range for the new low end of the range and propose new salaries for the high end of the range, in addition the salaries increases for all personnel on their anniversary dates with the exception of department heads, shall be given after an evaluation with the department heads and the pay increase to be based on the performance of the individual and the Mayor of this council give justification for each employee for all pay increases in the department. Department heads have their evaluation done by this council by October 30, 1996. Motion withdrawn.

Hundley Drive, thanked the City of Lake Dallas and the City Council for their help with the Hickory Creek Hoedown; also for allowing Hickory Creek to use the City of Lake Dallas stage. Mr. Snider invited the Mayor and City Council Members to participate in the first semi-annual Lake Dallas Town Hall Forum to be held on Tuesday, October 29, 1996 at 7:00 p.m. at the Lake Dallas Middle School cafeteria. The forum is provided to allow the citizens of Lake Dallas and the City Council Members an opportunity to discuss items of concern within the community.

Norma McAlvey, 25 Kingswood, stated she feels the Planning and Zoning Commission made a mistake when they approved the replat of lots 191 and 192 of Kingswood Mobile Home Park. She feels the mobile home that was placed on the replated lot does not meet all city ordinances.

Mayor McCutcheon replied he asked the Building Inspector to make sure the mobile home meets all city ordinances. The Building Inspector has informed him that the mobile home does meet all city ordinances.

John Daugherty, 312 Stately Oak, requested the support of the City Council for implementation of a drug task force that is being sponsored by the school district. Mayor McCutcheon, replied that he does not have any expertise in building inspection and that is why the City hires a Building Inspector and that is his responsibility.

Stephen Wohr reported that the Planning and Zoning Commission has recommended the approval of this special use permit.

David Shershen asked if all residences of Carlisle were notified.

Mayor McCutcheon replied that all legal notifications were mailed out to property owners within 200 feet of the property; which meets the legal requirement.

Bobby Shikle asked how old is the building. As the city has just performed an asbestos inspection of the City Hall building, does the same inspection have to be performed on this building?

Toni Smith replied that she has had the building inspected and the building does not contain any asbestos.

Close Public Hearing.

VIII. ACTION FROM PUBLIC HEARING.

Stephen Wohr moved to approve the special use permit for the expansion of the Children's Learning Station at 315 Carlisle. Bruce Martin seconded the motion and it carried unanimously.

IX. PUBLIC HEARING.
CONSIDER A ZONING CHANGE FOR APPROXIMATELY 5 ACRES LOCATED ALONG THE EAST AND SOUTHEAST OF TRACT 7 OF THE T. WHITE SURVEY, ABSTRACT 1376 FROM C-1 TO R-1-7200, WITH STIPULATIONS ON LOT WIDTH AND REAR SETBACKS.

Mayor McCutcheon reported that he has a petition containing 182 signatures requesting that the R-1-6000 zoning not be considered. Mayor McCutcheon also reported that he had heard concerns that this property should go before the Board of Adjustment because of the stipulations. The City of Lake Dallas Municipal Code, Section 17.36.010 does allow for the City Council to grant stipulations during the platting process.

Jim Douglas, with Douglas Properties, developer of the property, stated that there is an eleven (11) acre tract of land along Dobbs Road that is currently zoned commercial. To allow for additional access to the property, he is proposing to build a road through there. The people who currently own homes backing up to the property would have a row of homes behind their property instead of a road, which they had not expected. He is proposing moving the road over to allow for an additional row of homes that would face the proposed road. He is asking for the R-1-7200 zoning, which is the current zoning on the existing homes. He is asking for a variance on six (6) or seven (7) lots on the rear setbacks which is similar to what they will back up to.

Olive Stephens, Mayor of the Town of Shady Shores, stated she is concerned about the drainage on this property and how it will affect the homes on Berry, in the Town of Shady Shores.

Jim Douglas stated that during the final platting stage he will submit a drainage study to the city engineers for Lake Dallas, Corinth and Shady Shores.

Close Public Hearing.

X. ACTION FROM PUBLIC HEARING.

Mayor McCutcheon stated that he is concerned about all the Corinth residents using Lake Dallas streets. What has been done to research another exit out of the property, so that Lake Dallas is not impacted by Corinth residents.

Jim Douglas replied that he has talked with the broker who has the property to the north of the Corinth property. He has asked that when the property is developed he would like to talk with the developer about tying in a street, and he has allowed for an access point in the Corinth plat to allow for tying in a roadway. He has asked Ken Seal at Corinth to have any developer, on the property to the north, contact him so this could be worked out at the time of development.

Stephen Wohr stated he has a concern about the 50-foot right of way on the northern part of the road with the amount of traffic on River Oak Way. He asked Mr. Douglas if he would consider making the northern part of River Oak Way wider or possibly a boulevard style road.

Bruce Martin stated that several residents of the Thousand Oaks area are concerned about River Oak Way being a prime access point to the property and allowing for fire equipment to access the area. Bruce Martin asked for a commitment for a 60-foot width on River Oak Way to allow for additional road width because of cars that could be parked on the road, this would allow for easier traffic flow.

Jim Douglas replied that he will commit to a 60-foot width on River Oak Way.

Mayor McCutcheon asked Jim Douglas, is Corinth prohibiting construction trucks from coming down Dobbs Road to the development?

Clyde Edwards, 108 Dobbs Road, stated that Corinth does have signs on Dobbs Road prohibiting trucks on Dobbs Road.

Mayor McCutcheon will contact Corinth in reference to their prohibited truck traffic on Dobbs Road.

Truman Harp stated that he has had discussion with a developer in reference to Jackson Ranch property and possibly all development projects to plan additional access to all properties.

Bruce Martin moved to approve the zoning change for approximately 5 acres located along the east and southeast of Tract 7 of the T. White Survey, Abstract 1376, from C-1 to R-1-7200, with stipulations on lot width of Lots 1-13, Block 1 shall have a lot width of 65 feet and rear setbacks on Lots 5-11, Block 1 shall have a rear setback of 20 feet and with the proviso as Mr. Douglas has granted that the additional section of River Oak Way on the plat would be a minimum of 60 feet wide. Bobby Shikle seconded the motion and it carried unanimously.

XI. PUBLIC HEARING.
CONSIDER A ZONING CHANGE FOR 19.588 ACRES OF TRACT 1A OF THE T. WHITE SURVEY, ABSTRACT 1375, AND 0.4098 ACRES OF TRACT 7A OF THE T. WHITE SURVEY, ABSTRACT 1376, FROM R-10,000 TO R-1-10,000, WITH EXCEPTIONS ON LOT AREA ON 15 LOTS, REAR SETBACKS AND MINIMUM SQUARE FOOTAGE OF HOME.

Jim Douglas stated that he is proposing to donate Lot 1, Block 3, as a city park, and requesting that 15 lots along the west side of the property that adjoins the Corinth property and several lots in the interior of the development be less than 10,000 square feet, with the smallest lot being lot 24 with an area of 8043 square feet. These 15 lots would include 5 lots with less than 9000 square feet and the other 10 lots would be between 9000 and 10,000 square feet.

Mayor McCutcheon asked Mr. Douglas, what would you do to help develop the park?

Jim Douglas replied that he would grade, seed and include a sidewalk during the development of the subdivision.

Ruth Ann Dencklau, 521 Howard, asked if the value of the land could be used for matching grant funds for the park.

Clyde Edwards, 108 Dobbs Road, asked Jim Douglas why the street could not be run down the west side of the commercial property.

Jim Douglas stated that in order to do this all the trees would have to be removed.

David Updike, 737 Black Walnut, asked why Shady Shores Road and Dobbs Road are in such bad shape. He also would like to know if he is going to have to watch the newspaper for notices for any other variance requests.

Mark Ruder, 739 Black Walnut, stated that he is concerned about any drainage problems that might occur with the development of this property.

Close Public Hearing.

XII. ACTION FROM PUBLIC HEARING.

Bruce Martin asked Mr. Douglas as to what changes he is proposing in regard to the exception on the minimum square footage of a home.

Jim Douglas replied that he understood that the minimum square footage in a R-1-10,000 zoning district was 2000 square feet, but after obtaining a copy of the ordinance he found that the minimum square footage was 2500 square feet. He is asking for a minimum square footage on the homes in the development be 2000, the minimum front setback be 25 feet, and the minimum rear setback be 20 feet.

Stephen Wohr moved to approve the zoning change for 19.588 acres of Tract 1A of the T. White Survey, Abstract 1375, and 0.4098 acres of Tract 7A of the T. White Survey, Abstract 1376, from R-1-10,000 to R-1-10,000, with exceptions on lot area on 15 lots, specifically Block 3, Lots 2, 3, 4, 5, 6 & 7 that boarder on the Lake Dallas, Corinth city line, Block 4, Lots 24, 25, 26, 29 & 30 and Block 5, Lots 1, 2, 7 & 8, and that the minimum front setback be 25 feet, the minimum rear setback be 20 feet and minimum square footage of home be 2000, on the condition that Block 3, Lot 1 be dedicated as a city park and that the park be graded, seeded and include a sidewalk, also the value of the park will be used to obtain matching grant funds and that provisions be made for an access road south from the property on Block 4, Lot 18 and that no lot area be less than 8043 square feet. David Updike, 737 Black Walnut, stated that the high pressure gas line runs under the lot that has been dedicated as a park, would there be a safety issue with this.

David Shershen stated that he and several citizens would like to see some activities sponsored by the city for the youth of the community to become involved with. Although these activities would fall under the Park and Recreation Board, he feels the Board is already heavily involved in the plans for the park and the grant application. In order to relieve some of the burden on the Park and Recreation Board, he feels an Ad-Hoc Committee on Youth and Recreational Activities should be formed and that committee would work with the Park and Recreation Board.

VI. CITIZEN'S AGENDA.

Gary Byrd with the Lake Cities Chamber of Commerce stated that the Board of Directors for the Chamber of Commerce have been unaware that amendment proceedings to the sign ordinance have been taking place. This ordinance will have a direct impact on a majority of the Lake Dallas membership of the Chamber of Commerce, as well as every business in this city. Due to a lack of notification of a hearing regarding this ordinance, there is speculation that there was little or no input from the business community at large and nothing official by the Chamber of Commerce. Considering the implications of this ordinance and the fact that there will be opposition to its contents as written, the Board of Directors of the Lake Cities Chamber of Commerce respectfully request this matter be tabled at this time. Additionally, it is requested that the membership of the Chamber of Commerce have a chance to review this ordinance as written and its proposed amendments. Then the Chamber of Commerce will have an opportunity to draft a position statement, and would like to reopen discussion of this ordinance in some type open forum. I hope you honor this request.

David Shershen, 166 Kingswood Dr., Lake Dallas stated that often times in a case of human endeavor, we come across a superstar and I would like to take this opportunity tonight to introduce to the council and to this audience a person who became a superstar in my mind. The Lake Cities Expo which changed from Sunday to Saturday because of the fact that it was a Dallas Cowboy-Miami football game, we knew that would impart blow our attendance and participation, nevertheless even with out the full attendance that we expected, the project director for this particular project from the Lake Cities Community Action Committee proved herself to be an extreme optimist and ran ahead

of the pack. I would like to introduce at this time Barbara Arnold. She put the project on and made it successful and because of it, the Lake Cities Community Action Committee was able to net over $1,350.00 dollars.

Bob Davis, 68 Lakeridge, stated that the agenda is too long. I would like to encourage the City Council to do something about the agenda. More meetings, put a time limit on it. It is ridiculous. We have to do something. We have signs, we got people who need to run a business. We do not need decisive issues. We need to get action out of this council.

Close Citizen's agenda.

VII. PRESENTATION OF CERTIFICATE OF APPRECIATION TO ALDENA STOWE.

Presentation to Aldena Stowe made by Mayor McCutcheon.

VIII. PUBLIC HEARING.
CONSIDER THE PETITION OF LAIRD LIND REQUESTING A ZONING CHANGE FOR LOT 2 OF SUNDOWN ACRES FROM R-1-10,000 TO R-1-7,200.

Laird Lind, 731 Carlisle, Lake Dallas, stated that when we re-zoned it to R-1-10,000, I was under the impression, as was the majority of the people, that we had a square foot minimum of 2,000 feet in the R-1-10,000 zone areas. That turned out to be not true, it was 2,500 square feet. The home that I am building is going to be 2,200 square feet. The sole reason that I want to down zone it to R-1-7,200 is so that I can put the house on it that I want to build.

Close public hearing.

IX. ACTION FROM PUBLIC HEARING.

David Shershen moved to approve the zoning change from R-1-10,000 to R-1-7,200. Bruce Martin seconded the motion and it carried unanimously.

X. PUBLIC HEARING.

Linwood Gilliland, 703 Peyton St, Lake Dallas, stated that in the past we have adopted the Uniform Building Code, that definition is part of the Uniform Building Code.

Bob Davis, 68 Lakeridge, Lake Dallas if a building has to be fully enclosed by that definition, you are saying that you can come back later, what would you do?

Carolyn Green, 201 N. Shady Shores Road asked if this definition was just on buildings?

Bonnie Brown Garcia asked if this was the same ordinance that the Planning and Zoning had discussed and what did they do about it?

Matt Flanangan, 722 Thousand Oaks Dr., stated that in the ordinance and in the building code that there is a word called a structure and it would seem that a building is just as you stated a enclosed building. A structure is something other than totally enclosed.

Close Public hearing.

XI. ACTION FROM PUBLIC HEARING.

Thanna Bound moved to table amending Chapter 18, Section 18.02 of the Lake Dallas Municipal Code in regard to definitions. Bobby Shikle seconded the motion and it carried with Bruce Martin abstaining.

XII. PUBLIC HEARING.
CONSIDER REMOVAL OF CHAIRMAN CLYDE EDWARDS FROM THE BOARD OF ADJUSTMENT.

Ken Stapleton, stated that this is an awkward position for the audience, you are asking us to choose to hold our input possibly until another time without knowing how the council will vote before we do that. Are you assuring me that it will be tabled until another time?

Bob Davis, has it been clearly determined, and has the appropriate party been clearly advised to the use of cameras?

Close public hearing

JERRY MCCUTCHEON, MAYOR

CITY OF LAKE DALLAS
SPECIAL SESSION OF THE CITY COUNCIL
NOVEMBER 21, 1996, 7:00 P.M.

I. ROLL CALL.

The meeting was called to order at 7:00 p.m. by Mayor Jerry McCutcheon with the following members present:

Jerry McCutcheon, Mayor
David Shershen, Mayor Pro-Tem
Thanna Bounds, Council Member
Bruce Martin, Council Member
Bobby Shikle, Council Member
Stephen Wohr, Council Member
Kelly D'Amato, Secretary

With all council members present, the following business was transacted:

II. CONSIDER APPOINTMENT OF MATT FLANAGAN TO THE LAKE CITIES LIBRARY BOARD - ACTION.

David Shershen moved to appoint Matt Flanagan to serve as a representative of Lake Dallas on the Lake Cities Library Board. Stephen Wohr seconded the motion and it carried unanimously.

III. PUBLIC HEARING: CONSIDER REMOVAL OF CHAIRMAN CLYDE EDWARDS FROM THE BOARD OF ADJUSTMENT.

Mayor McCutcheon read charges against Chairman Clyde Edwards. (See attached). Mayor McCutcheon stated that he has two letters from different people asking for Mr. Edward's removal and one petition with 28 signatures asking for his removal.

Ken Stapleton, 511 Ridgewood, stated that I would like to read a letter that I mailed to the Mayor on October 31, 1996. On October 21, 1996, the Lake Dallas Board of Adjustment held a regular open meeting. During this meeting the Chairman placed an item before the board that was not on the agenda. The item in question was discussed by the board and the chairman called for a motion. The board members presented a motion and the chair called for a vote. I then informed the chair that I felt he was in violation of the Open Meetings Act. At that point the chairman resumed the meeting. The Mayor Pro-Tem arrived later that evening and was made aware of what had transpired. A recess was asked for by the Mayor Pro-Tem to confer with the chair. When the meeting resumed, the chair had asked for a motion for adjournment. When I called your office the following morning asking that you look into this matter, you assured me that the chairman would be removed from the board. On October 30, 1996, you called and informed me that it may not be possible to have the chairman removed from the board, at this point your advice was to write a letter of complaint. I feel that the chairman of this board has not only violated the Open Meetings Act but

has violated the public trust of the citizens of Lake Dallas. It is my request that you call the City Council into a session immediately and begin investigation and prosecution of any violation of the Open Meetings Act concerning this issue. Respectfully, Kenneth E. Stapleton. Furthermore, as an alternate member of the Board of the Adjustment, I can no longer stand by as our professionalism falls by the way side. Chairman Edwards has not only violated Texas laws. He has violated the public trust. When Chairman Edwards decided to place an unposted item on the agenda, he did so why being videotaped, audio taped, and in the presence of all those in attendance in the audience. If there are any council members here tonight that feel they need to violate their oaths of office by not voting to remove Chairman Edwards, then they to have violated the public trust and should be dealt with accordingly in a court of public opinion.

Matt Flanagan, 722 Thousand Oaks, stated that Mr. Edwards has given his time to the city to take this post. I have known Clyde for a long time and I thought he would do the city a really good job and I think he did for a while. The biggest problem that I have with this and I think you should also is during that meeting, he said that you all said it was okay to act on this issue. Clyde Edwards in that position is basically working as an employee for you. He lied about your intentions. He said it was okay from the council to go ahead, and they can discuss and decide on that issue themselves. I have talked to a few of you and that was not the case. He also said the city attorney said that they could discuss it. You cannot have people violating the public trust and lying to us out in the audience. We tried to get him to stop and continue with the video recorder on but he was not going to listen. I think that he did violate our trust and I think that he should be removed. He has given his time to the city and these proceedings are very tough. But it is our city, you are here to up hold our public trust, your public trust individually has been violated by him and if you do not feel that way, I do not know how you can honestly keep sitting up there. It was violation of state law and we should go forward from there. We have got to become more professional.

Bob Davis, 68 Lakeridge, stated that at some point during the Board of Adjustment meeting the chairman said to the group, hey guys do you want a camera in here or not. What do you think? They decided that they did not want a camera. The thing that concerns me about this whole deal here is that if you take that to this meeting here and you have a long meeting and the next thing you know, when Mayor McCutcheon says well guys do you want to take a potty break. All of a sudden we are going to see Matt Flanagan and Ken Stapleton standing in the door waving state regulations and saying you have violated the state law. This is how ridiculous it could be. Ken Stapleton talks about the citizen's concerns. Do you think that the citizens are concerned about this issue or about the roads? This is the concern of two guys who got defeated in the last election, Ken Stapleton and Matt Flanagan. Their biggest concern should be the issues that this council needs to be applying its attention to the critical issues involving this community and how it is going to survive in the next five to ten years. My recommendation is to put this to rest.

Chris Curry, 212 Hillcrest, stated that we need to backup a little bit. There have been two lawsuits basically since Clyde Edwards has been Chairman. But I ask this council have you provided him with the formal training that he has needed to be a chairman of the board? Have you provided the same training to other board members or commissions on Planning and Zoning? To my knowledge this city has not had any formal training until after this incident, in which the city attorney had a training session. When you take and deliberate and make your decision tonight, remember that if we have not provided him the training and the tools he needed to do his job, then we are just as guilty as he is.

Frank Barnard, 328 Betchan, stated that I would like to thank the City Council for having this recent workshop, the guidance, the do's and don'ts of the Board of Adjustment and Planning and Zoning. This helps me and other board members make better decisions when voting on special issues and procedures. I would also like to see an attorney more accessible to the Board of Adjustment for legal technical support through the chairman. This has been a problem. Only after education and technical legal support to be provided to the Board of Adjustment should we condemn a volunteer for their actions. I am sure even the elected officials of Lake Dallas have made mistakes in their elected duties but we must all learn to work together, hopefully someone will take the lead. As an alternate to the Board of Adjustment, I would like to show my support for Chairman Clyde Edwards. Clyde Edwards and the board members need technical and legal support to do the best job possible, let's seize this opportunity and continue that technical support.

Rod Courtney, 162 Kingswood, stated that I have served with the Clyde Edwards on the Board of Adjustment since December 9, 1993 which was the inception of our board here in the city. I have worked closely with him in researching and studying the manuals, the codes, the ordinances and the laws of Texas. Apparently we missed one or did not follow through exactly on the Open Meetings Act. With what we had before us and the training we had and the information that was given us, I think that we always tried to make the decision in the best interest of the city. I again, along with others say thank you for the late training session that we had. I wish that had happened back in 1993. I know that we are all learning as we go along. I do know that the training session included the Planning and Zoning Commission, also the City Council and the Board of Adjustment. I think from that we will all be able to work much closer together and in the right direction. I think Clyde has given his time, and honestly done what he thinks is right. I would like you very much to consider that Clyde be retained as Chairman of the Board of Adjustment.

Clyde Edwards, 108 Dobbs Rd, stated that I have a prepared statement. (See attached statement).

Herman McAlvey, 25 Kingswood, asked if the petition is going to be addressed?

Norman McAlvey, 25 Kingswood, stated that I agree that the City Council needs to come together. A lot of us are unhappy. We would like everyone to get behind you and unite and put forth something to build this city on, instead of the dissention that we are having.

Diane Byers, 699 Lakeland, stated that I have listened to both sides. Texas does have an Open Meetings Act. It is a law, whether you intend to break the law or not, and you do, you have to be judged on that and not on your intent. I think that action should be taken on the facts and not on personal feelings.

Frank Barnard stated that I agree with her but the only thing, I do not agree with is that the Texas state law also states that if it is intentional. If you intentionally do it, it is criminal.

Ken Stapleton, stated that there is nothing political about this.

Matt Flanagan, stated that we have had over the years, many people serve on boards. It is a volunteer position. It is up to the volunteer to educate their selves. It is up to you individually. You do it yourself and you take the hits when you do it wrong.

Bob Davis, stated that it is up to the District Attorney to decide whether it is a violation of the state law.

Carolyn Green, 201 N. Shady Shores Rd., stated that I am mad. We are arguing amongst ourselves. My problem with this is a city divided cannot stand. Whatever your decision tonight is, I feel like it will be based on whatever is discussed here and I feel it will be a fair decision. We have a city to run. Get the decisiveness on of the way. Run the city.

Chris Curry stated that I caution you all about the Texas Open Meetings Act. Stick to the agenda and only allow the comments addressed on the agenda.

Close public hearing.

Jerry McCutcheon, Mayor
David Shershen, Mayor Pro-Tem

The Pledge of Allegiance to the flag was given and invocation was given by Mayor McCutcheon.

III. MINUTES.

David Shershen moved to approve the minutes of the meetings held in November, 1996. Stephen Wohr seconded the motion and it carried unanimously.

IV. CITIZEN'S AGENDA.

Clyde Edwards, 108 Dobbs Rd., stated that on the citizen's agenda in the newspaper this week, there is an article about Mr. Martin dropping the lawsuit because the council had amended the definition of a building. I am just here to remind the council as the Board of Adjustment Chairman that the only one that can over rule a change in the decision of the Board of Adjustment is the county court. A definition change does not constitute a change in the decision that the Board of Adjustment has made. I think that you need to address that and look into it seriously.

Matt Flanagan, 722 Thousand Oaks, stated that the Lake Cities Baseball Association had a meeting the other night and discussed Willow Grove Park. What we are finding out is that the City of Denton is looking really hard at not allowing anyone outside the city limits to join their baseball association. We are looking at a large influx of children coming back to the Lake Cities to enjoy those sports. I remember a couple of years back when we gave over the corp property, I seem to remember that we kept the fields as part of the lease, and then allowed the baseball association to use them and try to maintain them. If we could possibly locate that paper work, and then see if we could coordinate with the baseball association.

Gary Byrd, 2215 Lake Sharon Dr., Corinth, with the Lake Cities Chamber of Commerce stated that each meeting of the legislator, they have a Denton County Day. Denton County takes a group of politically inclined to Austin to really make Denton County known. It is the first week of April. The week before they do this they hold a kickoff dinner and it will be held at the Texas Motor Speedway. This is the opportunity for each of the cities too showcase their city.

Chris Curry, 212 Hillcrest, stated that the council needs to look at the ordinances. In reviewing the ordinances, I do not see where the City Council can grant a variance. Do not violate our own ordinances.

Close Citizen's agenda.

V. PUBLIC HEARING.
CONSIDER A FINAL PLAT FOR 19.588 ACRES OF TRACT 1A OF THE T. WHITE SURVEY, ABSTRACT 1375, AND 0.4098 ACRES OF TRACT 7A OF THE T. WHITE SURVEY, ABSTRACT 1376 AND APPROXIMATELY 5 ACRES OF TRACT 7 OF THE T. WHITE SURVEY, ABSTRACT 1376. THIS PROPERTY IS LOCATED SOUTH OF DOBBS ROAD AND SOUTH OF STATELY OAK LANE IN THE CITY OF LAKE DALLAS, DENTON COUNTY, TEXAS.

Jim Douglas with Douglas Properties stated that I believe we have addressed all the concerns that the City Council and Planning and Zoning had on the preliminary plat. We have made all the corrections to that. We have the access easement. This lot one (1) will be deeded to the city for the park. There will be a 60 foot right of way going up to Dobbs Rd. All the lots meet the minimum square footage that we discussed. Metroplex Engineering, City of Corinth's and Shady Shores Engineers have all reviewed the plans and okayed them. Mike Saunders with the Lake Cities Municipal Utility Authority also okayed them.

Chris Curry, 212 Hillcrest, stated that this council needs to instruct the developer to do a better job repairing the road than they did the last time. Work with the developer to decrease the runoffs. I also ask that you review the subdivision ordinances.

Robert Hansen, 337 Stately Rd., asked if Texas Oak will be rebuilt?

Clyde Edwards, 108 Dobbs Rd., stated that lot 18, the access to Jackson Ranch is suppose to be stubbed out, not an access. I think we need a street here with a stub out that we can tie into, not an access. Corinth will be using our streets. There is going to be lots of traffic. I would hate to be an investor with 10,000 square foot lots, next to 5,000 square foot lots. I would not recommend this final plat. I think we ought to meet with the City of Corinth. I feel they are putting trash next to us.

Chris Curry, 212 Hillcrest, stated that I would like to encourage the council to look into doing a road impact fee. As a taxpayer, I do not want to pay for a new development. I believe a new development should pay for itself. The same with the parks. You can put in the ordinance to collect a fee for the parks.

Matt Flanagan, 722 Thousand Oaks stated that there has been a preliminary plat done. He has gone before you and the Planning and Zoning Commission. He has a business to run. I live in one of the homes that he helped developed. It is a fantastic neighborhood. This will be a fantastic neighborhood. Things about developing parks, those should have been done, when it first came before you. If you do not do your homework, it is not his fault. If these people that are down here complaining tonight did not come down and complain then and you did not listen to them then, that is a problem. People need to make a living. He put a lot of money into what you see before you. I want to see him develop it. I would like to see it passed the way it is.

Chris Curry, 212 Hillcrest, stated that if you are going to follow along and not let us come to the final plat, then why hold a public hearing. It is an opportunity that if you missed the preliminary plat, you can come back at the final plat. Two wrongs certainly do not make a right.

Linwood Gilliland, 703 Peyton, stated that until just recently we had 10% fee on all building permits for parks.

Clyde Edwards, 108 Dobbs Rd., stated I agree with what Matt said but if you go back to your minutes, you will remember me bringing this issue up at each meeting. The road is not as big issue as the quality of the roads.

Mark Ruder, 739 Black Walnut, stated that he is concerned about the drainage on his lot.

Robert Hansen, 337 Stately Oak, asked when the Jackson Ranch would be developed? Can you barricade the stub out?

Mayor Stephens, Shady Shores, stated that if your figures are what they say, it will be okay. I tried to talk to the engineer today, but he was out of town, so I did not get his comment. I understand that there is a drainage study from the Corp of Engineers, hopefully they will give us some figures on this and will give us some more input on the drainage. Hopefully it will work.

Close public hearing.

VI. ACTION FROM PUBLIC HEARING.

Stephen Wohr moved to approve the final plat plan as prepared here with the only exception being that the road be actually stubbed and paved out. Thanna Bounds seconded the motion and it carried unanimously.

VII. PUBLIC HEARING.
CONSIDER AMENDING CHAPTER 10, SECTION 10.24.150 OF THE LAKE DALLAS MUNICIPAL CODE REGARDING FRONT OR SIDE YARD PARKING IN R-1 AND R-2 ZONES.

Aldena Stowe Gregory, 603 Hundley Dr., stated that she was on the Planning and Zoning Commission and we really studied this ordinance. We allowed each home a 40% parking area. I do not want to see my end of town become a slum area again. There were cars parked everywhere. We don't want to see that again, not on a daily basis. This ordinance has helped. Do not punish 5,000 people. Leave the ordinance as it is.

Norma McAlavy, 25 Kingswood, commented why do we take our city ordinances and go backwards. They are for our benefit. Be considerate of neighbors. Let's keep things like they are. This could not work for mobile home parks. It would not be safe or benefit the people. Let's go forward.

Matt Flanagan, 722 Thousand Oaks, stated that the parking ordinances are now gone. This will affect our property value. My home is an investment to me. I have a purpose for those dollars. I am really sad that it was passed.

Linwood Gilliland, 703 Peyton St., stated that we will never be able to have ordinances that will work well in Thousand Oaks, down by Thompson street because they are not uniformly the same because of the size of the lots. The employees need to knock on the door and check out the situation and not send nasty letters.

Brad Cox, 80 Kingswood, stated that it is a fire hazard. When I moved there you made me put gravel down. I think you need to let the ordinance stay like it is.

Clyde Edwards, 108 Dobbs Rd., stated I am upset. These are citizens, I am a citizen.

Bob Davis, 68 Lakeridge, stated there are differences in this town. There are mobile home parks. We have Oak Lakes and Thousand Oaks with large lots and wide streets. There is a lot of diversity. Structure it in some way where the community can decide for themselves. Have some flexibility.

Aldena Stowe Gregory, stated that is why we worked on the 40% of the front yard, to take the people in consideration who did not have a wide street. We were very considerate of that.

Chris Curry, 212 Hillcrest, stated you can structure an ordinance to deal with different areas,

if it deals with Health and Safety.

Linwood Gilliland, 703 Peyton St., stated that I understand Mr. Wohrs situation. Even if they parked on the grass, they would still have to park in the streets. There is some exaggeration on the problem we got. Code Enforcement employees are gone holidays and on weekends. We need to have the employees knock on the doors to see what the problem is. The ordinances are not bad.

Robert Hansen, 337 Stately Oak, stated that my only suggestion would be to make parking on one side of the street only.

Bob Davis, 68 Lakeridge, asked how does the 40% situation work on a circular drive?

Linwood Gilliland, 703 Peyton St., stated that we do have an ordinance regarding parking on the street. Maybe we need a clause that says this does not apply if you are building a house. It takes a little initiative on our own.

Carolyn Green, 201 N. Shady Shores Rd., stated it all boils down to this, we do not have an ordinance for parking right now. You have heard all the input, what are you going to do?

Close Public hearing.

VIII. ACTION FROM PUBLIC HEARING.

Stephen Wohr moved that the only action that we take on agenda itemVII is to place this on the agenda for the 18th, that it be listed as a public hearing and it be listed as consider amending Chapter 10 of the Lake Dallas Municipal Code to add a parking ordinance for front or side yard parking in R-1 and R-2 zones. David Shershen seconded the motion and it carried unanimously.

D. VISITORS/CITIZENS AGENDA:

Margaret Tisdale, 509 Howard, had some concern regarding business item 5 since the funding had been reduced to $105,000 from the original estimate of $250,000. Would that be enough for a good job?

Carolyn Green, 201 North Shady Shores Road, expressed disappointment that the only council member at the tree lighting for the Spirit of Christmas was Thanna Bounds and appreciated the fact that Stewart Fairburn, City Manager, was also in attendance. She stated that the volunteers for the Planning and Zoning Committee, the Parks and Recreation Board, and the Board of Adjustment need to be shown appreciation. She mentioned that wrapping of gifts for the Spirit of Christmas was Decmeber 11 and invited the council members to participate.

Council Member Barnard said he would like for the City Council to read and approve the quarterly newsletter before it goes out. The next newsletter goes out in January in time to include information regarding the quarterly clean-up scheduled for the 3rd week in January. Jack Roe, property owner/developer spoke in favor of the re-zoning. He suggested a mix of homes that would not price them out of the market; the sewer plant doesn't allow for larger lots. Jackson Ranch is more dense. He suggested a Shady Shores entry.

Carolyn Green, 201 North Shady Shores said she had just heard a replay of the Thousand Oaks and Jackson Ranch re-zoning hearings. She did not believe the area should be re-zoned.

Randy Squier, 560 North Lakeview, said their property is adjacent to this area and asked that they consider the structure/veneer of the houses more than the lot size. He suggested that the developer try to purchase street right of way in lieu of having property condemned to achieve the same ends. The sewer plant smells much less.

Mike Newberry, 508 North Lakeview; was in agreement with the others who had spoken. He also stated that the sewer plant had less odor and a big portion of the area was not visible; the roads are a big issue and an entry from Shady Shores should be looked into. He thought that smaller houses at the north end of the property could be a possibility.

Margaret Tisdale, 514 Shady Shores; said it's a beautiful piece of property and bigger homes should be erected there.

Hulen Boliver, 514 Shady Shores; he represented the Boliver Property and stated that in 1970 the City had a chance to do a street through that property due to his father. He resents anyone asking him to condemn part of that property.

Barbara Garrison, Hulen's sister; spoke against re-zoning because if it is down-graded then trees would be bull-dozed down and the property owners would be able to see the sewer plant.

5) **Business:**

a. **Consideration and Action on approving emergency expenditures not to exceed $15,000 for the replacement of the damaged radio repeater.**

Chief Ristagno reported he had been quoted a price of $10,000 for a new repeater, but had since received a quote of $5,500 to $6,500 from another firm (D/FW Communications) for a base station that could be used with a repeater system for an additional $2,500. The City could apply to the F.C.C. for a license for the repeater.
Michael Kaspar, 739 Harbour Town Drive, Lake Dallas, asked to speak during discussion on repeater for Police Department and asked if cities didn't have an annual automatic 'out' on leases. Mr. Fairburn replied that most contracts have escape clauses.

Council members requested staff to check into the option of short-term leasing in conjunction with going into the Denton County dispatch system when opening arises.

Mayor Courtney excused himself at 8:00 p.m. stating he didn't feel well and asked Mayor Pro-Tem Shikle to preside over the rest of the meeting and workshop.

Motion was made by Mayor Pro-Tem Shikle to approve an amount up to $10,000 for the purchase of the equipment necessary for the radio dispatch service with an option of first looking into a lease/purchase option up to $3500 for a year's lease. Seconded by Council Member Barnard.

Mayor Pro-Tem Shikle called for a break at 8:10 p.m. before going into the Workshop Session.

Mayor Pro-Tem Shikle called the Goal Setting Workshop into session at 8:28 p.m.

7) GOAL SETTING WORKSHOP

a) Review of financials. City Manager Fairburn explained the General and Debt Funds Summary sheet he had given to the City Council. He discussed the Fund Balances for year end 2001 thru 2004 to clarify that the amounts are only projections arrived at by current trends. Mr. Kaspar asked if it costs more for the police department during the summer due to alcohol consumption and wondered if it be feasible to put an additional tax on liquor sales and designate the monies generated for the police department or streets. Mr. Fairburn answered that we would have to raise the sales tax percentage on all taxable items and Council Member Bounds said the citizens would have to vote on that issue.

b) Review of Current Projects. Administration: Mr. Fairburn stated we are working on Y2K compliance for the computers and accounting/municipal court system; he has approximately 50 pages from the Municipal Code Corporation to read over, make notations and return for the codification project; the City Secretary certification will be accomplished over the next two to three years; the Library/City Hall project is a big item for consideration; the May election is fast approaching and a meeting has been scheduled with Don Alexander, acting elections person for Denton County, the Lake Dallas I.S.D. and LCMUA on March 1.

Planning and Zoning: the Comprehensive Plan has been kicked off. It will take work by the P & Z commissioners as well as staff and the anticipated completion date is the end of the year. Some general policies for Economic Development have been okayed by the P & Z and an ordinance will come before the council after information comes forth from the attorney.

Parks and Recreation: The Master Plan needs updated; the Park Grant will be submitted in August; the mowing ended in December and will restart this month or in March; Willow Grove tree trimming and brush clearing is being accomplished plus the trail maintenance is also part of an Eagle Scout service project to widen the paths and put benches up. We will need a re-permit with the Corps of Engineers.

Building Inspections and Code Enforcement: City Manager and Building Official discussed Jackson Ranch plus making an effort to identify various code problems. Certain buildings and properties are not in compiance whose owners are less than cooperative. The City needs to get the worst problems fixed first and leave some minor problems til later. The minimum building code needs a higher priority.

Police: City Manager said we are still working on the Animal Shelter and Gun Range options. The Dispatcher/Records Clerk is another area the department is working on accomplishing.

Streets: Street Superintendent Johnny Webber was unable to attend the workshop because he was in a class. City Manager discussed the streets program with a goal of seal coats every five years and overlay every ten years. Council Member Barnard asked why there was no bid opening on February 24 as was scheduled. City Manager stated the engineers had failed to include some details regarding Century Telephone's cables.

Keep Lake Dallas Beautiful: City Manager Fairburn said the committee has died but the staff has moved forward in this area. With the use of Community Service workers the litter pickup has made a big improvement.

c) Strategic Analysis: City Manager Fairburn listed some City strengths, weaknesses, opportunities, and threats. He stated that the role of the government of the City of Lake Dallas is to support the citizens of the City through having a responsive, communicative government; maintained, efficient traffic and drainage systems; safe, clean residential and business neighborhoods; and a balanced tax base and reasonable tax rates. The goals of City Council can be achieved by a Council that provides direction and support to the staff that must implement the work to achieve the goals. He mentioned that if one doesn't do anything that things will just get worse.

d) Goals and Objectives – Year: The budget will be coming up within the next couple of months;Street projects, Comprehensive Plan, and Codification completed by December; Park grant awarded by January, 2000; the environmental study should be complete so we can sign a five year lease on Willow Grove Park; Code Enforcement/Minimum Building Code running smooth by June; Fire Stations and Ambulance Transport improvements by September; Library/City Hall plan to be presented to the Library Board by March; joint cities animal shelter plans presented to cities in April; River Oak Way Park to be accepted by July if Pulte can get it finished; Jackson Ranch residential nearing completion by February, 2000; and commercial construction begun by October, 1999.

e) Projects for the Next Six Months by Department:

Administration – Y2K compliance; codification; Library/City Hall; City Secretary Certification (next two-three years); election; newsletter (April edition) announcing quarterly clean-up; City Hall maintenance/painting.

Planning & Zoning – Comprehensive Plan; economic development policies; mapping; Swisher Road extension planning; planned commercial option; incentive/abatement ordinance; Garza Beach - Texas Street planned to be discussed at March P & Z meeting.

Parks & Recreation – Master Plan; Park grant (revised); River Oak Way Park acceptance; Maintenance (mowing to restart soon); Recreation programs at Community Center; Willow Grove permit; Planning for a joint park board celebration to come to City Council in March; July 4th celebration; April trash cleanup day/Arbor Day; Pea Gravel at playgrounds since Street Supt. identified as another problem that there are hard surfaces under the playgrounds.

Health – Maintain inspection schedule

Building Inspections – Jackson Ranch residential and commercial; temporary signs.

Code Enforcement – Prioritization of projects; Kingswood Mobil Home Park; Gravel parking database; permanent border for gravel drives (no more than 50% of front yard); minimum building maintenance code regarding dilapidated buildings.

Police – Animal Shelter/Gun Range; Dispatcher/Records Clerk; School Community Policing Plan.

Streets – CIP constructed; work in othr projects (Boliver, Janet, Church, Alamo, and Goliad south of Main); street inventory; in-house projects; potholes; minor street rehab on rotation basis.

Drainage – Hundley to Lakeview and Garza Beach. These will be coming back at budget season as well as more drainage programs.

Keep Lake Dallas Beautiful – Right of Way litter pickup (Denton Drive, Shady Shores Road, and Hundley Street); Right of Way maintenance on Denton Drive and Shady Shores Road includes mowing and tree trimming; possible tree planting.

Fire – Budget: plans in place for improved transport; plans in place to build a nw Lake Dallas station and build another.

City Manager Fairburn also included an update to the City Council Members which included:

1) Texas Utilities transformer in City Park is currently on poles in the parking lot and needs to be moved. TU will come before the Council with an easement request in the future. The Council Members were in agreement not to inflict any hardships on the property owners regarding the placement of lines and poles.
2) The street bids were not opened on February 24 as originally scheduled. Bid opening will be rescheduled at later date depending on what legal advice we receive.
3) Garza Beach and the Texas Street development and the builder's concerns. A concept plan for a replat will be coming before Council before summer.

4) Tack Oil Sprayer needs to be used in warmer months. When the machine cannot be used, the crew uses cans of tack oil & does consistently do so.
5) Code codification: City Manager Fairburn has received over 50 pages of changes that he needs to review and return. Since each page has several changes, this page by page analysis of the code is time consuming.
6) Fire Dispatch: The budget shows a revenue of $10,000 for the dispatch contract. This number was put in after the Fire Department budget was completed. Their budget has a $5,000 figure and City Manager Fairburn recommends we accept the $5,000 and stated there is better coordination for the next budget and FY 2000 budget will have a payment amount of $10,000.
7) Public Information: The next newsletter is being worked on now. The theme will be code enforcement and property maintenance (parking, weeds, trash, and house maintenance). In addition, we will be sending out a brochure to Kingswood outlining the specific requirements for that area.

Kingswood Mobile Home Park is a major project for Code Enforcement. There was lengthy council discussion as to changes in the way people are advised of their rights and the admonishment. FE **BUSINESS**:

1. **Work Session on Fire Department Five Year Strategic Plan**

Chief Thompson presented a draft five year plan for the Fire Department covering both operations and CIP. A main portion of the plan was a three year capital improvement plan that addressed reconstructing the Lake Dallas Station, building a new station in Corinth on the east side of the highway, land purchases for stations in Corinth and Hickory Creek, as well as apparatus and equipment. This would be based on a debt service with a lease purchase plan from a government finance company.

Ambulance services were also discussed with a plan including the City of Denton. They would staff the northern Corinth station with an ambulance and no longer charge for ambulance fees to the Lake Cities in exchange for fire coverage in a portion of south Denton. Though the building will not yet be constructed, the charges would stop October 1, 1999, and they would move an ambulance to their station at Teasley Lane until the new station is operational.

The current Corinth station would be remodeled for administration, training, and be the volunteer station. A proposal for storm warning sirens was also discussed.

Council Member Shikle had to leave at approximately 8:00 p.m.

Staffing was discussed with hiring for lieutenants, apparatus operators, and firefighters. Members of the Fire Board were introduced.

Seconded by Council Member Barnard.
There was dicussion that the agreement would include the pay raise of 7%, the $100 adjustment for use of vehicle, and for the term of three years. Mayor Wohr summarized concerns that were raised. These concerns were that the Council, at a later workshop, needs to develop guidelines appropriate on how to relate to the City Manager. The Council had concerns about the City Manager making written recommendations to the City Council on agenda items. The Council wants to have the City Manager take a less pro-active role with the Council and with the other boards and commissions. E. **<u>VISITORS/CITIZENS AGENDA:</u>**

Norma McAlavy, 25 Oakwood Drive spoke about lot 181 in Kingswood Mobile Home Park. It does not have room for off-street parking and the storage shed should not be considered a part of the home structure and the building license and permit should be revoked. She also wanted to thank Vikki Chandler, the animal control officer, who had helped her when a dog from #24 had jumped a fence.

Council Member Shikle gave a response to Ms. McAlavy because she had called him. He said he had called City Manager Fairburn and asked him about the building permit. Everything was within code and city ordinances. City Manager Fairburn said that on investigation the setbacks were correct. There may be some items on the attached shed portion that need to be changed and for some electrical work to bring it up to code.

Ms. McAlavy said Mike Fahey had been denied a permit because his addition had no windows or doors. She feels this in an exception beyond anyone's comprehension. She stated that she had talked with City Manager Fairburn many times and mentioned that a petition had been signed by property owners in the Kingswood Mobile Home Park requesting codes be enforced there.

Mayor Wohr said the council had been made aware of the situation by City Manager Fairburn. He said it was possible that the structure is legal and within code and the problem being aesthetic only. He said it does have our attention and we may have to review the zoning in R-1-4000.
Council Member Barnard asked if the procedure is to put in the building and then do the off-street parking or the parking before the building. Mayor Wohr asked Truman Harp, the Building Official to answer that question.
Building Official, Truman Harp, stated that the building and lot were measured and the permit issued and it was in compliance with our codes at the present time. True, we need to change some codes but we can't do it overnight. The structure and off street parking will be done and and they will be done to code before it is occupied. Council Member Barnard asked again about the procedures and if the city had a law about issuing the permit. Mr. Harp said he was asked to come out and measure for the building and was then asked for a permit which was issued. The parking was mentioned and was agreed that it would be done.
Ms. McAlavy said that after the shed and parking are completed that will leave no yard.

Rod Courtney, 162 Kingswood Road, said thank you for the social effort and that he appreciated it. He said he noted the agenda was pretty lengthy and knows it is in good hands so he excused himself.

Margaret Tisdale, 509 Howard, gave an overview of the time table about the Kings Manor Ditch. She said weeds were growing again and the project should have started. She also had a comment about gravel driveways and permanent borders. Her concern is that a lot of people with these types of drives are older people with limited budgets. Mayor Wohr said the issue is not borders being required but the type of border. He also said that through the bid process tonight the ditch program will be underway soon.

Mayor Wohr closed the Citizen's Agenda at 8:15 p.m.

Council Member Barnard asked if the procedure policy was followed on the street cutting on Hundley. City Manager Fairburn said that council had approved the cutting at the last meeting due to the transformer move. Council Member Shikle asked Chief Ristagno if we do anything about the Sexual Assault Awareness in our community. Chief Ristagno said that the Friends of the Family in Denton asked that the proclamation be done, they annually have a meeting in Denton, and through our budget process we try to contribute some funds for use in the family violence programs. Mayor Wohr said he went to a seminar on family violence last month in Denton and that the City of Lake Dallas had a very good representation. Council Member Shikle asked what the procedure was if a child molester moves into the neighborhood. Chief Ristagno said he must register with the Police Department and if he meets certain criteria the information in published in the newspaper. Council Member Bounds asked if we could put in our next newsletter that citizens could get that kind of information from our Police Department. City Manager Fairburn answered that we could do that.

Chief Ristagno added to his department's report that we are at full compliance with the F.C.C. We are applying for a frequency in order to have the repeater. The department now has the council approved police dog, Arno. On April 24 the department will hold an open house from 11 a.m. until 3 p.m. The North Texas Gunslingers will perform, a shetland pony will be here for the children to ride, and another Adopt-A-Pet will be held.

2. **Public Hearing on amending Section 18.30.010 requiring special use permits for certain establishments whose business operations include the sales or service of on-premise alcoholic beverages.**

Shelly Kristich, 298 S. Lakeview, asked for an explanation of C-1, C-2, and C-3 zoning and also asked if it was possible to have a bar in residential areas. Mayor Wohr answered that it was not possible to open a bar/private club in residential areas. He also explained that C-1, C-2, and C-3 zoning is commercial and which types are allowed in each. He also explained that while private clubs are allowed in any commercial property they are subject to TABC rules and that the city wants to add the Special Use Permits for any new clubs.

Cecil Graham, 1013 Kings Manor, said that the city shouldn't try to infringe on other people's morals. Mayor Wohr said that when you have a special use permit you grant them reasonably. We have different uses for Special Use Permits.
Mayor Wohr closed the public hearing.

3. **Consideration and action on amending Section 18.30.010 requiring special use permits for certain establishments whose business operations include the sales or service of on-permise alcoholic beverages.**

Council discussed the item. Winston Harper asked about someone wanting to put in a liquor store and also about getting zoning changed.. Mayor Wohr said this ordinance is involved with private clubs. There was more discussion about private clubs in C-3 zoning only but several council members agreed that TABC could regulate most of that and the City using Special Use Permits would be enough additional regulation. Council was advised that Planning and Zoning had voted unanimously on the issue of Special Use Permits.
Motion was made by Council Member Bounds to amend Section 18.30.010 requiring special use permits for certain establishments whose business operations include the sales or service of on-premise alcoholic beverages in C-1, C-2, and C-3 zoning. Seconded by Council Member Minnis.

4. **Consideration and action on accepting the bids and awarding the contract for the Street Bond and maintenance projects.**

Carl DeZee of Kimley-Horn and Associates, Inc. was at the meeting to answer any question council may have. Mayor Wohr asked him if any provision had been made for a construction manager. Mr. DeZee's answer was that it would not be on a day to day basis but they would periodically check on the contractor. He said they could start within 20 days if council awarded the contract tonight. There was more discussion on the competency and solvency of the low bidder. Mr. DeZee said they were bonded, had references, and there would be a 2 year warranty on their work here. They will only be paid for the work completed and it would cost them $200/day for any delays other than weather-related. Completion is scheduled for November or December of this year.

Motion was made by Council Member Bounds to accept the bid and award the contract for the Street Bond and Maintenance projects to the low bidder, Peachtree Construction, in the amount of $2,234,746.25. Seconded by Council Member Minnis.

There was more discussion as to what action the Fire Board was asking and it was determined it was to provide direction for their plan.

Motion was made by Council Member Bounds to approve the five-year plan and acceptance of the principles and carry to the Fire Board our concerns regarding the Lake Dallas property. Seconded by Council Member Barnard.

There was discussion about preliminary information handouts being given to those people who come to the municipal court. These handouts are currently in use. Those who would like to speak with the City Prosecutor can do so but are not required to. Chief Ristagno said staggered hours could be another option to two monthly court nights.

Motion was made by Council Member Minnis to adopt from the write-up items 1)the defendants receive their notification of rights from the bench and have a written sheet handed to them; 2)the defendants should not be required to meet with the prosecutor if they plead not guilty, and 4)remove the requirement to have the defendants go around the building after sign-in and allow them to be escorted through the administration area and to adopt the staggered hours. The Planning and Zoning Commission had sent their definition of permanent border and that was also discussed.

E. **VISITORS/CITIZENS AGENDA:**

Aldena Gregory, 603 Hundley, spoke regarding the current election. She was concerned with the cost of the machines and said that the first morning of early voting they did not have the ballots or supplies and the computer wouldn't work. The Denton County Elections Administrator brought the supplies and ballots. After several days the computer technician came to fix the computer and after discussion with her it was fixed and has worked all right since. The voter roster had an error so she advised the county. As of this morning they had new voter rosters to work with. She asked the City Secretary to lock up the first book in the safe until the election was over. She again voiced concern about the cost of the electronic counters. She said that as a taxpaying citizen she would rather use the election money on the streets.

The council members had discussion about the cost of the machines and Mayor Pro-Tem Shikle said we would get it on as an agenda item about running our own elections instead of contracting with Denton County.

Mayor Pro-Tem Shikle closed the Citizen's Agenda at 7:24 p.m.

F. **BUSINESS**:

1. **Public Hearing - to rezone Lots 4,5,6 Block One, Tract One, of Gotcher Addition and that portion directly east of these lots described as Tract Two of the CR Stockard Survey, Lot 7 from R-1-6000 to C-1 zoning district.**

Robbie Houghton, an owner of Houghton Electric Contractors and H & H Enterprises of Lake Dallas, said that they have sold their existing building and want to keep their business in Lake Dallas. The new building will be a 5000 square foot brick and metal structure and will house their shop and rent out the other side. He said the area already is pretty much surrounded by C-1 zoning.

Council Member Minnis asked where their entrance would be. Mr. Houghton replied that it would be off Gotcher. They plan to build on lot 6.

Mayor Pro-Tem Shikle asked if any other citizen wished to speak regarding this matter. When no one else asked to speak he closed the public hearing.

2. **Consideration and action on amending the zoning map by rezoning Lots 4,5,6 Block One, Tract One of Gotcher Addition and that portion directy east of these lots described as Tract Two of the CR Stockard Survey, Lot 7 from R-1-6000 to C-1 zoning district.**

Council Member Barnard brought up that they wanted to store some things outside and said that would require C-2 zoning. Mr. Houghton said the intent is to ask for that part to be re-zoned into C-2 at a later public hearing before the Planning and Zoning Commission and the City Council.
Motion was made by Council Member Barnard to table voting on the change to C-1 zoning until it has been taken back to Planning and Zoning for re-zoning as C-2. **Motion failed** for lack of a second.

Ralph Keeton, Grand Prairie, had discussion with the council members regarding street repair in the area of the new curbing planned for the replat area. Council Member Barnard asked if the land in question was right of way or easement. City Manager Fairburn said the terms were pretty much interchangeable. Council Member Minnis asked if the developer would be agreeable to pay for the street repair in exchange for the right of way acquired through the changing of the curb. Mr. Keeton said there wasn't much area of the street that would need to be repaired after the curb is installed. Mayor Pro-Tem Shikle commented that the area is beautiful and has really been improved and stated that he had no problem with the city helping out for the benefit of the citizens living down there. Mayor Pro-Tem Shikle asked Building Official, Truman Harp, if he had anything to say. Mr. Harp informed Mr. Keeton that over a year ago he had informed his partner that promises has been made about the drainage at Harbourtown. It has not been completed yet and he wants the drainage taken care of before any changes are made. Mr. Keeton replied that it was news to him. City Manager Fairburn said the replat had been approved by the Planning and Zoning. Mr. Keeton estimates their cost would be $2,000 for repairs and stipulates that would be the extent of their responsibility on the street. Council Member Minnis asked Building Official Truman Harp if that would cover the expense. Mr. Harp replied that $2,000 should correct it.

Motion was made by Council Member Minnis to grant the replat of a portion of Second Replat of Harbourtown Villas Lots 9B, 10a&B, 11A&B, 12A&B and 13A with the condition that the developer wll cover up to $2,000 for street repairs. Seconded by Council Member Bounds.

4. Consideration and action on renewing the employee health insurance with Aetna HMO.

City Manager Fairburn described the renewal policy that the council members had copies of in their packets which was chosen from the many quotes the city had received. There was discussion as to increase in budget item which is almost 17%; question as to whether it would be possible to have an interlocal with other cities; and had the employees been asked if this is what they want. Building Official Truman Harp said that normally there is a committee of employees to review the health plan to decide which is the best. Mayor Pro-Tem Shikle asked City Manager Fairburn if we had a committee last year and the reply was yes. Council Member Barnard asked if we could check with TML and the Police Association. TML had been contacted and would not quote us because it would be cost prohibitive. The city had also received quotes from Blue Cross - Blue Shield and Harris Methodist but their plans were also more expensive.
Motion was made by Council Member Minnis to direct the City Manager to adopt Attachment A of Aetna's renewal plan for the employees of the City of Lake Dallas. Seconded by Council Member Bounds.

2. **Mayor Wohr gave the invocation.**

3. **Mayor Wohr led the Pledge of Allegiance.**

4. **Visitors/Citizens Agenda**
No one presented themselves to speak at this time.

5. **Business:**
   a. **Consideration and Action on censure, suspension, or termination of the employment contract of the Lake Dallas City Manager.**

Mayor Wohr outlined the evening by saying that he would ask the councilmembers for their input; then open the meeting to citizen input; and the latter part will be council discussion. Mayor Wohr admonished all to behave properly.

Councilmember Minnis stated that the agenda item is not as he had requested. He stated that he had asked for an executive session with a public hearing to hear the comments of the people who were upset. Having the item framed the way it was made it seem that they were going to fire the City Manager. That was not his intention. Mayor Wohr stated that they could go into executive session when they felt it was needed.

Councilmembers agreed that the issue was the actions of the City Manager with regard to political signs and that it should be in open session.

Doug Keel, 107 Silktree Court, stated he needed some detail as to what the City Manager did or did not do. Mayor Wohr stated that is what the meeting is about is to determine the facts.

Neal Malone, 607 Cain, stated that he has enjoyed working with the City Manager through the Parks Board and that he appreciates the City Manager for the work that he has done.

Gene Tisdale, 524 Howard, stated that his signs that he placed in his yard were removed. He stated that the city manager stole his signs. He feels that this may be a misdemeanor or a felony. He complained that signs have been removed throughout the city, even unto the last day of the election. He was not apologized to, nor was Clyde or Betty. He had reported this to the Police Department but that they encouraged him to blow it off.

Rod Courtney, 162 Kingswood Road, described the sign code as it relates to political signs. He also mentioned that displaying of political signs has been a problem for the last few years. He asked council to consider a policy and give it to candidates.

Bob Davis, 68 Lakebridge, stated that he felt that by taking the signs the citizens civil rights were abused.

Clyde Edwards, 108 Dobbs Road, stated that he was offended by having the signs taken. He felt that the candidates should have been called and the signs returned to them. He stated that the city manager is making up his own ordinances, selectively enforcing those ordinances, and shows no sign of remorse. He stated that he called the city manager at home and asked if he was picking up signs. The City Manager stated that he had. Mr. Edwards also asked the City Manager to pick up the Flanagan signs in the right-of-way along Overly.

Chuck Graham, 1013 Kings Manor, said he shouldn't have done it and he should have apologized to the people he affected, the people who worked hard on this election. We want to get rid of some of these headstrong people who take it upon themselves to figure their own ordinances and do their own way.

Carolyn Green, 201 N. Shady Shores Road, said she called Stewart and he said he did pick up signs but he took them out of what he thought were easements. She said she believed him. She said she was concerned when she read the agenda title because we have so many things going on in Lake Dallas right now and it would set the city back 18 months to 2 years if they terminate the contract.

Margaret Tisdale, 509 Howard Drive, said she thinks that Mr. Fairburn is very hard-working city manager and puts in many hours and that there are not too many city administrators you would see out on the week-ends weed-eating and picking up trash. She said it's all just too political. She thinks we need another ordinance or someone unbiased to inform any and all candidates their legal distances regarding signs and if there is a question about the placement of the signs that candidate whose sign is being questioned should be notified that it should be moved within a certain time limit but should not be taken by a city employee.

Betty Harper, 390 South Lakeview, said she had been informed that some of her signs had been taken down and she asked Mr. Fairburn to have her signs returned and a list of the places where he had taken them from. She was disappointed that a city official had gone around pulling up signs. She didn't know if this influenced the election or not.

Winston Harper, 390 South Lakeview, said that Betty failed to say that she asked Stewart if he had pulled any signs that day after she had called him.

Ken Stapleton, 511 Ridgewood, said he wasn't there to talk about signs. As a newly elected councilmember he felt uncomfortable that this would be the last official act of this council and asked that they would move it to the new council and let them debate it. He feels their decision tonight could have such an impact on the city. He asked that council put their personal feelings aside and do what they feel is the right thing.

Maureen Awalt, 113 Shady Shores, said she knows Mr. Fairburn only by sight. She said she had signs in her yard every election year. She said Mr. Fairburn had handled a problem for her this past week. She said she thinks this is very unfair, it's petty politics, and we need to get on with business.

Mary Jane Flanagan, 722 Thousand Oaks Drive, said she thinks the timing is pretty bad. This was put together pretty fast. They've had problems in past elections with probably ¼ of their signs being pulled but they've just lived with it. We need to have factual documentation of where these signs were exactly and how many and not just just that signs were pulled. She did call and make a complaint about some signs being in the right of way. She said that if there is some judgement placed on Stewart the city is setting

itself up for big, big problems such as litigation and asked Mayor Wohr why the attorney wasn't there tonight. Mayor Wohr said he had not been asked to come to the meeting. She said she thinks we need to be real specific about the rules and regulations. Councilmember Shikle said we could call the attorney any time we need legal advice instead of having him sit through an entire meeting. He asked Mrs. Flanagan if she knew what date they first realized that their signs were missing. She said she doesn't know. She stated that the city manager did apologize to Matt.

Linwood Gilliland, 703 Payton Street, said there have not been many years that we haven't had problems with signs. The city does need to do something; they need to put it in their packet; they need to tell them what they can and can't do. If they don't have direction they don't know what to do. We need to get the information to the people from the state. Stewart has been a tremendous asset the the Planning and Zoning Commission. He invited the people to the Planning and Zoning meetings and council meetings so they will know what's going on. Councilmember Minnis said that last year during his campaign they had given him a copy of the sign ordinance and he didn't really notice anything in there pertaining to political signs. If they didn't put it in the packets this year it was news to him.

Shelly Kristich, 298 South Lakeview, said she's not there to protest, she's here to listen. She knows about one sign down the street from her that disappeared which was thrown away by the owner. If it is one of the signs being counted, please don't. Let's be accurate. She hopes this doesn't go on; we know to work together and work on the town itself.

Doug Keel, 107 Silktree, said he sees nothing in the ordinance as it relates to political signs and staff and people were acting on their own assumptions. Both sides see themselves as being right in this issue. It's also natural that signs can disappear. He thinks they should look at a specific sign ordinance that will clearly define what procedures are required.

Mayor Wohr asked Neal Malone if he had any more to add to what he had said earlier. He thinks everything has been covered. He still believes if drastic action is taken it will set us back 2 years.

Clyde Edwards, 108 Dobbs, heard a couple of comments he would like to address. He said it was Wednesday evening he talked with Stewart. He thinks it's absolutely imperative right now to call the ethics commission in and he requests the City Secretary to contact them and have them investigate because there's nothing petty about manipulating elections.

Chuck Graham, 1013 Kings Manor, said he just wanted to question council if any there remember when David Shershen was Mayor Pro-Tem and over the political sign exclusion. Mayor Wohr said he was part of that council.

Carolyn Green, 201 N. Shady Shores Road, said she doesn't think this is petty, she thinks it was a mistake. When we quit making mistakes we're not doing anything. She thinks the way to correct a mistake is to learn from it and if Stewart has not apologized to these people whose signs he removed, I think he should, even though it's an honest mistake.

Gene Tisdale, 524 Howard Drive, said he guessed he didn't make it very clear. It was 1 ½ weeks before the election that he noticed signs were missing and they were still being taken on the last day of the election. He thinks that is very important to be considered in making their decision.

Mary Jane Flanagan, 722 Thousand Oaks Drive, wanted to request that Mr. Fairburn make a statement if he would like. Mayor Wohr said he agreed with her and he would certainly have an opportunity however in all fairness he certainly is not required to make a statement.

Councilmember Barnard said we had heard from the newly elected councilmembers Betty Harper and Ken Stapleton and asked if Kyla Milan had any comments to make over this.

Kyla Milan, 915 Lakebluff Drive, said she had signs removed but she doesn't know who removed them. She said she was there to listen and take in the facts that are stated and keep her comments to herself at this time. She said she hoped whatever is decided on is decided for the best of everyone: the city council, the citizens, and Stewart.

John Howard, 109 Silktree Court, said he's new to the city and it's his first council meeting. He said it sounded like a fact finding agenda. He urged council to use restraint and not act in the heat of the moment.

Mayor Wohr gives the options before the council. He closed the citizens agenda since no one asked to speak and called for a short break at 9:21 p.m. Mayor Wohr called the meeting back to order at 9:45 p.m.

Mayor Wohr stated that he was asked during the intermission from some of the newly elected councilpersons would like to address the council. Betty Harper said they would both like to start their new council off with a very positive manner and not have a black cloud hanging over their heads. They would like for this to be resolved. Kyla read their statement, "in all fairness to the next city council we would like to request that consideration and action brought before the city council be resolved tonight by the present city council to allow clean and new business to prosper."

Mayor Wohr said in keeping with what he set out as the original agenda he will offer the opportunity to City Manager Fairburn to make a statement if he would like and if he wishes to he can take questions from the council.

City Manager Fairburn said lots of things had been said tonight and some he wholeheartedly agreed with. Some folks were stating that he was unethically acting and his morality was failing in this case. He said he could assure them that this is wrong. If he was out to manipulate the election, why would he admit to having taken signs. When he was asked he could have denied it. He thought he was doing his job. He had informed council of what he was doing. He said the code says signs randomly places in rights of ways are not allowed. He did not select signs based on whose name was on the signs. He said he took very few signs at very few times because he was trying to be careful and give the benefit of the doubt whenever he could. Saying all the signs that were taken in Lake Dallas he took and up to the last day of the election is untrue. It was the previous week that he was out twice and picked up signs. The signs he picked up were Betty's, Clyde's and Kyla's. Ken didn't have any signs out and he can't remember if he picked up any of Thanna's. A simple phone call would have avoided this whole mess. He was treating candidate's signs as weight loss signs and that was wrong. He does agree that apologies are due all the way around. He thought he had given Betty an apology the night he talked with her and Winston. He wished he had talked to some other cities before he had done this, but he didn't. They said it's very difficult to enforce that code. He liked many of the ideas that were expressed tonight. It is a difficult situation for any city employee to go after signs because the people you are enforcing against are going to be your bosses. Apologies are due not only to the candidates but the citizens as well because one of the issues tonight is the issue of trust because one of the things that is always very difficult is trust between citizens and government anyway and to have created a situation that helped weaken that trust is very difficult for him. He has worked very hard to try to establish that trust. One of the things said tonight, and he appreciates the comments that were made, that a mitigating factor in the situation is that it would be difficult to replace the City Manager, we would have slowdowns, and those types of things; there was even mention of litigation. That has nothing to do with this. If City Council feels that he was out to steal signs, that he was out to manipulate the election, that his morals and ethics are so low that he would do such a thing, that he wasn't being above board in what he was doing, then they should take the most drastic of action. If you feel I should have done a better job on that, not being careful enough, of not going out there and making phone calls, whatever you need to do with that I wholeheartedly accept. I felt they were in the right-of-way and I

felt it was the duty to deal with the sign code and to make sure that those not on private property were picked up. He certainly wished he had made more phone calls but by that time the meeting had been called. He had mentioned to council that he felt bad for his decision, he does, because they take the brunt of this. Mayor Wohr asked if he would take questions from council and he agreed.

Councilmember Shikle asked if if was true that he had called Matt Flanagan and given him an apology. City Manager Fairburn said not quite. He had spoken with Matt Flanagan and before talking with him he had been informed and shown exactly where he had made the mistake on Overly. When he talked with Matt he said he had just been informed that he had picked up some of your signs, sorry I picked up those signs, they were not in the right of way. Councilmember Shikle asked if he had made any attempts to contact Clyde Edwards and Betty Harper. He said he had talked with Clyde when Clyde called him and he explained to him that he wasn't taking signs off private property, that no one else brought forward anything that he had taken signs from the wrong places. When he talked with Betty that Thursday evening here, he's sorry he wasn't clear enough with his apologetic words. Councilmember Shikle asked why it became a priority during the election that he had to personally take care of the sign ordinance. He asked if there had ever been an attempt to have the sign ordinance enforced over the week-end. City Manager Fairburn said not on the week-ends specifically. We have the real estate signs which are picked up on Sundays, they're not there on Mondays, the garage sale signs are up and down. To answer why did he do this was it's not number one priority, but he certainly has a lot of priorities and he does take tours of town. While he was taking tours of the town and saw signs and on a couple of occasions he picked some up. He received a couple of complaints about signs and he deals with complaints. Councilmember Shikle asked how many complaints he received. City Manager Fairburn said he received probably 2 phone calls. Councilmember Shikle said when he talked with him earlier in the week he had asked Stewart about the signs in Gene Tisdale's yard. City Manager Fairburn felt that all the signs he picked up were in the right of way. If he missed the edge of the right of way that is a possibility, he didn't do a survey of the distance. He was not trying to discount what these people were saying. He picked up what he identified as being in the right of way. He had never talked with Gene about it. Councilmember Shikle asked City Manager Fairburn why he didn't feel that Code Enforcement should handle. City Manager Fairburn said that was his first error. Councilmember Shikle said he certainly agreed with what Betty Harper and Kyla Milan said that this council should handle the situation and not let it be an issue for the new council so we can move forward.

Councilmember Bounds said she agreed with Councilmember Shikle but there's another side to the coin. It's not fair to Stewart and his family to be dragging this on. We need to make a decision now.
Mayor Wohr said he would prefer not to open this back up to the public, he said he sees two people with their hands up and he knows what they have to say is probably important or maybe it's a rebuttal but he thinks their position has been made very clear. Mayor Wohr asked council if they would like to hear from these people. Council had no objections so Mayor Wohr asked the citizens to keep their comments very, very limited.

Betty Harper, 390 South Lakeview, She said she left school at 4 p.m. and came out here and stayed out front until just before Stewart arrived. If Stewart called the house it would have been on the answering machine. There was no call on the answering machine. Apology? No. When she told Stewart how she felt, that she waited and hesitated to join into this campaign because of the mud-slinging in the past, she doesn't like that. She waited until the last day to sign up. She told Stewart that not my opponent, not the other candidates, but only you put a cloud on this election. You did not say, "I'm sorry." You said, "I understand." You did say at one point it was not your intent to do so, that you were trying to not involve your workers. But at no time was there an apology.

Gene Tisdale, 524 Howard Drive, said it made him sound like he was lying about where his signs were, but when you walk into the ditch and back up on the other side and up on level property, 90% of the time you are in someone's yard. He said he's not a liar, he did not lie about it, it was on his property.

City Manager Fairburn had a reply for Mr. Tisdale and said he did not say he was a liar. In his explanation he was trying to do the complete opposite to that. Mr. Tisdale felt they were on private property, Mr. Fairburn felt they were on the right of way. He's saying he may have misjudged where the right of way was. He said he had come to City Hall from the meeting, he did not go home first, and he did try to call the Harper residence, there was no answer, has no idea why it didn't show up, he did not leave a message and right thereafter he saw them outside.

Mayor Wohr said he would close the citizens agenda and hear comments from the council.
Councilmember Shikle said at the beginning of the meeting it was discussed that they could go into executive session without it being posted. Mayor Wohr said he believes if something comes up on the agenda that they could close the meeting to the public. Councilmember Minnis said he wasn't so sure about the legality of it. Mayor Wohr said it was certainly not something that he was 100% comfortable with. Councilmember Bounds said she was in favor of doing it in front of all these citizens.
Councilmember Minnis said he'd heard the ethics commisson brought up; he's heard a potential violation of state law brought up; he'd gone into this hoping it would be a fact-finding type of thing and then they could take action on it after they had compiled all the facts. He feels they have compiled a lot of testimony but it still leaves some doubt as to whether there are other recourse we could come to. Mayor Wohr said the recourse for an ethics commission violation would be for a candidate who is not satisfied with the fairness of the election to request that there be an ethics commission investigation and would most properly be in writing and addressed to the City Secretary and forwarded on the the ethics commission. He said he would caution you would have a much higher burden of that type of position because the ethics commission would have to find some kind of organized effort to change the outcome of the election for them to investigate. A criminal violation would be something the district attorney would investigate.
Councilmember Minnis asked Chief Ristagno if the signs are considered private property. Chief Ristagno said signs have a monetary value and if someone intentionally stole them it would be a criminal offense. It would be theft. With any theft you have to prove intent, that's an element within the code of criminal procedures. You have to establish that the individual intentionally tried to deprive someone of personal property. That is one of the elements that have to be proven in a court of law. It's written in the penal code. Councilmember Minnis said this was sort of reminiscent of an interrogation type session where you have an alleged crime, you have an alleged perpetrator, you have an alleged complaintant. It seems right up your alley here. Do you see a potential crime being committed? Mayor Wohr said he was going to object to that question. He thinks it would be unfair under this set of circumstances. Mayor Wohr said if one of the persons whose signs were taken would like to initiate a criminal action by contacting the Police Chief, we can do that. The ultimate issue that the council is there to discuss is the options regarding an employee. Councilmember Minnis said we definitely have enough proof out of the city manager's statement saying that anything short of a reprimand in the employee file would be unacceptable.
Councilmember Shikle said this is a situation where a citizen feels his rights have been violated since stuff was taken off their property and they should file a complaint. We have one citizen's statement that he came to the Police Department and there will always be mixed feelings with that. Stewart admitted he made some bad decisions here and there's other things that he should have done, and certainly if you were in doubt of anything being on the right of way then, if you're in doubt of doing something, then you certainly shouldn't do it. We are going to have to take some action on this and to what extreme we'll just have have to see how it goes.

Councilmember Barnard said he understands the concerns of the citizens. He has lived through the same problems, not with Mr. Fairburn, but he understands. He also knows that terminating Mr. Fairburn wouldn't be the course to go. He would like to see him at least apologize to all the people. He agrees with Councilmember Minnis regarding putting something into the employee file. He doesn't think he did it on

purpose. After Councilmember Barnard called City Manager Fairburn he knows he gave a piece of paper to the councilmembers to admit what he had done. This was good for those who are judging him but he should have also contacted the citizens which would have been more respectful, not calling him disrespectful, but it was an oversight. His feelings on this is that political signs should be able to be put anywhere other than city property. If we maintain an easement and the city tells him he has to cut the grass out there, then he should be able to put a sign out there. If it's not in the parks, not in front of City Hall, not in the Library, and not in the voting place where it's already been established by law, he thinks one should be able to put a sign anywhere and there would be no question. It's a matter of policy, setting a policy in a future council. Not to have the Street Department, Police Department, or Code Enforcement pick up signs, if Mr. Fairburn did indeed make that decision to do it himself to eliminate the confusion, he took a leadership role. Somtimes you have to weigh what's good for the whole city. If it was stealing money, he wouldn't hesitate. That's one thing and the Police Chief could take over and run the city without a heartbeat missing. Someone mentioned litigation that possibly could come up by Mr. Fairburn and he said he wouldn't take that as a threat because that does not intimidate him. His thought would be some type of censure. Two things have to be done: 1) as a council they need to make it simple about putting up political signs anywhere but city property; 2) we have three things we can do: censure, suspension, termination, or nothing. To do nothing is a slap in the face to the people who are the reason for being here; suspending him, he said he did it to eliminate other people from being in the fire; censure, he should have called the people and given the signs back, not thrown them in the garbage. He said he's real sensitive to the signs issue. He said he's made a lot of mistakes but he's learned a lot. Was it Clyde Edwards who said, "We've got to forgive?" So, let's go on and up. There's a lot of things to do. This is important to me.

Councilmember Bounds said she believes that Stewart should make a public apology to all these citizens and specialy the candidates and the Council can see that there is a reprimand in his employment file. She said she doesn't think this is an offense to dismiss any manager over.

Councilmember Minnis said that he doesn't believe City Manager Fairburn willfully did this as a way to intentionally sway this election one way of the other. As disturbing as the accusations are he doesn't think under this type of forum they were going to actually get substantial proof to defend him or incriminate him, either way. At this point he agrees that Councilmember Barnard and Councilmember Bounds are correct that just a reprimand in the employee file with a copy of the apology letter and copy of anything pertaining to this matter that has already been made public record, be included into the employee file so that future councils that might have to weigh Stewart's contract or any disciplinary action will have all the facts that were presented to this council.

Motion was made by Councilmember Shikle that a letter be placed in the personnel file of the City Manager, Stewart Fairburn, pertaining to this situation, the errors made and that he be placed on a 30 day suspension without pay and during the period of the 30 days he would like to see Truman Harp appointed to look over our street project. Councilmember Minnis seconded the motion and questioned the legality. He said that he guessed Truman Harp could handle the correspondence with the engineer, but as far as actual city manager duties, Chief Ristagno is Acting City Manager. Councilmember Shikle gave his reason for naming Truman is because he's always on the streets. Councilmember Barnard asked how many it would take for the censure.
Ayes: Councilmembers Shikle and Minnis
Noes: Councilmembers Bounds and Barnard
There being a tie Mayor Wohr was called to vote and he voted 'No.'

Motion failed

Motion was made by Councilmember Bounds that Stewart make a public apology right now and the document be placed in his employee file as a reprimand. Seconded by Councilmember Shikle.
Ayes: Councilmembers Bounds and Barnard
Noes: Councilmembers Shikle and Minnis
There being a tie Mayor Wohr was called to vote and he voted 'Aye.'

Motion Passed

Mayor Wohr asked the City Manager if now would be an appropriate time for the apology.

City Manager Fairburn said, in fact, with his statements made earlier, he certainly had no qualms with giving another one. The situation to the candidates for not dealing with them as evenly as he should have, to not give them the phone call, and to just go out and treat their candidacy as just another sign in the road, he apologized. He apologized to the citizens for this trouble. This is something that Lake Dallas does not need. There's too many things to go forward on and he apologized to all of them for slowing down what should be going on, for taking up their time and the council's time for dealing with something they should not have to deal with. There's too many other things to do. He will certainly try to make it up to them all by working hard and working well and working with this and future councils.

Mayor Wohr closed the Citizen's Agenda since no one else asked to speak.

H. BUSINESS:

H-1. Consideration and Action on Reports

Councilmember Shikle said the financial reports were becoming too big and to complicated. There were too many pages and different dates. He asked that the reports be made more simple and staff said they would work on that. Councilmember Minnis had questions about monies allocated for the police repeater and the lesser amount spent; he asked if we didn't have two code enforcement cars; he asked about the cost of the business cards; he asked if we are paying $11,000 for TML dues; the $400 plus to Smith for a mower—was that the mower they authorized; the check to Beth Keel for $1710 and where is the city's percentage; City Manager Fairburn stated that the rest of the money will be spent at the time we receive the frequency; we only have one code enforcement car; we will check into the expense for business cards; the TML is for insurance; that was for the bush mower; the check to Beth Keel was her 90% and the city's portion is under Revenues, in Classes, account 4470. Councilmember Shikle asked about the Bike Patrol expense for uniforms. City Manager Fairburn stated we have a new officer and had to get new uniforms. Lt. Lowery said the uniforms we had were to big for the current officer. Councilmember Shikle asked for an update of what the bike patrol has cost us. He asked about the costs reflected on the last page of the budget summary. City Manager Fairburn said that was the engineering fees were the amounts shown in those accounts. Councilmember Shikle asked that our printing be corrected so that numbers can be more easily read. City Manager Fairburn said we would see if we can improve that. Councilmember Milan asked about the $8937 to the City of Denton. City Manager Fairburn said that is a quarterly payment for the annual contract for ambulance service to the city.
Motion was made by Councilmember Minnis to approve the financial reports and pay the bills. Seconded by Councilmember Stapleton.
Ayes: Councilmembers Milan, Shikle, Stapleton, Minnis, and Harper

Lt. Lowery reported on the recent open house held by the Police Department. He stated they had a good turnout as well as good input. Councilmember Minnis thanked the department for the open house. He then asked what the police department had done in response to the announcement by the Fire Board about no service in the county areas after September and asked what had damaged a patrol car. Lt. Lowery said they would look into what procedures to follow but when called about a fire in the county we will notify the county; he said the officer had not seen a tree felled by the storm that same night when he answered a call that required him to travel on Church Street. He said it will probably not be repaired because the damage is minimal and the vehicle is due to be retired this October. City Manager Fairburn stated there was a meeting with the County Judge and Commissioner Krueger and the letter from the fire board was kind of a plea for help. The county is looking county-wide to develop a better funding method for the 28

departments. Mayor Wohr met with Commissioner Krueger also and feels they will attempt to address this issue without cutting any other funding. Councilmember Minnis asked Frank Barnard if this issue would come before the Citizens Budget Advisory Committee. Mr. Barnard said it had come before them twice. Councilmember Milan asked how the canine was going to benefit the City of Lake Dallas. Lt. Lowery stated the department hoped it will reduce our drug problem. With the previous canine the drugs decreased on school grounds when there were school sweeps. He said the dog is already trained and Sgt. Sparby is working with him in a tracking school in Garland so he would be available in the case of lost children.

Mayor Wohr asked Frank Barnard for a report on Denton County. Mr. Barnard reported on the building of the new jail and tax monies given to charities which are not federally mandated. They are addressing the fire board situation.

Councilmember Minnis asked City Manager Fairburn if the city mows the property that has tall grass and the owners do not mow this grass after we contact them. Wouldn't it be better to contract the mowing out and keep the street department people for streets? City Manager Fairburn replied that if we contract it out, send the property owners the bill and the owners do not pay, then the City will be spending taxpayer money to pay the contractors and will have to spend more money to file a lien against the property and may or may not recover these monies. Councilmember Stapleton said he would like to see this as an agenda item. City Manager Fairburn said we would need money budgeted for contractors and we would have to gt prices from contractors. Councilmember Shikle said he would like to have an agenda item soon dealing with elections being contracted to Denton County or run by the city; he requested a copy of the schedule for street repairs; he stated he does not want to receive any papers on the night of council. City Manager Fairburn read the street schedule from his report. He said codification should be here for approval within 3 months; staff is working on the Y2K situation; Planning & Zoning is working on the Comprehensive Plan and last month they met with the Main Street people. The next area will be input from the Denton Drive corridor. Parks Board is working on Parks Master Plan and it will be coming back to council. The animal shelter and library joint issue with Hickory Creek will also be coming back to council. No agreement as yet at Garza Beach. Jackson Ranch is preparing for Phases II and III. Newsletter will go out next month highlighting police programs, quarterly clean-up and 4th of July. Mayor Wohr asked if we could put information in regarding the Councilmembers. Councilmember Minnis said he misundertood the newsletters were to have had a different format. We will look at this. City Manager Fairburn said he had dropped some future agenda items at their seats this evening.

H-2 . <u>Public Hearing - To rezone Lot 6 Block One, Tract One, of Gotcher Addition and the portion directly to the east of the CR Stockard survey from C-1 to C-2 Commercial zoning district.</u>

Robbie Houghton spoke said he didn't understand completely the zoning change when he asked for C-1 zoning for this property. He is asking for C-2 so he can store some items outside. He said the Planning and Zoning had approved, not unanimously. Councilmember Stapleton said he would like to see the minutes of that meeting. Mr. Houghton said the only opposition to the change was the concern of spot zoning.

Frank Barnard, 328 Betchan, wanted clarification. He said if you are manufacturing or assembling products storage is allowed only inside the building. Neither C-1 or C-2 addresses any fencing. The only part of code book that addresses fencing is M-1. He asked council to ask Planning and Zoning to look at this again. He also said there are companies in surrounding towns who are not allowed to have outside storage.

Shelly Kristich, 298 Lakeview wanted to know where are these companies if they can't store outside. Mr. Houghton said Winn Electric stores outside in Lewisville and that P & D kept stuff outside. Mayor Wohr closed the public hearing.

Mayor Wohr closed the public hearing.

H-3. **Considration and action on amending the zoning map by rezoning Lot 6 Block One, Tract One of Gotcher Addition and the portion directly to the east of the CR Stockard survy from C-1 to C-2 commercial zoning district.**

Councilmember Shikle asked if there was any kind of variance that could be given to Mr. Houghton. City Manager Fairburn said the Board of Adjustment would have to look at it. There was discussion as to what can be stored outside and what time lenghths are involved. He also said that perhaps the definitions in the C-1, C-2 and C-3 zoning need re-worked. He said there would need to be a public hearing and go back to the Planning and Zoning Commission and council in June.

Linwood Gilliland, 703 Payton, said he reads the ordinance line Councilmember Shikle. He said we have a screening ordinance and that with just a few words we can straighten this out.

There was discussion about whether Mr. Houghton should withdraw his petition for a zoning change and hav his $250 refunded or what the process should be. Mayor Wohr said there should be no delay in the construction process.

Motion was made by Councilmember Minnis to table this item until it comes back from the Planning and Zoning Commission regarding amending C-1, C-2 and C-3 zoning areas regarding outside storage and screening. Seconded by Councilmember Stapleton.

H-4. **Consideration and action on a minor replat of Lots 10 & 11, Block A and Lots 7&8 Block B or Barmarchar Sites.**

Mike Wolverton , 7822 Briar Meadow, Dallas, asked to combine the 4 plats into 2 plats to be devloped. The alleyway would be removed and they are proposing a drive from the service road to Denton Drive. Councilmember Minnis asked if the proposed drive would be city responsibility or property owner's. Mr. Wolverton said the property owner would maintain the drive. Councilmember Shikle asked if the city would lose any tax revenue by changing the lot sizes. City Manager Fairburn said, 'No,' because then we would have to large lots at higher value than 4 lots at lesser value.
Motion was made by Councilmember Shikle to approve the minor replat of Lots 10 & 11, Block A and Lots 7 & 8 Block B or Barmarchar Sites. Seconded by Councilmember Minnis.

H-6. **Consideration and action on a request to have the city place and maintain the street infrastructure in the underdeveloped area of Oaklakes North.**

Mayor Wohr said he would abstain from this due to personal interests.

Chuck Graham, 1013 Kings Manor, stated that he and his wife own 10 lots in the area and have paid a lot of taxes and watched the roads deteriorate until access is limited; have seen it used as a dumping ground; have seen the cemetery take over some lots; U. S. Homes put in a sewer line; and, the city trucks have backed over the culvert. He asks that the City of Lake Dallas take responsibility to fix and maintain the streets. He feels that U. S. Homes should be responsible for replacing missing stakes as a result of the sewer line. Councilmembers discussed feasibility of the Street Department's ability to maintain the streets.

Councilmember Minnis asked City Manager Fairburn if the streets have been dedicated. City Manager Fairburn said yes, but until they are developed and accepted by the city there is dedication on the plat. Councilmember Minnis asked how feasible would it be for our Street Department to make the streets passable. City Manager Fairburn said there are several issues we could look at and bring back to council. He said the big issue would be the bridge being acceptable to traffic. Mr. Graham said the individual property owners paid for the surveys in answer to a question from Councilmember Minnis. There was discussion by council. Councilmember Minnis asked if the city is currently maintaining the street. City Manager Fairburn said that right now we are only maintaining the lock on the gate. City Manager Fairburn said we could look at the issue and look at the possibilities since the area is between the Thousand Oaks subdivision and Jackson Ranch subdivision. Councilmember Harper stated that she felt the developer should be responsible for the streets.

Linwood Gilliland, 703 Payton, asked to address the council regarding the cemetery lots. At that time the Mayor, Councilmembers, and City Attorney told them there was no problem with what they were doing. He said lots of people don't have good streets.

M.J. Graham, 1013 Kings Manor, stated that she could relate some history. It wwas developed when it was still in the county and was annexed into the City of Lake Dallas when Lake Dallas incorporated the last time. There have been several developers there and the last one did the most work. During inclement weawther you can't get back into the area.

Council Member Minnis asked how drainage from other cities could come into our city without some sort of control. City Manager Fairburn said that the requirements coming out this fall will include cities our size as to drainage requirements. City Manager Fairburn replied to Councilmember Stapleton request for a repeat of the options open: 1)special district where property owners would be assessed and pay out over a number of years; 2) it could be a shared project with them; 3) U. S. Homes might be able to extend one of

their roads into the area because that bridge is difficult. Councilmember Stapleton asked the process and City Manager Fairburn said the property owners would have to initiate the procedure. Councilmember Minnis asked if we could find a cost if this were to be accomplished 'in house.' City Manager Fairburn said he could check into options available. There was more discussion between council and the floor.
Motion was made by Councilmember Shikle to authorize the City Manager , if he can satisfy the need to get up to the property, up to the amount of $2500, not to include any engineering research. Seconded by Councilmember Minnis. Discussion by the council followed. Councilmember Minnis withdrew his second. **Motion failed for lack of a second**.
Motion was made by Councilmember Minnis to table this item until staff can bring back some options of prices on what it would cost to put a road with minimum requirements of gravel, asphalt, or concrete and list various options of finance. Seconded by Councilmember Stapleton. City Manager Fairburn said the earliest would be next month.

Mayor Wohr listed Steven Bertrand (currently alternate to Board of Adjustment); Rod Proctor (currently Parks and Recreation Board member); and Frank Barnard as those available at this time for the position. Councilmember Minnis stated that he had previously asked to table this item until the quarterly newsletter went out so we could advertise for more applications. City Manager Fairburn said the next newsletter goes out the last week in June.

A. Visitors/Citizens Agenda

A letter addressed to the City Council was given to City Manager Fairburn to read. The letter referenced the Lakeside Terrace Condominiums stating that the swimming pool gate has no locks. City Manager Fairburn responded to a question from Mayor Wohr and said that City Code requires self-latching doors so the City will take a look at the situation. Mayor Wohr said we might want to send a letter to the homeowners association.

Mayor Wohr said he would now close the meeting to the public so council could go into Executive Session at 7:40 p.m.

6. Consideration and action on Incentive Policies for Commercial and Manufacturing Development and Tax Abatement Guidelines and Procedures, tabled at May 13 meeting

Councilmember Minnis said he would remove himself from any discussion as a potential conflict of interest. City Manager Fairburn said there were two items to look at that have come from the Planning and Zoning Commission. One shows what each city department can do to encourage business. The second portion references tax abatements and procedures. The policy reflects a 50% tax abatement for 5 years and perhaps 100% abatement during the first year of construction.

There was much discussion about the amount needed to change the property valuation. The Planning and Zoning Commission suggested $500,000, which is lower than the original policy. Council discussed lowering this amount to $100,000 and 10 jobs. Members further stated that if there were too many applications the amount could be changed later.

Motion was made by Councilmember Stapleton to pass the resolution adopting the guidelines and procedures for tax abatement, with the modification of setting the increased value at $100,000 and number of new jobs at ten. He amended his motion by adding adoption of the incentive policy for commercial and manufacturing development as written. Seconded by Councilmember Shikle.

He said Officer Menz had earned the Community Service Award. It was presented to Officer Menz by Mayor Wohr.

E. **<u>VISITORS/CITIZENS AGENDA:</u>**

Laird Lind, 735 Carlisle Street, spoke regarding Shamrock Homes development in the Boliver area in a joint venture with John Donahue. This venture includes the construction of a street to be named Texas Avenue which they will build with their funds and will front 28 lots. He asked for a stance from the City before they do any more engineering work and requested that they get an answer soon because the delays are costing them money. Mayor Wohr said we could get a council resolution through a special meeting since there had been no response to a letter sent last month to the property owner which contains the boat canal. Councilmember Harper told Mr. Lind she had been contacted by some citizens of the Boliver area regarding the ditches in front of some homes. Mr. Lind said they have done some work on that and plan to move a culvert so better drainage can be accomplished. Mayor Wohr asked City Manager Fairburn when they could schedule a special meeting. City Manager Fairburn said it could be held the next week and invite the property owner.

Frank Barnard, 328 Betchan Street, expressed concern about the City's responsibility for the drainage. Mayor Wohr said the contractor is building the drain and it will not be an expense to the City.

No one else presented themselves to speak so Mayor Wohr closed the Citizen's Agenda.

City Manager Fairburn reported that July 3 is the fireworks and parade with the fireworks beginning at approximately 9:30 p.m. He said the street and drainage projects are underway and he has notified engineers to spend more time on the projects. He said he would like to set up a meeting next week with the engineers. The Corps has changed some rules and the Shady Shores culvert design we had is not acceptable. We need to discuss our options with them. The Planning and Zoning Commission is working on the Comprehensive Plan and have scheduled the third special area work session for next week. They invited the Swisher Corridor people for their input on how to see the area developed with the Swisher Extension and Lake Bridge projects. The previous two area meetings were with the Denton Drive and Main Street people. City Manager Fairburn and Planning and Zoning Chair Gilliland met with a Planning Class at the University of North Texas and we should be getting some help provided by them. Their class project will be working on the Lake Dallas Comprehensive Plan. The Park Master Plan and Grant Application - we didn't make the cutoff in January so we have been re-working it. Council will receive the Master Plan at the July meeting and the application must be in by the end of July. The City Park plan is being re-worked to coincide with the Corinth Parks Development. Our engineering firm is helping us with some of those aspects. The Fiscal Year 2000 Budget will come to Council in August. The first draft is in because the departments had begun earlier this year and we have ideas flowing but still need to work on some of the numbers as well as the revenue projections. The July newsletter needs to go out soon to advertise the fireworks and parade, the quarterly cleanup, sex offender program, and other project updates. Garza Beach has already been discussed. The mowing for code enforcement – Johnny Webber was able to get someone to do the vacant, undeveloped lots. He is still looking for someone to do the developed lots. Mayor Wohr asked if anything had been done about the gate to the swimming pool area at the Lakeside Terrace Condominiums. City Manager Fairburn replied that he had spoken with Building Official, Truman Harp and the outside gate was merely decorative. The inside gate did not have the latch high enough. It will be fixed and a spring will be added so that the gate will close by itself.

2. **Public Hearing regarding revision of the regulations and screening requirements related to outdoor storage in commercial zoning districts**

Frank Barnard, 328 Betchan Street, said that 200 electric poles could be considered seasonal or temporary. He feels that off-site building materials should be behind a fence.

Linwood Gilliland, 703 Payton Street, said their definition of equipment was retail merchandise such as stored/displayed by True Value and Ace Hardware to separate it from a contractor's equipment.

John Lugenheim, 1917 Quail Run Drive, Corinth, said he does have some property in Lake Dallas and was trying to understand how the change to the ordinance would affect him.

Mayor Wohr said that as a general rule it will make things available that wouldn't have been previously. Mayor Wohr closed the public hearing.

3. **Consideration and action on revisions of the regulations and screening requirements related to outdoor storage in commercial zoning districts.**

Motion was made by Councilmember Stapleton to adopt the changes proposed by the Planning & Zoning Commission to C-1, C-2, and C-3. Seconded by Councilmember Milan. There was more discussion by the councilmembers. Councilmember Milan withdrew her second and Councilmember Stapleton amended his motion. **Motion** was made that no merchandise or equipment shall be stored or displayed outside a building unless it is completely screened from all directions according to 18.54.040 A & E except that retail merchandise may be stored or displayed outside a building if the merchandise is of a temporary or seasonal nature including the recommendation from Planning and Zoning on 18.22.020B and 18.24.020B and 18.54.040E with the exception of the steel posts. Mayor Wohr asked if anyone was there to speak on business item 5. Since there was no one he went to the Addendum item.

Addendum Item 1. Consideration and action on establishing a Web Page for the City of Lake Dallas

Terry Lantrip, 275 Market Street, spoke giving the history of the Internet and E-mail and the growth. The newspaper has a website called lakecities.com which gives information about this area. The City could do the same thing and could have the city ordinances on-line so it would be available to anyone at any time. Mayor Wohr asked how much maintenance and updating would be required. Mr. Lantrip said the newspaper changes theirs weekly and then publish it to the host site. Mr. Lantrip gave estimated costs to maintain an annual web site.

Motion was made by Councilmember Stapleton to direct city staff to go forward with establishing a web page for the City of Lake Dallas with an allotted budget not to exceed $500. Seconded by Councilmember Harper.

Mayor Wohr called for a short break at 9:30 p.m.

Mayor Wohr called the meeting back to order at 9:45 p.m. and with council's permission went to item 7 of the business agenda.

7. Consideration and action on preliminary report on developing/maintaining roads in Oak Lakes North

City Manager Fairburn said the City of Lake Dallas has accepted the plat. There is no legal requirement for the City to maintain the streets or put the streets in. The costs ran from $200,000 to $1.2 million. People who do the damage to the private property are the ones responsible for fixing properties. He said US Homes and the Oak Lakes property owners could get together and perhaps get an adjoining street instead of a cul-de-sac which could provide access to Oak Lakes and avoid the bridge. If the city wants to participate there could be a separate property tax assessed in order to help pay.

Chuck Graham, 1013 Kings Manor, said the number one issue, street maintenance, was resolved in the early 80's. He said the City Attorney took the information to the state and the state said the city was responsible for maintaining the streets. The other issue is that the city wants to assess costs on the lots on the north half and not on the lower half. US Homes has torn up some of the roads and trees. He said the council needs to rectify this situation if it wants to be a good council. He went before the cemetery board over a year ago to ask them if they would straighten up their fill and put up a retaining wall and has had no response.

Mayor Wohr asked Mr. Graham if he would like to sit with the council and US Homes and discuss the situation. Mr. Graham was agreeable.

Laird Lind, 735 Carlisle, said he was interested to see how this goes. He said he was amazed at the difference in treatment in this issue and his issue earlier because they sound so similar.

City Manager Fairburn said the cemetery people had come in and filled out a special use permit for those parts of the cemetery that are not in the original plot.

Building Official, Truman Harp, said Rob Bonet with US Homes. is the land developer at Jackson Ranch. He has looked at the road situation and will give a report to Mr. Harp and to Mr. Fairburn. They are interested in setting up a meeting and Mr. Harp said this can be taken care of.

CITY OF LAKE DALLAS, TEXAS

CITY OF LAKE DALLAS

The Lake Dallas City Council met in special called meeting on June 16, 1999 at 7:30 p.m., with notice of the meeting given as required by Title 5; Chapter 551.041 of the government code.

A. The following members were present and constituted a quorum:

Steve Wohr	Mayor
Kyla Milan	Councilmember, Place 1
Bobby Shikle	Councilmember, Place 2
Mike Minnis	Councilmember, Place 4
Betty Harper	Councilmember, Place 5

Councilmember Stapleton was excused.

Staff present was City Manager Stewart Fairburn and Acting City Secretary Joni Vaughn.

B. Mayor Wohr gave the invocation.

C. The Pledge of Allegiance was led by Mayor Wohr.

D. Work Session to discuss Garza Beach Texas Street development.

Mayor Wohr gave the background information on a situation concerning a strip of property in the Garza Beach area. It was platted in the 1920's and the topography is close to the same now as it was then. They had set out some common areas as streets and also set out a common area defined as or called a boat canal. The original plat was approved and accepted by the then governmental agency which was Denton County and as the City of Lake Dallas incorporated in 1967 it was part of the incorporation. The historical set of circumstances is that people built homes and provided their own drainage systems. The specific problem right now is the area defined as boat canal. There is a tremendous amount of drainage from Kings Manor area that goes across some of the properties. The upper part of the property has been purchased and is being developed. The developers need to know which was to route the drainage – either north or south. If the drainage is ro be to the south it will probably affect 15 - 20 property owners, at the minimum. The ideal solution would be to have the drainage to the north, to the boat canal, and down to the culvert on Lakeview. The property owner to the north, Mrs. Clancey feels that is her property. The developers would like to have the easement in order to build a street and tilt the street so the drainage will be to the north to a drainage ditch they will also construct with their funds so the drainage can go to the Lakeview culvert.

City Manager Fairburn said the language in the plat states all streets are dedicated to the public. The question has been whether or not the canal was dedicated for public use. The City Attorney found one case that stated a street is any "public way." This is still a grey area.

Councilmembers discussed what would be the city's legal obligation in this matter. It was determined that the City of Lake Dallas has no legal say in what happens. The developer simply wanted the city to tell them which way they want the drainage to go.

Councilmember Minnis stated that it would be best to go to the north but do we have the right to do it?

Diane Moser and Mrs. Clancey asked for time to get with an attorney to look over the plat, deed records, drainage study report and any other information before the developer proceeds with any street construction or drainage.

John Donahue and Laird Lind, the developers, are concerned with the length of time it is taking for a decision. They are ready to move on to more development in the area and need to know which way to go with the drainage.

It was decided that the developers would make copies of their information and City Manager Fairburn will furnish them with a copy of the drainage report. Diane Moser said they would look over the information quickly and wanted time to look at deed records and plat information. If the developers and the Clanceys have not come to a decision before the next regularly scheduled city council meeting it will be an action item on that agenda. City Manager is also directed to get legal advice from two other firms to help us in this matter.

B. Mayor Wohr gave the invocation.

C. The Pledge of Allegiance was led by Mayor Wohr.

D. Visitors/Citizens Agenda

Chuck Graham, 1013 Kings Manor, said he has noticed the streets were not being built as they should be. He said they are not putting down base material and not using tack coat. He reported a soft spot on Denton Drive already.

David Shershen, 166 Kingswood Drive, apologized for not being here sooner after the elections. He gave his congratulations to the new councilmembers, with regrets that Councilmember Stapleton was not at the meeting. He said he's had a lot of phone calls from citizens and on their behalf he wanted the councilmembers to know that they were elected by the city and asked all the councilmembers to find a way to work together. He waid we're at a very challenging time in our city. He said they represent all of the citizens and a lot of people are counting on them.

Jason Black, 319 Boliver, stated his first concern being the street and his second concern was the drainage. He said there's a lot of water that fills up and the streets are deteriorating. The holes continue to get larger and speaking for all the citizens on his street would like to know when their street will be fixed. Mayor Wohr said we are working on plans for the drainage and would ask for his input at the next city council meeting. Weather permitting, we will try to get city staff up there to look at the street and maybe do some interim repairs.

City Manager Fairburn said the builder in that area will be taking care of most of those things. They will be putting in more landscaping and grass which should help with the runoff and erosion problems. The City will be going out for bids on the streets soon and he should be able to come back to the council within 30 days with a price. He said he would have road crews check out the potholes.

Councilmember Harper asked Mr. Black if he was the one with the wire in his yard. He said yes and they had put a bucket over it. City Manager Fairburn said he would ask the builder to take care of it.

Doris Huto, 323 Boliver, said she has talked with the builder regarding that pipe and was told that it was the electric company's problem and that they would contact them. Councilmember Harper said she had been told it was the phone company's. When she went back it was still there so she talked with City Manager Fairburn . City Manager Fairburn said he would contact the builder tomorrow.

Mayor Wohr thanked them for their input and said he anticipates that we will have something on the next regularly scheduled meeting as specifically regards the drainage issues and that we may be able to get the builder to address some of these issues. He asked if anyone else wished to speak on the Citizens Agenda. No one else asked to speak so Mayor Wohr closed the Citizens Agenda.

E. Executive Session: The City Council will have an Executive Session to consult with their attorney on the contract for street and drainage construction with Peachtree Construction Company according to Local Government Code 551.071

The Council went into Executive Session at 8:00 p.m.
Council returned to regular session at 10:25 p.m.

F. Business

1. Action, if any, on Executive Session

No Action was taken

2. Consideration and Action on road construction discrepancies compared to the contract specifications

No Action was taken

3. Consideration and Action on design options for the Shady Shores culvert

Paul Haynes, Kimley-Horn and Associates, Inc. said that on the Shady Shores, Part A, that they had been dealing with the Corps of Engineers since fall of last year to get their recommendations and requirements. Just recently a new report was given that made our design unworkable. There are three options: 1) bridge; 2) road at same height as today; 3) road five feet higher. The road cannot be completed this summer.

Council discussion consisted of the options of fixing the drainage and paving the road; installing a box culvert and doing an overlay; making a higher, wider road. They also discussed the time frame of one year which would give time to seek funds elsewhere. It was determined that Denton County would probably be very supportive. The school district would be informed so they could arrange their schedules around the construction period. The engineers will get prices for options 2 and 3 and get back to council for July 8 meeting.

7. Consideration and action on options to improve the low water section of Shady Shores North

Lee Allison, Kimley-Horn and Associates spoke of the different options available to the city after restrictions had been put in place by the Corps of Engineers. These options included re-paving, raising the road a 'reasonable' level and installing guard rails, or a bridge to accommodate flowage easement. He said the estimated cost to maintain the road, remove existing culverts and re-locate new culverts and enlarge them so they could handle more drainage, and straighten the channel would cost an estimated $395,000 based on the current prices in the existing contract and he recommended a $25,000 contingency for final negotiations. ADDITION: COUNCILMEMBER MINNIS SAID WITH THE MONIES SAVED IT WOULD BE REAL FEASIBLE TO PUT A SIDEWALK ON ONE SIDE of SHADY SHORES ROAD FROM KINSWOOD to THE HOUSES BEHIND KINGS MANOR.
Motion was made by Councilmember Minnis to adopt the option to keep the road at the same elevation and re-do the placement of the culverts; and, have city staff work in conjunction with the engineers in any way needed. Seconded by Councilmember Milan.

8. Consideration and action on directing staff to contract for an inspector to oversee the day-to-day activities involving the street and drainage projects.

Mayor Wohr said he had been in contact with one person through Denton County who estimates a cost of $2,000 to $2,500 monthly. Mayor Wohr suggested a limit of $15,000 to do documentation, create a daily log, take pictures, video if required because there could be possible litigation. Council discussion included asking Building Official Harp and Public Works Director Webber if they would have time. Building Official Harp said he has had a few discussions on a few phases with the contractor and that he and Public Works Director Webber had covered it quite well to this point, but Johnny is busy with mowing and street patching. Building Official Harp said he would have ample time until the second phase gets underway in the Jackson Ranch area which will take 6 weeks to 2 months. He said in the meantime he has been checking the streets and been willing to do so and he has been doing so. Mayor Wohr asked him if he would be able to prepare a daily log. Building Official Harp said that's very easy to do and he has that at the present. Mayor Wohr expressed his concern about avoiding another situation like the one at Lake Vista Circle. Councilmember Shikle asked if these errors occurred prior to Building Official Harp looking over the streets. Councilmember Stapleton asked Mayor Wohr what his main concern was. Mayor Wohr replied that he wanted documentation and that he felt the spending of $10,000 to $12,000

was minimal on a $2,000,000 contract. Councilmember Minnis said he thought we had a project manager with City Manager Fairburn. Councilmember Stapleton said he thought City Manager Fairburn's job was to direct the employees. Mayor Wohr said he thought there had been a lot of assumptions in this matter.

Carole Harp, 3216 Broken Arrow, Denton, Texas, asked to speak. She said that in any city or state she had ever lived in and there was this large a contract there should be a project manager on it but the contractor pays the contractor, not the city. She said it should be in the contract. She also said that if the city goes into litigation a man who works for the city will have more clout than someone we hire. Councilmember Minnis said he thought Building Official Harp had enough experience to do the job and that we couldn't ask for a better watchdog and that he is very dedicated to the city. Mrs. Harp thanked Councilmember Minnis for his comment about Building Official Harp's dedication. Mayor Wohr said he didn't think it would sleight Building Official Harp if we had someone else do this because this is not a normal project. Building Official Harp stated that the contractor was very capable but he was subcontracting a lot of the work out and he didn't think that was legal. Lee Allison, Kimley-Horn and Associates, said they would check it out but that this is a phenomenon we are seeing in a lot of construction. Mr. Allison said they did recommend to City Manager Fairburn that someone be assigned to the project full-time and that they have a lot of respect for Building Official Harp and Public Works Director Webber. He also said they could give us some names to contact. Councilmember Harper asked if the contractor had been faxing their work orders daily as they had been asked. Building Official Harp said they had not. Mr. Allison said they had been slacking off lately. Councilmember Stapleton said his feeling has nothing to do with the qualifications of Public Works Director Webber and Building Official Harp. He said he thinks of it as insurance and it's not fair to ask either of them to double their load. Councilmember Shikle said he thinks we should follow the contract in making sure everything is done right by the contractor. Councilmember Minnis said that most of the things that either Truman or Johnny didn't catch was caught by a homeowner and the first person they would contact would be Truman. Councilmember Milan asked Building Official Harp if there's already been problems noted has it been written up and given to anybody. Building Official Harp said on everything that he's been on with the project, yes. Mayor Wohr asked him if he has some of that documented and to the engineers. Building Official Harp said he had the information but had not given it to the engineers because he didn't have the authority to do that. Mayor Wohr suggested that everyone on council think about a project manager and try to get some ideas. Councilmember Minnis said he wants to make sure Building Official Harp stays in that position with full authority come to council at any point. Councilmember Harper asked if we could direct Building Official Harp at this point to fax this information to the necessary people for documentation and notification on this contract. Mayor Wohr asked Building Official Harp to bring the documentation he has to city staff and staff can forward to the city attorney. Building Official Harp said he couldn't bring it to city staff because City Manager Fairburn was gone for two weeks. Mayor Wohr said he should give it to Chief Ristagno and he could fax it to the city attorney and he can make sure it gets to the contractor. Councilmember Minnis said he thinks it's important that council is kept up-dated in case there is a serious problem with the contractor.

Motion was made by Councilmember Milan to table this item until next Thursday's meeting. Seconded by Councilmember Stapleton.

E. Reports:

Boards and Commissions

Rod Proctor, Parks and Recreation Board, said the tree lighting ceremony on December 1 went very well and we had the biggest turnout he can remember. They continue to work on the sign for City Park and are working with the American Legion and the VFW for flags on the sides of the sign. In answer to a question about lighting for the sign, Mr. Proctor said they plan to have three lights, one for the sign itself and one for each of the flags. They hope to have

the sign in place by April. There is a group working on the park layout. They plan to have the gazebos in place for City Park and Willow Park soon. At the January meeting they will work up the schedule for 2002 so they can present that to the Council.

Mayor Wohr said we appreciate the work you did on the tree lighting ceremony. The Councilmembers also stated how nice it was.

Alan Fletcher, 917 Lake Bluff, gave an update from the Economic Development Committee. The City website layout is basically complete. He is currently working on the content and will be contacting everyone soon to get their information. The committee has received two RFP's on the economic plan. The major project they're starting on this year is a 'Shop Lake Dallas First' campaign. A lot of people don't really know how many places you can eat and shop in Lake Dallas. They want to make the residents aware of what is here in Lake Dallas.

Mayor Wohr gave thanks to everyone who participated in the senior dinner this year. It was a huge success and there was a very nice turnout. He said to let Staff know how much we appreciate them helping out.

Mayor Wohr closed public meeting at 7:55 PM.

Ronald Weston, 137 Cranberry Lane, Coppell, said Mr. Doerr can't speak because he recently had an operation. The owner of the building, Mr. Singh has been looking for a renter for over a year. This gives him another opportunity to get a tenant. The hours of operation would be 10 AM to 12 midnight 7 days a week and the Doerr's operate 19 machines.
Mr. Singh said coupons given are out from the machines, which can be used for local residents.

Mayor Wohr said these types of machines may become illegal and also said we don't want adult games, just video games. Chief Ristagno said the final determination is still in judicial review.
Concern about sufficient parking spaces was voiced. Mr. Singh said there is additional parking space in the back of the building.

Linwood Gilliland, 703 Payton, said he understands the owner needs to rent his property and the other man needs to make money, but, the State and counties have been destroying machines, fining people, and putting people in jail. We've had complaints that people have been going into these places and spending considerable amounts of money. We'd have to spend a lot of time in undercover work trying to find out

Alan Fletcher said the P & Z recommended a one year time limit for the S.U.P. as it would be worth reviewing after a year. It would be good to have an ordinance to regulate these machines.

Mayor Wohr said the Department of Public Safety has been policing these types of businesses. We would have more control through the Special Use Permits.

Mayor Wohr closed the public hearing when no one else came forward to speak.

6. Consideration and Action on approval of an Ordinance to issue a Special Use Permit to operate an arcade at 503 South Denton Drive, Lake Dallas, Texas.

7. Public Hearing on approval of an Ordinance for a proposed zoning change to Tract 2, Abstract 1163A of the J. W. Simmons Survey (Video Direct Plus, Inc. property) from M-1 Light Industrial district to C-1-A Business District.

Mark DeLoach, 5616 Preston Oaks, Dallas, financial officer with Video Plus said he understands that the city wants to change the zoning for the long term outlook for the city. He doesn't agree with it because they're playing with the future and he is working on the present. He said he's just concerned with the sequence of events since Payless is gone and how the city has proceeded since then.

There was discussion between Council and Mr. DeLoach about doing a workshop on some other type of business for their property.

Mayor Wohr closed public hearing since no one else came forward to speak.

9. Public Hearing on approval of an Ordinance for a proposed zoning change to Tract 20 of Abstract 0424A of the Nathaniel French Survey from R-1-10000 Residential district to C-1-A Business District.

Barbara Garrison, 508 N. Shady Shores Drive, said she was speaking for the Boliver family. We strongly object to you coming in and zoning all our property commercial. That's family property. They hope the City will give them some consideration on that. This is family property and we do not want it changed. They would rather the City wait until the Swisher Road extension is finalized.

Mayor Wohr said we need to have a plan in effect before the road comes through.

Linwood Gilliland, 703 Payton, said the Bolivers have been there for 52 years. These people came before P & Z and they have grandchildren who would like to live and build in that area. Is there any problem with zoning 200 feet on either side of the road and leaving the rest residential?

There was discussion regarding this being one last opportunity where we could have some planned development. No one has come in with a plat plan to ask if they can do this, but we anticipate that it will happen. We don't have the power to take a strip out of a lot because we need metes and bounds. Once a plat is done then we can change zoning accordingly. Perhaps this could be workshopped along with the Video Plus property.

Alan Fletcher said he believes it does need to be rezoned but he 100% feels for the owners concerns.

Mr. Boliver, 514 North Shady Shores Road, said they'd be okay with the acreage on the north side of the road being commercial. Later on the grandkids will probably build on the south part of the property. It's family land and they're not planning on selling it.

Mayor Wohr closed the public hearing when no one else came forward to speak.

Cheryl Williams, Masterplan Consultants, 500 South Ervay, Dallas, said she is representing Payless Cashways on this action. They are opposed to this action. Why is it being singled out as the only property to be rezoned C-1-A.

Mayor Wohr said it's our intention to do more zoning as C-1-A due to the platted extension of Swisher Road. Swisher Road on the other side of I-35-E contains a Wal-Mart and business areas so the east side of I-35-E should be a desirable place for retail.

Tonja Haylock, 213 Swisher Road, said when she first received the notice she opposed it. After attending the Planning and Zoning Commission meeting they are now in agreement with the P & Z. The residents think that this is the best zoning for the property. She referenced more property that will be zoned. What might happen on their side of the road?

Mayor Wohr closed the public hearing when no one else came forward to speak.
